The Diploma in Otolaryngology - Head & Neck Surgery (DOHNS) is now an intercollegiate examination, and can count towards membership of one of the surgical colleges of Great Britain. The DOHNS has evolved to fit its new role, leaving little up-to-date material available for candidates preparing for the written component. This book by former DOHNS candidates meets that need, focusing on topics that are likely to be examined. Each answer is accompanied by an explanation using

current evidence-based research wherever possible. This will be an essential revision text for all DOHNS candidates.

MCQs and EMQs for the Diploma in Otolaryngology - Head and Neck Surgery Butterworth-Heinemann

A concise and visual guide to clinically relevant anatomy for dentistry, "Netter's Head and Neck Anatomy for Dentistry" is an effective text for class and exam preparation, as well as a quick review in professional practice. Concise text, high-yield tables, clinical correlations, and review questions combine to make this new edition a perfect choice for learning and remembering the need-to-know structures, relationships, and concepts, while beautiful illustrations created in the Netter tradition enhance your visual mastery of the material. " You may also be interested in: " A companion set of flash cards, "Netter's Advanced Head & Neck Anatomy Flash Cards, 3rd Edition."

postgraduate entrance tests and other competitive examinations. About the Author : - Dr P. L. Dhingra, Emeritus Consultant, Indraprastha Apollo Hospital, New Delhi. formerly Director, Professor and Head, Department of Otolaryngology and Head & Neck Surgery, Maulana Azad Medical College and Associated LNJP & GB Pant Hospitals, New Delhi.

ENT MCQs for Medical Students CRC Press

Multiple Choice Questions in Ophthalmic and Neuroanatomy was written from notes that made by the author while preparing for the College of Ophthalmologists' primary examination. At the time it was difficult to gauge the standard expected as there were no questions available. This book aims to help many candidates who need to learn this sort of anatomy and hopes that its appeal extends beyond budding ophthalmologists and general surgeons to include optometrists and orthoptists. The questions deal with the following topics: osteology; anatomy of the head and neck; vascular anatomy; neuroanatomy; orbital and autonomic anatomy; ocular adnexae and extraocular muscles; cranial nerves and visual

pathway; ocular anatomy; and embryology.

Elsevier Health Sciences

This book presents current clinical knowledge relating to key topics in acute and chronic pain in a multiple choice question (MCQ) format. Individual chapters are devoted to subjects such as the anatomy of pain pathways, pain processing, evaluation of pain, different pain syndromes and pain involving different regions of the body, pharmacologic and physical pain management, neural blockade, and special procedures. Each of the MCQs has four or five answer options in true/false format, and the answers are discussed in detail with provision of suitable references whenever appropriate. *Multiple Choice Questions in Pain Management* will be especially valuable for those who are sitting anesthesia board exams anywhere in the world. It will, for example, meet the needs of candidates for the FRCA examination (in which 20–25% of MCQs relate to pain management) or the FFPMRCA examination (Fellowship of the Faculty of Pain Medicine of the Royal College of Anaesthetists). In addition, the

book will be useful for pain fellows and for all clinicians who are seeking to improve their knowledge of pain management.

Multiple Choice Questions in Pain

Management Butterworth-Heinemann

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate

examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma

Neuroradiology, Head and Neck Radiology CRC Press

MCQs for ENT: Specialist Revision Guide for the FRCS is a key resource for candidates preparing to sit the FRCS (ORL-HNS). It contains over 300 single best answer questions and over 70 extended matching questions to help candidates prepare for all aspects of ENT they may face in this challenging exam. Written by expert consultants who have succeeded in the exam, this resource provides comprehensive coverage of theory and practice, including new questions on challenging topics such as electroneurography and voice clinic procedures, and questions on rare topics such as oropharyngeal cancers. All answers have full explanations, providing candidates with high-quality self-assessment in order to maximize exam success. Providing a thorough assessment of the reader's ENT knowledge, this is an

essential revision book for any candidate facing the FRCS ORL-HNS exam.

Single Best Answers Oxford University Press, USA

Based on the College of Emergency Medicine anatomy curriculum for the MCEM examination, the book contains 275 multiple choice questions. All anatomical regions are covered including head and neck, thorax, abdomen, upper limb and lower limb. The book contains comprehensive explanatory notes and is an invaluable resource for exam revision. This book will also be useful to medical students and doctors training in surgery, anaesthesia and medicine. Roger Dalton is a Consultant in Emergency Medicine at the Northern General Hospital in Sheffield (UK) and a sports physician. He is the founder and course director of the Sheffield Emergency Medicine MCEM OSCE course, co-founder of MCEM International and director of the Central FCEM course. Roger is the team doctor for Chesterfield FC, a football league (soccer) club, as well as a one of 4 doctors at Hull Kingston Rovers, a Rugby Superleague club.

Gray's Anatomy for Students E-Book Cambridge University Press

Filling a gap for a pre-clinical phase revision guide, this book will help medics pass their intermediate exams in order to proceed to the clinical years. It is based on the SAQs, EMQs and MCQ school curriculum as set out by the GMC. By covering each module individually but also integrating other disciplines of medicine into the questions, it helps students to think laterally as well as thoroughly revising each module. With a minimum of 4 SAQs, 7 MCQs and 3 EMQs in each chapter, this book offers comprehensive revision practice as well as providing all the answers with clear explanations.

Practical Clinical Oncology Springer Science & Business Media
