Wholly black, it reached up and up until it loomed over her, blocking out the sun. Somehow, she knew, it was Death coming for her. Pre-med student Coral is on vacation in Idaho when something terrible happens. The black cloud is followed by a wildfire and searing heat that lasts for days. She survives deep in a cave but emerges days later to find the world transformed, with blackened trees, an ash-filled sky, and no living creatures stirring--except for her. So begins her desperate journey: to find water, and food, and other survivors...and the answer to the mystery of what happened. Gray I is the first novel in a series.

The cover of this book suggests it is a diet book. Or a weight loss book. It is so much more than that. It is a first-hand account of a mother, who through societal pressure felt she had messed up her first 3 births (and kids). Share Sharny's journey as she tells you how

she went from being the slave in her life, feeling trapped as though she were in a coffin called "bad parenting", with each new birth, she felt like she was driving a nail of failure on herself. Too tired to function, not enough milk, etc etc. All she wanted to be was the perfect mother to her children, but through lack of confidence, stopped listening to her intuition and became her worst enemy. With baby number 4, she decided to do things differently, very differently. Through ignoring society, listening to her inner voice and really focussing on herself as a mother, she turned her life around. She changed her eating to be for wellness and best quality breastmilk, and as a result lost 24kg in 8 weeks. But if that's all you get from the book, you only read the cover. Inside is a treasure trove of advice, and the courageous story of a public figure who through honesty to herself, turned her life around in a way that any woman can relate. And benefit.
