The ornate reading room at the Boston Public Library is quiet, until the tranquility is shattered by a woman's terrified scream. Security guards take charge immediately, instructing everyone inside to stay put until the threat is identified and contained. While they wait for the all-clear, four strangers, who'd happened to sit at the same table, pass the time in conversation and friendships are struck. Each has his or her own reasons for being in the reading room that morning—it just happens that one is a murderer. Award-winning author Sulari Gentill delivers a sharply thrilling read with *The Woman in the Library*, an unexpectedly twisty literary adventure that examines the complicated nature of friendship and shows us that words can be the most treacherous weapons of all.

For a century, economists have driven forward the cause of globalization in financial institutions, labour markets, and trade. Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous. Where are the pressure points? What could be done about them? Dani Rodrik examines the back-story from its seventeenth-century origins through the milestones of the gold standard, the Bretton Woods Agreement, and the Washington Consensus, to the present day. Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia, it is a concept that rests on shaky pillars, he contends. Its long-term sustainability is not a given. The heart of Rodrik's argument is a fundamental 'trilemma': that we cannot simultaneously pursue democracy, national self-determination, and economic globalization. Give too much power to governments, and you have protectionism. Give markets too much freedom, and you have an unstable world economy with little social and political support from those it is supposed to help. Rodrik argues for smart globalization, not maximum globalization. *A Novel* Tor Books

"Red Rising ascends above a crowded dystopian field."—USA Today ONE OF THE BEST BOOKS OF THE YEAR—Entertainment Weekly, BuzzFeed, Shelf Awareness "I live for the dream that my children will be born free," she says. "That they will be what they like. That they will own the land their father gave them." "I live for you," I say sadly. Eo kisses my cheek. "Then you must live for more." Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity's overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society's ruling class. There, he will stop at nothing to bring down his enemies . . . even if it means he has to become one of them to do so. **The Woman in the Library** Red Rising Novel

"Surging sea levels are inundating the coasts." "Hurricanes and tornadoes are becoming fiercer and more frequent." "Climate change will be an economic disaster." You've heard all this presented as fact. But according to science, all of these statements are profoundly misleading. When it comes to climate change, the media, politicians, and other prominent voices have declared that "the science is settled." In reality, the long game of telephone from research to reports to the popular media is corrupted by misunderstanding and misinformation. Core questions—about the way the climate is responding to our influence, and what the impacts will be—remain largely unanswered. The climate is changing, but the why and how aren't as clear as you've probably been led to believe. Now, one of America's most distinguished scientists is clearing away the fog to explain what science really says (and doesn't say) about our changing climate. In *Unsettled: What Climate Science Tells Us, What It Doesn't, and Why It Matters*, Steven Koonin draws upon his decades of experience—including as a top science advisor to the Obama administration—to provide up-to-date insights and expert perspective free from political agendas. Fascinating, clear-headed, and full of surprises, this book gives readers the tools to both understand the climate issue and be savvier consumers of science media in general. Koonin takes readers behind the headlines to the more nuanced science itself, showing us where it comes from and guiding us through the implications of the evidence. He dispels popular myths and unveils little-known truths: despite a dramatic rise in greenhouse gas emissions, global temperatures actually decreased from 1940 to 1970. What's more, the models we use to predict the future aren't able to accurately describe the climate of the past, suggesting they are deeply flawed. Koonin also tackles society's response to a

changing climate, using data-driven analysis to explain why many proposed "solutions" would be ineffective, and discussing how alternatives like adaptation and, if necessary, geoengineering will ensure humanity continues to prosper. *Unsettled* is a reality check buoyed by hope, offering the truth about climate science that you aren't getting elsewhere—what we know, what we don't, and what it all means for our future.

