A Spoonful of Murder
Penguin UK
When Daisy Wells and

Hazel Wong set up their very own secret detective agency at Deepdean School for Girls, they struggle to find any truly exciting mysteries. Little do they know that in the

months that follow, mystery - and murder - will never be far away, and when Hazel discovers the Science Mistress, Miss Bell, lying dead in the Gym, the Detective Society is determined to get to the bottom of the crime. Then, soon afterwards, there's the incident at Daisy's family home, Fallingford, where a guest falls mysteriously, fatally ill. And when the summer hols come round, there's a thrilling ride on the famous Orient Express - and the girls' first locked-room murder case. Discover the first three books in this amazing series: *Murder Most Unladylike*, *Arsenic for Tea*, *First Class Murder* and follow Daisy and Hazel's fantastic adventures.

The Silver Serpent (Agatha Oddly, Book 3) Simon and Schuster
This volume is the newest release in the authoritative series issued by the National Academy of Sciences on dietary reference intakes (DRIs). This series provides recommended intakes, such as Recommended Dietary Allowances (RDAs), for use in planning nutritionally adequate diets for individuals based on age and gender. In addition, a new reference intake, the Tolerable Upper Intake Level (UL), has also been established to assist an individual in knowing how much is "too much" of a nutrient. Based on the Institute of Medicine's review of the scientific literature regarding dietary micronutrients,

recommendations have been formulated regarding vitamins A and K, iron, iodine, chromium, copper, manganese, molybdenum, zinc, and other potentially beneficial trace elements such as boron to determine the roles, if any, they play in health. The book also: Reviews selected components of food that may influence the bioavailability of these compounds. Develops estimates of dietary intake of these compounds that are compatible with good nutrition throughout the life span and that may decrease risk of chronic disease where data indicate they play a role. Determines Tolerable Upper Intake levels for each nutrient reviewed where adequate scientific

data are available in specific population subgroups. Identifies research needed to improve knowledge of the role of these micronutrients in human health. This book will be important to professionals in nutrition research and education.

: A Biography Of The World's Most Mysterious Number

Penguin UK

Shortlisted for the BMA Book Awards and Macavity Awards 2016
Fourteen novels.

Fourteen poisons. Just because it's fiction doesn't mean it's all made-up ... Agatha Christie revelled in the use of poison to kill off unfortunate victims in her books; indeed, she employed it more than any other murder method, with the poison itself often

being a central part of the novel. Her choice of deadly substances was far from random – the characteristics of each often provide vital clues to the discovery of the murderer. With gunshots or stabbings the cause of death is obvious, but this is not the case with poisons. How is it that some compounds prove so deadly, and in such tiny amounts? Christie's extensive chemical knowledge provides the backdrop for *A is for Arsenic*, in which Kathryn Harkup investigates the poisons used by the murderer in fourteen classic Agatha Christie mysteries. It looks at why certain chemicals kill, how they interact with the body, the cases that may have inspired Christie, and

the feasibility of obtaining, administering and detecting these poisons, both at the time the novel was written and today. *A is for Arsenic* is a celebration of the use of science by the undisputed Queen of Crime.

Murder at the Museum
(*Agatha Oddly, Book 2*)
Puffin Books

A second mystery for thirteen-year-old Agatha Oddly – a bold, determined heroine, and the star of this stylish new detective series.

The Chosen Ones

Simon and Schuster
I, the Honourable Daisy Wells, have decided to give an account of another mystery the Detective Society has faced in recent weeks. It was very exciting, and very heroic, and I

was very brilliant and brave . . . A daring thief has been robbing London's most famous museums. When Daisy's birthday treasure hunt leads them right into the path of the culprit, Daisy and Hazel realise where they'll strike next - the Ancient Egyptian mummy room at the British Museum! With help from their friends (and rivals), the Junior Pinkertons, the girls must crack codes, unravel clues and race against time to solve the mystery.

