 As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual

artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of chanson courtoise, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of

the lyrical romance and dit, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries,

analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and

Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers

conceived their common project, and how they distinguished their respective roles.

Key composers of the period are introduced, such as Leoninus, Perotinus, Adam de la Halle, Philippe de Vitry and Guillaume de Machaut, and other chapters examine topics ranging from musical theory and performance to institutions, culture and collections. Popular Sheet Music - 30 Hits from 2010-2013 Hal Leonard For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a

portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that

the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and

meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate. **The Eight** Hal Leonard Corporation Before Russians crossed the Urals Mountains in the sixteenth century to settle their 'colony' in North Asia, they heard rumours about bountiful fur, of bizarre people without eyes who ate by

shrugging their shoulders and of a land where trees exploded from cold. This region of frozen tundra, endless forest and humming steppe between the Urals and the Pacific Ocean was a vast, strange and frightening paradise. It was Siberia. Siberia is a cradle of civilizations, the birthplace of ancient Turkic empires and home to the cultures of indigenes, including peoples whose ancestors

migrated to the Americas. It was a promised land to which bonded peasants could flee their cruel masters, yet also a 'white hell' across which exiles shuffled in felt shoes and chains. If in Stalin's era Siberia became synonymous with the gulag, today it is a vast region of bustling metropolises and magnificent landscapes, a place where the humdrum, the beautiful

and the bizarre ignite the imagination. Tracing the historical contours of Siberia, A. J. Haywood offers a detailed account of the architectural and cultural landmarks of cities such as Irkutsk, Tobolsk, Barnaul and Novosibirsk. **The Sumerians** Play Hollywood (Piano Vocal).
