Empire. Trade. Religion.
Three crucial forces that have been almost equally responsible for shaping human civilization so far. Yet, the politics of empire has dominated history and popular discussion. Irrespective of the political upheavals, however, India has always been an open market-

welcoming traders from far-off lands, promising them a fair bargain. Indian entrepreneurs since ages had developed their own sophisticated institutions and wide community-based networks. This open, liberal and robust 'bazaar economy' thrived unhindered till the advent of European trading companies, who brought with them the notions of monopoly and state controls. Business in India blossomed in tune with liberal religious thought and Indian intellectual

tradition always fostered the spirit of questioning. Laxminana is an account of how the country's open market and its liberal religious outlook have nurtured each other throughout the centuries. Told through a medley of stories, this is the saga of India's socioeconomic power that has characterized not only the country's vibrant pluralistic society but also much of global history. An untold narrative of India's geographies, products and pioneers this is an unforgettable album of

heroes, who championed game-changing ideas at the intersection of faith and enterprise.

Problems of Ancient India
Northern Book Centre
With a Foreword by Olympic Gold Medalist Dan O'Brien (Decathlon), *Born Beautiful Biracial* is a compilation of children's essays with advice for kids who are asked questions about their racial and ethnic backgrounds: "What are you? Are those your parents? Are you adopted?" This book serves as an inspiration

for biracial children and teenagers. Everyone is unique. We all have different faces, hair, eyes, noses, mouths and skin colors. Not all of our parents look alike. Many have one parent who is black and another who is white. Others have one parent who is Asian and another who is black or white. Regardless of how we look, we live in a multicultural, multiracial world, a world where many consider Barack Obama the first black President of the United States. Barack Obama is

biracial. His mother was white and his father was black. Maybe, one of the children who reads this book may even grow up to be President one day. Hopefully, by then, it won't be such a big deal, because everyone will accept each other unconditionally.

1917... 'The Desert Column is based on the diaries that he kept through out the war. Published in 1932, it is one of Idriess' earliest works. Harry Chauvel noted in the foreword that it was the only book of the campaign that to his knowledge was "viewed entirely from the private soldier's point of view"... Idriess served as a sniper with the 5th Australian Light Horse. Enlisting in 1914, he began his diary "as we crowded the decks off Gallipoli" and he continued writing until

returning to Australia... The diaries cover his experience of some of the war's major events from life in the trenches at Gallipoli to the battles at Romani and Beersheba. One of Idriess' strengths as a writer is his ability to place the reader at the scene of the action... The diaries reveal a keenness of observation and a descriptive and pacey style that Idriess would develop further in The Desert Column.' - The Australian War Memorial

This book, Prof. H.C. Raychaudhuri as a Historian, is a milestone in the field of Indian historiography. Prof. H.C. Raychaudhuri was a distinguished scholar and

academician. His Political History of Ancient India has deserved commendation from the students and scholars of India and abroad. He had reconstructed the history of ancient India through his thorough research. He had given a toe challenge to the colonial historiography. The most neglected aspect of Indian History was the historical geography which Prof. Raychaudhuri analysed vividly and opened new horizons for the scholars of the land to pursue further research in this

field. His critical analysis on Indian religion, particularly on Vaishnavism, has earned him immortal fame. For his erudition, he became the member of many learned societies of India including Indian History Congress and served in various capacities contributing in his own way to the growth of knowledge. This book, revealing the contributions of Prof. H.C. Raychaudhuri to the historiography of India, will be indispensable for the students and teachers

of Indian historiography. Salient Features (i) Objectivity is the forte of the book. This objective analysis is however done in an intimitably lucid style that makes this book irresistably readable. (ii) Welcome light has been thrown on the virgin topics which had been taken up by Prof. Raychaudhuri for analysis. (iii) It is a treasure-house for any student or teacher of Historiography and Indology. (iv) The works of a 'first class mind' have been evaluated with a critical and analytical

manner. (v) A clear picture of India' s rich cultural heritage of the past has been projected through the analysis of the works of Prof. Raychaudhuri. (Vi) A peep into the pages of the book will acquaint the readers with the profound scholarship of Prof. H.C. Raychaudhuri as a historian.
