Now in one stunning collection, four of Stephen King's most well-loved horror stories: The Mist, Apt Pupil, The Body, and The Sun Dog. Each standalone story is a riveting master class in short fiction from "the reigning King of American popular literature" (Los Angeles Daily News). In The Mist, terror descends in the wake of a summer storm. David Drayton, his son Billy, and their neighbor Brent Norton join dozens of others and head to the local grocery store to replenish supplies and become trapped by a strange mist that has enveloped the town. As the confinement takes its toll on the group's nerves, staying in the store may prove fatal—so, the Draytons, Brent, and a handful of other survivors attempt their escape. But what's out there may be worse than what they left behind. Apt Pupil follows Todd Bowden, a top-performing student and all-around "good kid" who learns his teacher, Mr. Dussander, is more than he seems. Turns out, Mr. Dussander is the target of a decades-old manhunt. He's never been caught, and Todd doesn't want to be the one to turn him in. Instead, Todd will face his fears and learn the real meaning of power—and the seductive lure of evil. In The Body, it's 1960 in the fictional town of Castle Rock, Maine, and a boy from a neighboring town has vanished. Twelve-year-old Gordie Lachance and his three friends set out on a quest to find his body along the railroad tracks. During the course of their journey, Gordie, Chris Chambers, Teddy Duchamp, and Vern Tessio come to terms with death and the harsh truths of growing up in this iconic, unforgettable, coming-of-age story that was also adapted in the 1986 film classic Stand by Me. In The Sun Dog, Kevin Delavan receives the perfect gift for his fifteenth birthday: a Polaroid Sun 660. But no matter where Kevin Delevan aims the camera, it produces a photograph of an enormous, vicious dog. In each successive picture, the menacing creature draws nearer to the flat surface of the Polaroid film. When old Pop Merrill, the town's sharpest trader, gets wind of this phenomenon, he envisions a way to profit from it. But the Sun Dog, a beast that shouldn't exist at all, is a dangerous investment... This beautiful boxed set makes the perfect gift for seasoned King fans and newcomers alike—and features impeccably crafted, page-turning stories you'll return to again and again.

Wanda Julienne was the perfect employee. Until she had a baby. Wanda, a thirtysomething single mother, would love to spend more time with her newborn daughter, and maybe even rekindle the flame she once had with her baby's father. Instead, she's stuck fighting discrimination and harassment at her horrid job. After maternity leave, Wanda returns to her fund manager position and finds her world turned upside down. Suddenly, everything she does seems wrong—at least in the eyes of management. Add in a dose of sexual harassment, and Wanda, who can't afford to lose her job, is trapped. At home, the situation isn't much brighter. Wanda struggles to balance her baby's needs and her tough work schedule. Her best friend, Galina, and the ex-boyfriend Wanda never thought would return, Max, offer support, but the attention only suffocates her. Wanda turns her back and isolates herself, submerged in a downward spiral, until Galina suggests a way out—but the exit won't be without drastic consequences. A novel of the glass ceiling: one working mother's story of fighting workplace bullying and sexism so that she finally has time for her baby—and a chance at love. Fans of Biglaw by Lindsay Cameron and Lean In by Sheryl Sandberg will enjoy the empowerment and triumph in this novel. Interview with the Author What was your inspiration to write The Creepshow? I was inspired by the current situation women face in the workplace. I feel that I've experienced discrimination in the past, and most women I've spoken with say they've also experienced it at some point or another in their careers. In so many fields and on so many levels, women fight to earn the same salaries and opportunities as male counterparts. And the situation becomes particularly complicated for many women once they have children. It sounds almost like a

true story! But it's fictional, right? Now that's a compliment! I strive to make my characters and their situations believable. This is indeed a work of fiction, but the protagonist, Wanda, is going through something many women today face, which makes the book seem pretty realistic! One of my favorite nonfiction books about women in the workplace and in leadership roles is Lean In by Sheryl Sandberg, CEO of Facebook. Some of the themes are heavy. Can you describe some of the lighter aspects of the book as well? Wanda rekindles a romance with her ex-boyfriend, who also is the father of her baby. Throughout the book she struggles with the usual concerns of someone in a new relationship. There is also a strong theme of friendship as Wanda seeks comfort with her best friend. What do you hope readers will take away from this novel? I hope they will take away strength to fight when faced with any sort of injustice, and hope, always hope. If you like reading about strong female protagonists who do all they can to fight unfair working circumstances, you'll enjoy The Creepshow. Thanks for reading!

Creepshow Simon and Schuster

Released in cinemas in 1982, 'Creepshow' is typically regarded as a minor entry in both the film output of George A. Romero and the history of adaptations of the works of Stephen King. Yet this lack of critical attention hides the fact that 'Creepshow' is the only full collaboration between America's bestselling author of horror tales and one of the masters of modern American horror cinema. Long considered too mainstream for the director of 'Dawn of the Dead' (1978), too comic for the author that gave audiences the film versions of 'Carrie' (1976) and 'The Shining' (1980), and too violent for a cinemagoing public turning away from gore cinema in the autumn of 1982, 'Creepshow' is here reassessed by Simon Brown, who examines the making and release of the film and its legacy through a comic book adaptation and two sequels.

Excerpt: Rose Red (also known as Stephen King's Rose Red) is a television miniseries scripted by horror novelist Stephen King. The series was premiered in the United States on ABC on January 27, 2002. The story involves a cavernous Seattle mansion called Rose Red, which is investigated by parapsychologist Dr. Joyce Reardon and a team of psychics. Dr. Joyce Reardon, an unorthodox university psychology professor, leads a team of psychics to the massive and antiquated Seattle mansion known as Rose Red in an attempt to record data which would constitute scientific proof of paranormal phenomena. The mansion is publicly thought to be haunted, as at least 23 people have either disappeared or died there and the interior of the house appears to change or increase in size. Reardon's team unleashes the spirit of the house, leading to several deaths and the revelation of the mansion's secrets. According to information revealed at various points in the miniseries, Rose Red was built in 1906 by wealthy oilman John Rimbauer for his wife, Ellen. Rimbauer used much of his wealth to build the mansion, which was in the Tudor-Gothic style and situated on 40 acres (160,000 m) of woodland in the heart of Seattle on the site of a Native American burial ground. The house was rumored to be cursed even as it was being constructed; three construction workers were killed on the site, and a construction foreman was murdered by a co-worker. While honeymooning in Africa, Ellen Rimbauer fell ill and made the acquaintance of Sukeena, a local tribeswoman. The two...
