"What?" Naomi gasped. "I'm not going anywhere with you!" Alaric could already scent two more witches approaching her apartment. Whatever she'd done had clearly been an accident; he couldn't rely on her magic. They had to get out of here. She flinched as he reached down to cup her face, gazing into her eyes. "Sorry about this," he murmured, as he probed her mind. Her thoughts were frantic, moving at an impossible speed. All will be well, he told her silently. Rest now. "What—what are you—" she whispered, as her eyes drooped. She slumped forward into his arms. Cradling her, he moved over to the window, and leapt out. *** Alaric, a centuries-old

vampire, lives a solitary life by choice. When he's assigned to protect Naomi, long dormant emotions stir to life. Naomi Feldman has never understood the strange energy that hums beneath her senses. But when she comes across an ancient artifact that seems to beckon to her, she may finally find the answers she's been seeking. Pursued by a dangerous enemy and battling their growing attraction, Naomi and Alaric follow the mystery of the artifact from the museums of Athens, the streets of London, towards a confrontation that will decide the fate of two worlds... Ramanujan is recognized as one of the great number theorists of the twentieth

century. Here now is the first book to provide an introduction to his work in number theory. Most of Ramanujan's work in number theory arose out of q -series and theta functions. This book provides an introduction to these two important subjects and to some of the topics in number theory that are inextricably intertwined with them, including the theory of partitions, sums of squares and triangular numbers, and the Ramanujan tau function. The majority of the results discussed here are originally due to Ramanujan or were rediscovered by him. Ramanujan did not leave us proofs of the thousands of theorems he recorded in his notebooks, and so it cannot be claimed that many of the proofs given in this book are those found by Ramanujan. However, they are

all in the spirit of his mathematics. The subjects examined in this book have a rich history dating back to Euler and Jacobi, and they continue to be focal points of contemporary mathematical research. Therefore, at the end of each of the seven chapters, Berndt discusses the results established in the chapter and places them in both historical and contemporary contexts. The book is suitable for advanced undergraduates and beginning graduate students interested in number theory.

"Boo," says the ghost on Halloween night! It just so happens that this ghost's name is Boo, too, and he's not very

different from you or me. Just like all young ghosts-kids, too-Boo thinks it can be hard to figure out who he is and what he wants to be. To help him find his way, Boo heads out on Halloween to see what he can find. There are big, black bats that fly below the moon. The bats share the sky with witches on flying brooms; they can be reckless sometimes, so watch out when they come by! The skeletons like to dance, and cats and spiders show off their moves in the mystic moonlight. Celebrate with them, because it's Halloween night! "Boo Stories" are all about Boo and his Halloween havoc. What does Boo learn out under the starry sky? He learns plenty about what it means to be a young ghost, how to take care of important life situations, and even how

to become a loving member of spook society. So come along to the all-night Halloween show with your friend Boo!

To Mr. Tate Howard, You are quite

possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know.

"A sweet, sexy read, featuring a couple that feels both true-to-life and aspirational." Kirkus Review, Starred Review American Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to become attached to anything, anyone, or any place. But it only took her two days to

fall in love with Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he's as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn't have to share. The last cookie all to himself. And solitude. But when you grow up in a family of seven, you can kiss those things goodbye. He's finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she'll be gone in a few months... Except now she's determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and

his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs? Each book in the Patterson's Bluff series is

Scholars of language ideology have encouraged us to reflect on and explore where social categories come from, how they have been reproduced, and whether and to what extent they are relevant to everyday interactional practices. Taking up on these issues, this

book focuses on how ethnicity has been semiotically constructed, valued, and reproduced in Indonesia since Dutch colonial times, and how this category is drawn upon in everyday talk. In doing so, this book also seeks to engage with scholarship on superdiversity while highlighting some points of engagement with work on ideas about community. The book draws upon a broad range of scholarship on Indonesia, recordings of Indonesian television from the mid-1990s onwards, and recordings of the talk of Indonesian students living in Japan. It is argued that some of the main mechanisms for the reproduction and reevaluation of ethnicity and its links with linguistic form include waves of technological innovations that bring people into contact (e.g. changes in

transportation infrastructure, introduction of print media, television, radio, the internet, etc.), and the increasing use of one-to-many participation frameworks such as school classrooms and the mass media. In examining the talk of sojourning Indonesians the book goes on to explore how ideologies about ethnicity are used to establish and maintain convivial social relations while in Japan. Maintaining such relationships is not a trivial thing and it is argued that the pursuit of conviviality is an important practice because of its relationship with broader concerns about eking out a living.

Rapidly increasing migration flows contribute to the development of

multiple forms of social and cultural differentiation in urban areas – or to ‘super-diversity’. Language diversity is an important part of the resulting new social and cultural constellations. Although linguistic diversity is not a new phenomenon per se, the response of individuals or education systems to it is still largely based on a monolingual habitus, associating one nation (or a region within a nation) to one language. Building on the top-quality expertise of researchers from different academic fields, the volume offers insights into the study of linguistic diversity from linguistic and education science perspectives. The studies derive from different countries, different disciplines, different research traditions and methodological approaches, all aiming

towards a better understanding of actual linguistic reality and its consequences for individual language development and for education. The book addresses an academic readership and experts who are interested in learning more about linguistic diversity as an inevitable effect of globalisation, and on ways to deal with this reality in research as well as practise in urban areas.

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help,

it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles

it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

"Johnny Boo is the latest creation by the multi-talented James Kochalka. Watch as Johnny and Squiggle encounter the Ice Cream Monster for a 'party in his tummy' of a different kind! Fun for kids of all ages, it's AWESOME!" -- DJ Lance Rock, host of Nick Jr's Yo Gabba Gabba! "The

narrative style is perfect, capturing all the nuances of how a children's book should be, and encompassing the free-flowing, inventive consciousness of a child ... Johnny Boo is a timeless tale, built on the basic tenet of childhood: fun. James Kochalka has a real talent for articulating all the fun and adventures to be had when one has the carefree mindset of the very young."-- Sabrina Fritz, School Library Journal Johnny Boo is the best little ghost in the whole world, because he's got Boo Power. This means that he can go "BOO"really loudly. His pet ghost named Squiggle has Squiggle Power, which means that he can fly and do really fast loop-the-loops. Together they have the world's greatest ghost adventures! They enthusiastically frolic and roughhouse, having ghost races and

drinking melted ice cream, but they often accidentally hurt each other's feelings, and have to comfort and console one another. When the giant pink and yellow Ice Cream Monster bumbles into their lives, they go into a mad panic ... until they discover that he's actually quite friendly. But even though he's friendly, he's also completely wild and unpredictable, and he impulsively swallows Squiggle whole. Some wild loop-the-loops from Squiggle inside his stomach cause a bout of uncontrollable burping, and the Ice Cream Monster burps Squiggle up unscathed. But now how do they stop the burping? Johnny Boo's Boo Power does the trick, of course. Everyone ends up happy, and delighted by the adventure they had together.