*Fate of the Fallen* is the start of a brand new adventure from New York Times bestselling author Kel Kade. Not all stories have happy endings. Everyone loves Mathias. Naturally, when he discovers it's his destiny to save the world, he dives in head first, pulling his best friend Aaslo along for the ride. However, saving the world isn't as easy, or exciting, as it sounds in the stories. The going gets rough and folks start to believe their best chance for survival is to surrender to the forces of evil, which isn't how the prophecy goes. At all. As the list of allies grows thin, and the friends find themselves staring death in the face they must decide how to become the heroes they were destined to be or, failing that, how to survive. Grand Prize Winner of the 2017 New England Book Festival "I bake because it connects my soul to my hands, and my heart to my mouth."—Martin Philip A brilliant, moving meditation on craft and love, and an intimate portrait of baking and our communion with food—complete with seventy-five original recipes and illustrated with dozens of photographs and original hand-drawn illustrations—from the head bread baker of King Arthur Flour. Yearning for creative connection, Martin Philip traded his finance career in New York City for an entry-level baker position at King Arthur Flour in rural Vermont. A true Renaissance man, the opera singer, banjo player, and passionate amateur baker worked his way up, eventually becoming head bread baker. But Philip is not just a talented craftsman; he is a bread shaman. Being a baker isn't just mastering the chemistry of flour, salt, water, and yeast; it is being an alchemist—perfecting the transformation of simple ingredients into an elegant expression of the soul. *Breaking Bread* is an intimate tour of Philip's kitchen, mind, and heart. Through seventy-five original recipes and life stories told with incandescent prose, he shares not only the secrets to creating loaves of unparalleled beauty and flavor but the secrets to a good life. From the butter biscuits, pecan pie, and whiskey bread pudding of his childhood in the Ozarks to French baguettes and focaccias, bagels and muffins, cinnamon buns and ginger scones, *Breaking Bread* is a guide to wholeheartedly embracing the staff of life. Philip gently guides novice bakers and offers recipes and techniques for the most advanced levels. He also includes a substantial technical section covering the bread-making process, tools, and ingredients. As he illuminates an artisan's odyssey and a life lived passionately, he reveals how the act of baking offers spiritual connection to our pasts, our families, our culture and communities, and, ultimately, ourselves. Exquisite, sensuous, and delectable, *Breaking Bread* inspires us to take risks, make bolder choices, live more fully, and bake bread and break it with those we love.

What's missing from gender equality efforts? Men. Women are at a disadvantage in the workplace, where they deal with unequal pay, sexual harassment, lack of credit for their contributions, and more. And while organizations are looking to address these issues, too many gender-inclusion initiatives focus exclusively on how women should respond, leaving men out of the equation. Such efforts reinforce the perception that these are "women's issues" and that men--often the most powerful stakeholders in an organization--don't need to be involved. As gender-in-the-workplace experts David G. Smith and W. Brad Johnson show in this important book, men have a crucial opportunity to promote gender equality at work. Research shows that when men are deliberately engaged in gender-inclusion programs, 96 percent of women in those organizations perceive real progress in gender equality, compared with only 30 percent of women in organizations without strong male engagement. *Good Guys* is the first book to provide a practical, research-based guide for how to be a male ally to women in the workplace. Filled with firsthand accounts from both men and women, as well as tips for getting started, the book shows how men can partner with their female colleagues to advance women's leadership and equality by breaking ingrained gender stereotypes, overcoming unconscious biases, developing and supporting the talented women around them, and creating productive and respectful working relationships with women--especially in a post-#MeToo world.

A rare and brilliant story from Zadie Smith, taking us deep into the life of a young woman, Fatou, domestic servant to the Derawals and escapee from one set of hardships to another. Beginning and ending outside the Embassy of Cambodia, which happens to be located in Willesden, NW London, Zadie Smith's absorbing, moving and wryly observed story suggests how the apparently small things in an ordinary life always raise larger, more extraordinary questions. 'It's scale is superficially small, but its range is lightly immense; in the first couple of pages, the world from Ghana to London to Cambodia enters. It is a fiction of consequences both global and heartrenchingly intimate. This voice is global, plural and local, with a delicate grip on historic consequences..... Works on an awesomely global scale, and the relations of slavery and mastership are traced in both personal and international scale.' Philip Hensher, *The Guardian* 'Reading it is a bit like having a starter in a restaurant that is so good you wish you had ordered a big portion as a main course, only to realise, as you finish it, that it was exactly the right amount.' 'A perfect stocking-filler of a book that shows that short-form fiction can be as vibrant and as healthy as any densely realised full-length novel.' Louise Doughty, *The Observer* 'Smith serves up a smasher.' Leyla Sanai, *The Independent On Sunday*
