**The World Book Encyclopedia** Oxford University Press, USA

Distinguished scholar Betty Wood clearly explains the evolution of the transatlantic slave trade and compares the regional social and economic forces that affected the growth of slavery in early America. In addition, Wood provides a window into the reality of slavery, presenting a true picture of daily life throughout the colonies.

Franklin D. Roosevelt and the Making of Modern America Cambridge University Press

American Horizons, Second Edition, is

the only U.S. History survey text that presents the traditional narrative in a global context. The authors use the frequent movement of people, goods, and ideas into, out of, and within America's borders as a framework. This unique approach provides a fully integrated global perspective that seamlessly contextualizes American events within the wider world. The authors, all acclaimed scholars in their specialties, use their individual strengths to provide students with a balanced and inclusive account of U.S. history. Presented in two volumes for maximum flexibility, American Horizons, Second Edition, illustrates the relevance of U.S. history to American students by centering on the matrix of issues that dominate their lives. These touchstone

themes include population movements and growth, the evolving definition of citizenship, cultural change and continuity, people's relationship to and impact upon the environment, political and ideological contests and their consequences, and Americans' five centuries of engagement with regional, national, and global institutions, forces, and events. In addition, this beautifully designed, full-color book features hundreds of photos and images and more than 100 maps.

*The Journey of Ashley's Sack, a Black Family Keepsake* Oxford University Press  
NEW YORK TIMES BESTSELLER • “The single most important explanation, and the fullest explanation, of how Donald Trump became president of the United States . . . nothing less than the most

important book that I have read this year.”—Lawrence O’Donnell How did we get here? In this sweeping, eloquent history of America, Kurt Andersen shows that what’s happening in our country today—this post-factual, “fake news” moment we’re all living through—is not something new, but rather the ultimate expression of our national character. America was founded by wishful dreamers, magical thinkers, and true believers, by hucksters and their suckers. Fantasy is deeply embedded in our DNA. Over the course of five centuries—from the Salem witch trials to Scientology to the Satanic Panic of the 1980s, from P. T. Barnum to Hollywood and the anything-goes, wild-and-crazy sixties, from conspiracy theories to our fetish for guns and obsession with

extraterrestrials—our love of the fantastic has made America exceptional in a way that we've never fully acknowledged. From the start, our ultra-individualism was attached to epic dreams and epic fantasies—every citizen was free to believe absolutely anything, or to pretend to be absolutely anybody. With the gleeful erudition and tell-it-like-it-is ferocity of a Christopher Hitchens, Andersen explores whether the great American experiment in liberty has gone off the rails. Fantasyland could not appear at a more perfect moment. If you want to understand Donald Trump and the culture of twenty-first-century America, if you want to know how the lines between reality and illusion have become dangerously blurred, you must read this book. NAMED ONE OF THE

BEST BOOKS OF THE YEAR BY THE SAN FRANCISCO CHRONICLE “This is a blockbuster of a book. Take a deep breath and dive in.”—Tom Brokaw “[An] absorbing, must-read polemic . . . a provocative new study of America’s cultural history.”—Newsday “Compelling and totally unnerving.”—The Village Voice “A frighteningly convincing and sometimes uproarious picture of a country in steep, perhaps terminal decline that would have the founding fathers weeping into their beards.”—The Guardian “This is an important book—the indispensable book—for understanding America in the age of Trump.”—Walter Isaacson, #1 New York Times bestselling author of Leonardo da Vinci

**U.S. History in a Global Context** Wm.

### B. Eerdmans Publishing Company

The second edition of this accessible study of Mexico includes two new features: an examination of cultural developments since Independence from Spain in 1821 and a discussion of contemporary issues up to the time of publication. Several new plates with captions expand the thematic coverage in the book. The updated edition examines the administration of Vicente Fox, who came to power with the elections of 2000. The new sections reinforce the importance of Mexico's long and disparate history, from the Precolumbian era onwards, in shaping the country as it is today. This Concise History looks at Mexico from political, economic and cultural perspectives, and tackles controversial themes such as the

impact of the Spanish Conquest and the struggle to establish an independent Mexico. A broad range of readers interested in the modern-day Americas should find here a helpful introduction to this vibrant and dynamic North-American society.

*Reading American Horizons* U of Nebraska Press

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. *The History Manifesto* Oxford University Press, USA

and ideological contests and their consequences, and Americans' five centuries of engagement with regional, national, and global institutions, forces, and events. In addition, this beautifully designed, full-color book features hundreds of photos and images and more than 100 maps.

