In consequence of a mysterious decision taken by Mustafa Kamal's secular Republic of Turkey to not only change the city's name, but to also take steps that eventually ensured that the name, Constantinople, would no longer be used, this writer had to retrieve the name "Constantinople" from the museums of history in order for this book to be written. Why did the secular Turkish leader change the name of the city? Why did the name "Constantinople" have to suffer that mysterious fate? This book brings clarity to that subject. This writer is convinced that the mysterious disappearance of the name "Constantinople" from the modern-day vocabulary and discourse is directly linked to the status and role of the city in both Islamic and Christian eschatology.

This book is devoted to a study of the Jasad, whom the Prophet-King Solomon ('alayhisalam) saw sitting on his throne, and the first problem we encounter in this study is that neither the Qur'an nor the Prophet Muhammad's (sallallahu 'alayhi wasallam) Hadith explain who this Jasad truly is. This book has, therefore, been written with the specific purpose of inviting a scholarly response to this subject of the Jasad, from those who defend the salafi methodology, as well as those who defend the methods by which the Qur'an is studied in the Dar al-Ulum... This book is a chapter-by-chapter analysis and documentation of the power of Israel via the Israeli, Jewish or Pro-Zionist Lobby on US Middle East policy. It raises serious questions as to the primary beneficiary of US policy, and its destructive results for the United States. The extraordinary extent of US political, economic, military and diplomatic support for the state of Israel is explored, along with the means whereby such support is generated and consolidated.

Contending that Zionist power in America ensured unconditional US backing for Israeli colonization of Palestine and its massive uprooting of Palestinians, it views the interests of Israel rather than those of Big Oil as the primary cause of the disastrous US wars against Iraq and threats of war against Iran and Syria. It demonstrates

and condemns US imitation of Israeli practice as it relates to conduct of the war on terrorism and torture. It sheds light on the AIPAC spying scandal and other Israeli espionage against America; the fraudulent and complicit role of America's academic "terrorist experts" in furthering criminal government policies, and the orchestration of the Danish cartoons to foment antipathy between Muslims and the West. It questions the inability in America to sustain or even formulate a discourse related to the subject of Israeli influence on the United States. It calls for a review of American Mid East policy with a view to reclaiming US independence of action based upon enlightened self-interest and progressive principles.

There are many considerations that influence how a transaction is structured, including tax considerations. The most basic tax issue is whether

to structure the transaction as taxable or tax-free. In general, there are four basic structures for a corporate acquisition: (1) a taxable acquisition of a target corporation's stock; (2) a taxable acquisition of a target corporation's assets; (3) a tax-free acquisition of the target corporation's stock; or (4) a tax-free acquisition of a target corporation's assets.
