Almost 2,000 British Prisoners of War were aboard the Japanese freighter Lisbon Maru when an American submarine torpedoed and sank her in October 1942. This book tells the story of those men, from the fighting in Hong Kong, through the sinking, and for some, to liberation and beyond. Although never previously studied in any depth, the sinking of the Lisbon Maru was the most costly American on British "Friendly Fire" incident of the Second World War. Of the 4,500 of Hong Kong's garrison who perished during the war, 1,000 died directly or indirectly from this sinking. From American, British, Hong Kong and Japanese sources, this book reconstructs the fateful voyage of the Lisbon Maru, and the experiences of the captives, the captors, and those on board the submarine that sank her. The book will be of interest to anyone wishing to know more about the "Hellships" that caused the deaths of almost 20,000 Allied Prisoners of War during the Second World War, or the experiences of Allied POWs in Japan.

The English East India Company was the mother of the modern multinational. Its trading empire encircled the globe, importing Asian luxuries such as spices, textiles, and teas. But it also conquered much of India with its private army and broke open China's markets with opium. The Company's practices shocked its contemporaries and still reverberate today. *The Corporation That Changed the World* is the first book to reveal the Company's enduring legacy as a corporation. This expanded edition explores how the four forces of scale, technology, finance, and regulation drove its spectacular rise and fall. For decades, the Company was simply too big to fail, and stock market bubbles, famines, drug-running, and even duels between rival executives are to be found in this new account. For Robins, the Company's story provides vital lessons on both the role of corporations in world history and the steps required to make global business accountable today.

Helen James considers security in Myanmar/Burma. She uses the ideas put forward in the United Nations Development Programme's 1994 report, of human, as opposed to state and security, going on to argue that freedom from want,

and freedom from fear (of the regime) are in fact mutually supportive ideas, and that the security of the people and the security of the state are in fact in a symbiotic relationship with each other. Presenting new and significant information of the security concept of Myanmar/Burma, James' original work considers economic development, health, education, environmental issues, the drugs trade, human rights, minority peoples and political, social and economic reforms, arguing that improved governance, the development of civil society and economic development would both strengthen the state and ensure the security and well-being of its citizens.

Presenting a social history of colonial food practices in India, Malaysia and Singapore, this book discusses the contribution that Asian domestic servants made towards the development of this cuisine between 1858 and 1963. Domestic cookbooks, household management manuals, memoirs, diaries and travelogues are used to investigate the culinary practices in the colonial household, as well as in clubs, hill stations, hotels and restaurants. Challenging accepted ideas about colonial cuisine, the book argues that a distinctive cuisine emerged as a result of negotiation and collaboration between the expatriate British and local people, and included dishes such as curries, mulligatawny, kedgeree, country captain and pish pash. The cuisine evolved over time, with the indigenous servants preparing both local and European foods. The book highlights both the role and representation of domestic servants in the colonies. It is an important contribution for students and scholars of food history and colonial history, as well as Asian Studies.