**Ballet & Modern Dance** Oxford University Press

In this introduction to his large-scale work *The Peopling of British North America*, Bernard Bailyn identifies central themes in a formative passage of our history: the transatlantic transfer of people from the Old World to the North American continent that formed the basis of American society. *Voyagers to the West*, which covers the British migration in the years just before the

American Revolution and is the first major volume in the Peopling project, is also available from Vintage Books.

*American Horizons* Yale University Press Through the colorful history of the three quintessentially American institutions of diners, bowling alleys, and trailer parks, an examination of the struggle of blue-collar Americans to attain the good life after two long decades of depression and war.

Reconstruction Rowman & Littlefield In *A Short History of the United States*, National Book Award winner Robert V. Remini offers a much-needed, concise history of our country. This accessible and lively volume contains the essential facts about the discovery, settlement, growth, and development of the American nation and its institutions,

including the arrival and migration of Native Americans, the founding of a republic under the Constitution, the emergence of the United States as a world power, the outbreak of terrorism here and abroad, the Obama presidency, and everything in between.

*All That She Carried* Oxford University Press, USA

In *Restless Giant*, acclaimed historical author James Patterson provides a crisp, concise assessment of the twenty-seven years between the resignation of Richard Nixon and the election of George W. Bush in a sweeping narrative that seamlessly weaves together social, cultural, political, economic, and international developments. We meet the era's many memorable figures and explore the "culture wars" between

liberals and conservatives that appeared to split the country in two. Patterson describes how America began facing bewildering developments in places such as Panama, Somalia, Bosnia, and Iraq, and discovered that it was far from easy to direct the outcome of global events, and at times even harder for political parties to reach a consensus over what attempts should be made. At the same time, domestic issues such as the persistence of racial tensions, high divorce rates, alarm over crime, and urban decay led many in the media to portray the era as one of decline. Patterson offers a more positive perspective, arguing that, despite our often unmet expectations, we were in many ways better off than we thought. By 2000, most Americans lived more

comfortably than they had in the 1970s, and though bigotry and discrimination were far from extinct, a powerful rights consciousness insured that these were less pervasive in American life than at any time in the past. With insightful analyses and engaging prose, *Restless Giant* captures this period of American history in a way that no other book has, illuminating the road that the United States traveled from the dismal days of the mid-1970s through the hotly contested election of 2000. The Oxford History of the United States The Oxford History of the United States is the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, a New York Times bestseller, and winners of the Bancroft and Parkman Prizes. The Atlantic

Monthly has praised it as "the most distinguished series in American historical scholarship," a series that "synthesizes a generation's worth of historical inquiry and knowledge into one literally state-of-the-art book."

Conceived under the general editorship of C. Vann Woodward and Richard Hofstadter, and now under the editorship of David M. Kennedy, this renowned series blends social, political, economic, cultural, diplomatic, and military history into coherent and vividly written narrative.

**Slavery in Colonial America, 1619-1776** Ballantine Books

A two-volume primary source collection, expertly edited by the authors of American Horizons, provides a diverse set of documents that situate U.S.

History within a global context. Covering political, social, and cultural history, the nearly 200 selections--including many visual documents--will spark discussion in the classroom and give students a deeper understanding of America's history. Reading American Horizons includes solid pedagogy to make the documents more accessible to students. [Reading American Horizons](#) Oxford University Press, USA

Uses a wide variety of documents to show how Americans dealt with an age of extremes from 1887 to 1900, including rapid industrialization, unemployment, unprecedented wealth, and immigration.

**The Gilded Age** Harper Collins

How should historians speak truth to power – and why does it matter? Why is

five hundred years better than five months or five years as a planning horizon? And why is history – especially long-term history – so essential to understanding the multiple pasts which gave rise to our conflicted present? The History Manifesto is a call to arms to historians and everyone interested in the role of history in contemporary society. Leading historians Jo Guldi and David Armitage identify a recent shift back to longer-term narratives, following many decades of increasing specialisation, which they argue is vital for the future of historical scholarship and how it is communicated. This provocative and thoughtful book makes an important intervention in the debate about the role of history and the humanities in a digital age. It will provoke discussion among

policymakers, activists and entrepreneurs as well as ordinary listeners, viewers, readers, students and teachers. This title is also available as Open Access.

