The recent change in examination format has made the revision books and materials published over the years largely obsolete. This new book is based on the new form of MCQ - 'Best Of Five' Clinical Scenarios, matching the style and standards set by the College, and is designed to provide readers with a complete distance-learning package. This first volume in the series can be accessed online to experience all the benefits of the 123Doc's celebrated e-courses. It covers eight of the most important specialities seen in the MRCP exam:
Cardiology,
Dermatology,
Gastroenterology,

Haematology,
Infectious Diseases,
Nephrology, Neurology
and Respiratory
Medicine (Volume 2
will cover the
remaining specialties).
Within each chapter,
'hot-topics' from the
speciality are
illustrated by 2
questions, with
detailed teaching notes
and lists of 'key points'
to help you further
master the
subject. Published in
association with
123Doc Medical
Courses.