Penguin UK

Hazel and Daisy find themselves embroiled in a mystery while in Hong Kong—and one of them winds up on the suspect list—in this gripping sixth novel of the Murder Most Unladylike Mystery series. When Hazel

Wong's beloved grandfather passes away, Daisy Wells accompanies her best friend (and detective society vice president) to Hazel's family estate in beautiful, bustling Hong Kong. But when they arrive, they discover something they didn't expect: a new baby brother for Hazel! Hazel and Daisy think a surprise sibling is enough to be getting on with, but where they go, mystery follows. Baby Teddy's nanny is killed, and this time Hazel isn't just the detective on the case. She's been framed for murder! The girls must work together to confront dangerous gangs, mysterious suspects, and sinister private detectives to solve the murder and clear Hazel's name before

it's too late.

Arsenic for Tea

Sourcebooks, Inc.

A collection of short stories, tips and tricks on being a detective, from the author of *Murder Most Unladylike*.

A Murder Most Unladylike Mystery Collection Simon and Schuster

A thrilling mini *Murder Most Unladylike* mystery, specially written and published for World Book Day 2020. Daisy Wells and Hazel Wong are best friends, schoolgirls - and detectives. And wherever they go, mysteries will find them... While on a seaside holiday with their friends George and Alexander, the Detective Society discover the body of famous swimmer Antonia Braithwaite -

nicknamed The Pearl - on the beach.

Everyone presumes that she drowned accidentally - but how could such a famous swimmer have struggled to swim?

Even more mysteriously, three guests at the girls' hotel all wanted Antonia dead... Can the Detective Society solve this mystery? Or will they sink under the pressure? Praise for the *Murder Most Unladylike* mysteries:

'This is that rare thing: a series that gets better with every book'

The second murder-mystery in the bestselling Murder Most Unladylike series! 'A delight . . . The

Agatha Christie-style clues are unravelled with sustained tension and the whole thing is a hoot from start to finish' Daily Mail 'A feelgood blend of Malory Towers and Cluedo . . . Stevens has upped her game in this new volume' Telegraph ----- Schoolgirl detectives Daisy Wells and Hazel Wong are at Daisy's home, Fallingford, for the holidays. Daisy's glamorous mother is throwing a tea party for Daisy's birthday, and the whole family is invited, from eccentric Aunt Saskia to dashing Uncle Felix. But it soon becomes clear that this party isn't really about Daisy at all. Naturally, Daisy is furious. Then one of their party falls seriously, mysteriously ill - and everything points to poison. With

wild storms preventing anyone from leaving, or the police from arriving, Fallingford suddenly feels like a very dangerous place to be. Not a single person present is what they seem - and everyone has a secret or two. And when someone very close to Daisy looks suspicious, the Detective Society must do everything they can to reveal the truth . . . no matter the consequences. 'The second book in Robin Stevens' fabulous Wells and Wong schoolgirl detective series - think St Trinians mixed with Miss Marple. These are thrilling books for tween detectives who adore solving dastardly murders, jolly hockey sticks and iced buns for tea' Guardian

We Have Always Lived in the Castle

HarperCollins UK
From the duo behind the massively successful and award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive

natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial

hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with *Stuff You Should Know*. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).

[A Murder Most Unladylike Collection: Books 1, 2 and 3](#)

Penguin UK

A tea party takes a poisonous turn leaving Daisy and Hazel with a new mystery to solve in this "first-rate whodunit, reminiscent of a game of Clue [that's] terrific preparation for the works of Agatha Christie" (Kirkus Reviews, starred review). Schoolgirl

detectives Daisy Wells and Hazel Wong are at Daisy's home, Fallingford, for the holidays. Daisy's glamorous mother is throwing a tea party for Daisy's birthday, and the whole family is invited, from eccentric Aunt Saskia to dashing Uncle Felix. But it soon becomes clear that this party isn't about Daisy after all—and she is furious. But Daisy's anger falls to the wayside when one of their guests falls seriously and mysteriously ill—and everything points to poison. It's up to Daisy and Hazel to find out what's really going on. With wild storms preventing everyone from leaving, or the police from arriving, Fallingford suddenly feels like a very dangerous place to be.