Horizons contains ample pedagogy, including: \* America in the World, visual guides to the key interactions between America and the world \* Global Passages, which feature unique stories connecting America to the world \* Visual Reviews providing post-reading summaries to help students to connect key themes or events within a chapter \* Maps and Infographics that explore essential themes in new ways

**Diners, Bowling Alleys, And Trailer Parks: Chasing The American Dream In Postwar Consumer Culture**

Random House

This clear and concise biography of FDR for the Library of American Biography series immerses students in both the personal and political life of one of the twentieth century's most important

figures, during whose presidency the country experienced two of its severest crises: The Great Depression and World War II. Paperback, brief, and inexpensive, each of the titles in the Library of American Biography series focuses on a figure whose actions and ideas significantly influenced the course of American History and national life. In addition, each biography relates the life of its subject to the broader themes and developments of the times. This text incorporates the latest scholarship and draws upon the longer, far more extensive studies of Roosevelt's life and times, but makes the story accessible to students in both survey and upper division courses in American history. *American Women* Cambridge University Press

The Smithsonian Institution is America's largest, most important, and most beloved repository for the objects that define our common heritage. Now Under Secretary for Art, History, and Culture Richard Kurin, aided by a team of top Smithsonian curators and scholars, has assembled a literary exhibition of 101 objects from across the Smithsonian's museums that together offer a marvelous new perspective on the history of the United States. Ranging from the earliest years of the pre-Columbian continent to the digital age, and from the American Revolution to Vietnam, each entry pairs the fascinating history surrounding each object with the story of its creation or discovery and the place it has come to occupy in our national memory. Kurin sheds

remarkable new light on objects we think we know well, from Lincoln's hat to Dorothy's ruby slippers and Julia Child's kitchen, including the often astonishing tales of how each made its way into the collections of the Smithsonian. Other objects will be eye-opening new discoveries for many, but no less evocative of the most poignant and important moments of the American experience. Some objects, such as Harriet Tubman's hymnal, Sitting Bull's ledger, Cesar Chavez's union jacket, and the Enola Gay bomber, tell difficult stories from the nation's history, and inspire controversies when exhibited at the Smithsonian. Others, from George Washington's sword to the space shuttle Discovery, celebrate the richness and vitality of the American spirit. In Kurin's

hands, each object comes to vivid life, providing a tactile connection to American history. Beautifully designed and illustrated with color photographs throughout, *The Smithsonian's History of America in 101 Objects* is a rich and fascinating journey through America's collective memory, and a beautiful object in its own right.

*American Horizons* Simon and Schuster  
An intersectional history of the shared struggle for African American and Latinx civil rights *Spanning more than two hundred years, An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges

the notion of westward progress as exalted by widely taught formulations like “manifest destiny” and “Jacksonian democracy,” and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers’ Day, when migrant laborers—Chicana/os, Afrocubanos, and immigrants from every continent on earth—united in resistance on the first “Day Without Immigrants.” As African American civil rights activists

fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to the resurgence of “America First” rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americans, reveals the radically different ways that people of the diaspora have addressed issues

still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland/Josephine Miles Literary Award  
**U.S. History** Oxford University Press, USA

In *The Making of a Patriot*, renowned Franklin historian Sheila Skemp presents a insightful, lively narrative that goes beyond the traditional Franklin biography--and behind the common myths--to demonstrate how Franklin's ultimate decision to support the colonists was by no means a foregone conclusion.

[U.S. History in a Global Context with Sources](#) Pantheon

"American Women: A Concise History offers the most accessible and engaging

introduction to the history of American women"--

*The Daily Show (The Book)* American Horizons U.S. History in a Global Context Written in an engaging and student-friendly style, *American Odysseys* examines the entire period between 1492 and 1763, covering important topics that shaped the colonial experience across time and in a variety of places. Authors Timothy J. Shannon and David N. Gellman use a thematic approach, focusing on colonial development and integration within a wider Atlantic world. Each chapter begins with the story of an individual who experienced the wonder and terror of colonization firsthand, so that students can feel a human connection to each of these topics and themes. Taken

together, these figures--Indians, servants, slaves, explorers, planters--embody the full array of peoples and cultures that gave the colonial era a trans-Atlantic, multicultural character. Each chapter also features a chronology

of events described in that chapter. Maps and images throughout the book help visually orient readers to the stories that comprise this concise yet broad-ranging narrative.
