Over 26,000 total pages Background: The Fast and Furious operation was responsible for allowing approximately 2,000 firearms to illegally flow into the hands of criminals, including Mexican drug cartel associates. On December 14, 2010, Customs and Border Patrol Agent Brian Terry, a United States Marine, was killed while on patrol just miles from the Mexican border. The firearms found at the scene were semi-automatic rifles that were allowed to walk as part of Operation Fast and Furious. Congressional Republicans have investigated Fast and Furious since January 2011. Over the course of the investigation, the Justice Department has provided false information, stonewalled document requests, produced scores of blacked-out pages and duplicate documents, and refused to comply with two congressional subpoenas. In August 2012, the U.S. House of Representatives Office of General Counsel filed suit against the Justice Department. On January 19, 2016, United States District Judge Amy Berman Jackson issued her opinion and ordered DOJ release documents previously withheld under the President's executive privilege claim. On April 8, 2016, DOJ complied with the Judge's order, delivering more than 20,500 pages of documents to the Committee. CONTENTS: Statement of Michael E. Living on a Meme - How Anti-Corporate Activists Bend the Truth, and You, to Get What They Want is about the NGOs and activist groups that engage corporations

adversarially and how they use "meme" to further their anti-corporate agendas. What's meme? Say the word as meeeeeem. The dictionary says that a meme is an idea that spreads from one person to another. And thanks to today's Internet, memes get started, spread, and believed in a flash, whether they are true or not, making them formidable tools for groups that damage company reputations. Here in his fifth book, author Richard Telofski takes an in-depth look at anti-corporate NGOs and activist groups that use memes cleverly to "compete" with the image of the companies they target. These groups unabashedly use unchallenged memes to bribe people to their side of their anti-corporate argument. Bribe? Yes. By leveraging a meme, these groups bribe people with something, a way to feel better about themselves, often with scant or no support of the meme. Through their "meme-mangling," adversarial NGOs and activists can impose undeserved damage on corporate reputations, costing market share, revenue, and jobs, maybe one of them yours. These organizations are truly competitors, not only to the individual corporations that they target, but also to the economic system in general. *Living on a Meme* is compiled from a selection of articles published on Richard's Web site, Telofski.com, between August 1, 2009 through August 3, 2010. But, many of these writings are more essay than article. Within the essays in this book, you'll find insights, theories, as well as specific facts and analysis on how certain NGOs and activist groups operate online and offline to sap companies of their vital reputation. By reading this book, you'll discover how these "irregular" competitors make use of

existing cultural memes, true or not, and how they contribute to those memes, strengthening them and contributing to the degradation of a company's image. Don't worry. This book isn't just a repackaging of blog postings. You're going to get more than that. At the end of each chapter you will find bonus "Take-Aways." Those Take-Aways are critical analyses of the essays in the chapter, pointing out for you how what was just discussed relates to an NGO's or activist's reliance of living on a meme or their hope that YOU are living on THEIR meme for them. You'll also find in this book 23 exclusive essays that appear only in this book. So, start your journey now into the understanding of how anti-corporate NGOs and activists bend the truth, and the beliefs of people, to get what they want.