Not a single person present is what they seem—and everyone has a secret or two. And when someone very close to Daisy begins to act suspiciously, the Detective Society does everything they can to reveal the truth...no matter the consequences.

Previously published as Arsenic for Tea in the UK.

After the Funeral

Got a sixth sense for trouble? Read on, buster. Our favorite girl detective calls on her gut instincts in an exciting grand finale of the Ruby Redfort series. Ruby Redfort: you can count on her when the ice starts to crack. Falling through the air at 120 miles per hour? Just relax and think fast. But now even Ruby Redfort is running scared. A bunch of people want her dead, and worst of all, one of them is on her team. When your name is first on a mastermind's hit list, do you lock the doors, switch off the lights,

and wait for someone else to do something? Or do you get out there and save yourself? If you're Ruby Redfort, genius code breaker and undercover agent, the choice is clear: death or glory. In a satisfying series finale, surprises are in store and Spectrum's backstory comes to light as fans bid goodbye to Ruby Redfort, every smart kid's smart kid.

The Case of the Drowned Pearl Penguin

"A tour de force of storytelling." —Louise Penny, #1 New York Times bestselling author of the Chief Inspector Gamache series "Jobb's excellent storytelling makes the book a pleasure to read." —The New York Times Book Review
"When a doctor does go wrong he is the first

of criminals,” Sherlock Holmes observed during one of his most baffling investigations. “He has nerve and he has knowledge.” In the span of fifteen years, Dr. Thomas Neill Cream murdered as many as ten people in the United States, Britain, and Canada, a death toll with almost no precedent. Poison was his weapon of choice. Largely forgotten today, this villain was as brazen as the notorious Jack the Ripper. Structured around the doctor’s London murder trial in 1892, when he was finally brought to justice, *The Case of the Murderous Dr. Cream* exposes the blind trust given to medical practitioners, as well as the flawed detection methods, bungled investigations, corrupt

officials, and stifling morality of Victorian society that allowed Dr. Cream to prey on vulnerable and desperate women, many of whom had turned to him for medical help. Dean Jobb transports readers to the late nineteenth century as Scotland Yard traces Dr. Cream’s life through Canada and Chicago and finally to London, where new investigative tools called forensics were just coming into use, even as most police departments still scoffed at using science to solve crimes. But then, most investigators could hardly imagine that serial killers existed—the term was unknown. As the *Chicago Tribune* wrote, Dr. Cream’s crimes

marked the emergence of a new breed of killer: one who operated without motive or remorse, who “murdered simply for the sake of murder.” For fans of Erik Larson’s *The Devil in the White City*, all things Sherlock Holmes, or the podcast *My Favorite Murder*, *The Case of the Murderous Dr. Cream* is an unforgettable true crime story from a master of the genre. *Death Sets Sail* Scholastic UK “As entertaining as ever.” —The Horn Book Hazel and Daisy trade mistletoe for a murder investigation and set out to save the day (Christmas Day that is!) in this fabulously festive fifth novel of the Wells & Wong Mystery series. Daisy

Wells and Hazel Wong are spending the Christmas holidays in snowy Cambridge. Hazel is looking forward to a calm vacation among the beautiful spires, cozy libraries, and inviting tea-rooms. But there is danger lurking in the dark stairwells of ancient Maudlin College and two days before Christmas, there is a terrible accident. At least, it appears to be an accident—until the Detective Society looks a little closer, and realizes a murder has taken place. Faced with several irritating grown-ups and fierce competition from a rival agency, they must use all their cunning and courage if they’re going to find the killer before Christmas dinner.
