Lucky child - what a wondrous world you live in! This is the theme of Little Blue Planet - a book meant to be read aloud to very young children. As you and the child explore the pages of this book, you will encounter the natural wonders of our world: forests, jungles, volcanoes, swamps, coral reefs and many more. Each of these wonders is captured in a two-page spread, with a scenic watercolor on the left and an imaginative view featuring a child on the right. This book is a first travelogue for the tiny set. It is primarily a picture book, but has just enough text to provide context and encourage the child to imagine what it would be like to visit this place. This book makes for a beautiful and quick read.

Bookshelf II, a Message of Ancient Days Martinus Publishing
Ancient Mayan Message (Dresden Codex facsimile) This third edition features a full-color reproduction of The Dresden Codex that has been carefully crafted by the author Olga Judith Najarro Ibarra, to re-create the original Mayan manuscript, an archaeological and historical treasure. This facsimile should benefit in the research, study and consultation of this mysterious Mayan hieroglyphic writing. Ms. Judith Najarro has dedicated many years to hand-drawing and coloring the intricate blends of minute details that encompass the complex and fascinating Mayan hieroglyphic writing in order to ensure precision, accuracy of proportions, levels and orientation to her excellent art work that contains 78 plates, except four of them that are completely blurry. This exciting new edition is based on a comparison between several pre-WWII facsimiles of The Dresden Codex, when the codex was in better conditions. The original manuscript is still in fair shape, but several plates have suffered damage from bombings, fires, floods, mildew etc., and now are blurry; also, the plates are no longer connected in quite the same way. Originally, all of the plates were attached to each other forming a single strip of some 3.5 meters long when stretched out from their accordion folds. The original sequence of the plates were: pages 1-24 followed by 46-74, followed by 25-45. According to some historians the original manuscript was found in one of the largest Mayan cities and was supposedly sent to Europe around 1519. In 1744, it was acquired by The Royal Library of Dresden Germany, to which it owes its name. Many researchers agree that The Codex deals with: Astronomy, mathematics, astrological tables of the planets, the moon, conjunctions of solar bodies, cosmogonic theories, religion, agriculture, magic and mythology. The Mayas used tree bark for the preparation of their papyrus on which they drew and painted their colored hieroglyphs and pictures, as the highest expression of their knowledge and pictographic art. The Dresden Codex (Dresdensis Codex) is without a doubt, the most important pre-Hispanic document that has been preserved throughout the centuries. It is the oldest known book written in the Americas; of the hundreds of books that were used in Meso-America before the Spanish conquest, it is one of only 15 that have survived to the present day. This third edition facsimile elaborated by Judith Najarro, is a perfect replica of The Dresden Codex, and should inspire scientists, archaeologists, astronomers, mathematicians, historians, native peoples and the world at-large to explore into the secrets of the past and the universe. This carefully crafted ebook: "Europe A Prophecy (Illuminated Manuscript with the Original Illustrations of William Blake)" is formatted for your eReader with a functional and detailed table of contents. Blake's illuminated books, produced from 1783-1795, are remarkable examples of complex syntheses: of form - poetry and painting; and of subject - the real with the mythical. Blake created his own mythological creations to populate his poems and paintings: concepts and ideas became personified into universal representations. He used these mythological characters to explain and act out his singular view of history. Blake divided the nature of man into four personified elements: "Los, the imagination and eventual source of redemption; Urizen, the reason and vengeful Jehovah of the Old Testament as opposed to the merciful Christ of the New; Luvah, the senses; and Tharmas, the emotions". Each of these characters has an emanation, or female "offshoot", who is commonly a negative character attempting to dominate her male counterpart. "William Blake (1757 - 1827) was an English poet,

painter, and printmaker. Largely unrecognized during his lifetime, Blake is now considered a seminal figure in the history of both the poetry and visual arts of the Romantic Age.

