The volume shows how Christian Scripture and Christian ethics are necessarily intertwined and offers up-to-date treatment of five hundred biblical, traditional, and contemporary topics, ranging from adultery, bioethics, and Colossians to vegetarianism, work, and Zephaniah. The stellar ecumenical list of contributors consists of more than two hundred leading scholars from the fields of biblical studies and ethics, including Darrell Bock, David Gushee, Amy Laura Hall, Daniel Harrington, Dennis Olson, Christine Pohl, Glen Stassen, and Max Stackhouse.

Religious Perspectives on Business Ethics Georgetown University Press

This book introduces Christian ethics from a theological perspective. Philip Turner, widely recognized as a leading expert in the field, explores the intersection of moral theology and ecclesiology, arguing that the focus of Christian ethics should not be personal holiness or social reform but the common life of the

church. A theology of moral thought and practice must take its cues from the notion that human beings, upon salvation, are redeemed and called into a life oriented around the community of the church. This book distills a senior scholar's life work and will be valued by students of Christian ethics, theology, and ecclesiology.

What Does the Bible Teach about How to Live in Today's World? How should Christians live when the surrounding culture is increasingly hostile to Christian moral values? Granted, the Bible is our guide—but how can we know if we are interpreting it rightly with regard to ethical questions about wealth and poverty, marriage and divorce, birth control, abortion, euthanasia, homosexuality, ethical business practices, environmental stewardship, and dozens of other issues? And on a very practical level, how can we know God's will in the ordinary decisions of life? To address questions like these, Wayne Grudem, author of the bestselling book *Systematic Theology*, draws on 40 years of teaching classes in ethics to write this wide-ranging introduction to biblical moral reasoning, organized according to the structure of the Ten Commandments. He issues a challenging call for Christians to live lives of personal holiness and offers a vision of the Christian life that is full of joy and blessing through living each day in a way that is pleasing to God. Written by Wayne Grudem: Bestselling author of *Systematic Theology* and the *What the Bible Says About* series *Biblical and Applicable*: Teaches readers how to protect 7 central tenets of God's law: God's honor, human authority, life, marriage, property, truth, and purity of heart

Business Ethics Faith That Works, 2nd Edition shows how faith forms the foundation for the theory and practice of business ethics and how ethical leadership results in long-term success in business. It challenges readers to understand their own beliefs and actively base the ethics they practice in business on those beliefs for building an ethical culture that can lead to a sustainable competitive advantage. The book begins by covering business ethics basics, highlighting how ethics are good for business. Ruddell then analyses the Scriptural teaching about business ethics as a model for how faith can (and indeed must) integrate with business ethics and then contrasts with other,

secular, views of business ethics. He continues by reviewing steps for solving ethical problems in business and how to set up and carry out an effective ethics program inside the business and how companies can extend those ethics to those around them through effective social outreach programs, and to the environment by being good stewards of our resources.

Faith Dilemmas for Marketplace Christians InterVarsity Press

This book reports the results of a research project that spanned more than a decade. Integrity is the foundation of business. However, the marketplace is highly competitive and sometimes hostile to basic moral aspirations. It is not easy for Christian executives to remain faithful to their Christian values in the business world. This project interviewed a total of 119 Christian executives in Hong Kong. They were known among their peers as committed Christians. Based on their stories recounting the challenges they faced in the marketplace, the authors managed to collect a total of 539 critical incidents that illustrate how they responded when they sensed their integrity was on the line. This study makes use of H. Richard Niebuhr's framework on Christ and Culture, and also the Negotiation Styles Framework in the negotiation literature. When putting these two frameworks together, the new integrated framework enabled us to understand the Christian executives' responses to ethical challenges and their implications to profitability. This book demonstrates the usefulness and limitation of positive science, and the importance of normative reflection in handling ethical challenges. Based on positive science findings, we can see Christian executives' typical responses as these are shaped by external circumstances such as

doing business in China or operating within a Christian corporate culture. Based on normative reflection, we can see that not infrequently when taking all possible factors into consideration Christian executives may pick atypical ways to respond to ethical challenges. In handling such challenges, it is important to understand both positive science and normative reflection. Christian executives may benefit directly from the insights in this study to better prepare themselves for the ethical challenges in the marketplace. Interested readers who are not Christians can also use these insights to compare and contrast, as well as develop further, their own ways of conducting business with integrity.

Business by the Book Harper Collins

Can business activity in itself be morally good and pleasing to God? Sometimes business can seem so shady-manipulating the "bottom line," deceiving the consumer, or gaining promotions because of whom you know. But Wayne Grudem introduces a novel concept: business itself glorifies God when it is conducted in a way that imitates God's character and creation. He shows that all aspects of business, including ownership, profit, money, competition, and borrowing and lending, glorify God because they are reflective of God's nature. Though Grudem isn't naïve about the easy ways these activities can be perverted and used as a means to sin, he knows that Christians can be about the business of business. This biblically based book is a thoughtful guide to imitating God during interactions with customers, coworkers, employees, and other businesses. See how your business, and your life in business, can be dedicated to God's glory.