Isis Unveiled is a classic spiritual book written by Helena Petrovna Blavatsky of The Theosophical Society. This Isis Unveiled contains new calculations of the yugas by Sri Yukteswar author of The Holy Science. The Veil of Isis, Blavatsky's Secret Doctrine on A Mastery Key to the Mysteries of Ancient and Modern Science and Theology is her opus. It encompasses a thorough examination of religion, spirituality, yoga, Sanatana dharma, kabbalism and Christianity. MAKE SURE YOU GET BOTH VOLUMES OF ISIS UNVEILED: Book I ISBN: 1939199042 & Book II ISBN: 1939199077 to help answer the question: "Does God Really Exist"? This is a question that has been asked since the beginning of time and probably will not be answered until the individual comes face to face with the Truth! However, if a critical examination on the subject matter is what you're looking for then there probably is no better source than "Isis Unveiled." This book is an exhaustive effort to discuss man, life and Spirit from as many angles as possible; from all ancient cultures, myths, religions and scientific perspectives. This book goes in depth to explore man's place in the world, how we all relate to one another and what connects us all. For the mystic, that answer is undeniably that we are all part of One Source, One Essence and One Spirit. Supported by extensive evidence from religious, esoteric and mystical traditions and classical scholarship, these volumes aid the student in detecting the vital principles which underlie the philosophical systems of old. Volume I consists of two books focusing on prevailing scientific theories balanced with Ancient Universal Wisdom Religion. Volume II's two books examine the creeds of religions past and present, alongside the myths and symbols of various cultures. Throughout, the author strikes at the root of dogma and affirms the 'paramount importance of any religion' for the individual to "Know Thyself!" After reading this classic book with a new translation and modernization, you will see how although time, cultures and languages may change - Truth is Eternal! Take this journey through history touching upon the wealth of spiritual knowledge from the Hindus, Chaldeans and Egyptians to Kabbalism, Christianity and Science. Enjoy the travels through the legendary Lemuria and Atlantis to the Mayans with quotes from Plato, the Chaldean Oracles, the Egyptian Book of the Dead, the Bible, Pythagoras, Apollonius of Tyana, the Popol Vuh, Paracelsus, Giordano Bruno, Marco Polo, Jesus the Nazarene, Siddhartha Gautama, Zoroaster, Hermes Trismegistus and Max Muller, as well as Buddhist, Brahmanical, Chinese, Persian, Babylonian, Syrian, Gnostics and so much more. Ultimately, it is the yogi who tells us that to the disbeliever there will never be substantial enough evidence to convince the doubter. However, for those who aren't merely skeptics but have a sincere thirst for Truth, then only by going within will you ever be quenched! Isis Unveiled is the rapid river leading you to the water within... it is up to you to drink! For those that don't know, Blavatsky is very advanced reading for spiritual students. It is NOT the type of book you read from front cover to back. You must take your time with this reading. You should use the table of contents and/or index to go to the subject you have interest in, read it and let it digest. As time goes on and you experience more life then you will find yourself coming back to various subjects and gaining something new with each reading! "Many rivers... One Ocean; many branches... One Tree; many paths... One Destination; many stories... One Truth!" 1 S.O.U.L. Publishing www.selfawakened.com

It is astonishing to think that many great archaeological discoveries occurred in Egypt only by way of accident during the 19th and 20th centuries. Even today accidents still play a vital, frequent and sometimes comical role, with new discoveries happening almost weekly and with many more secrets of the ancient Egyptian civilization still remaining. This book takes readers beyond these discoveries and their associated accidents. This book cannot be considered purely as an Egyptological and archaeological reading or even as dry history pages covering Egypt's modern era of the 19th and 20th centuries. Rather, it is a book that sheds light on the intimate links between the birth of

Egyptology after the deciphering of the famous Rosetta Stone and the raging world politics and regional power shifts in Egypt and its surroundings. The book ties together the political storms of colonialism in the first half of the 19th century and the unsettling effect these upheavals had on Egypt during the reign of Mohamed Ali Pasha. In a storytelling style, the book is a journey through time and place. The book takes readers on a guided tour to most of Egypt's well-known monuments that were mainly discovered by simple accident or in which an accident played a major part leading to discovery. In addition, the book leads readers through time exploring ancient Egypt, the days of the pharaohs, ancient gods, rituals and public ceremonial festivals, with old and new stories that shed light on the true value of such discoveries in antiquity and modern day.
