Memorizing answers is
hard -- and boring.
Learning is easy! If you've
made the decision to
open up your ham radio
world by going for the
Extra Class License,
great! The latest edition
of the Extra class exam is
certainly challenging. The
question bank includes
over 600 questions, some
25% of which are new or
revised since the last

edition. The Fast Track to Your Extra Class Ham Radio License explains the reasoning and technology behind each correct answer on the exam so you'll understand and remember the subject matter. It's a complete learning system; books, audio, and the fasttrack.com web site with custom-made practice exams that integrate with the chapters in the book and audiobook. There are also teaching videos on the site. Created by an experienced ham and

adult educator, it's like having your own, patient, experienced, good-humored mentor for the exam. (One reason Michael is a frequent presenter at major ham conventions.) To get your Extra Class license you must pass a multiple-choice test. The Extra license test consists of 50 questions drawn from a pool of 621. Memorizing the answers to 621 disconnected questions is difficult, but The Fast Track makes getting your upgrade easier by explaining the logic

behind each correct answer. It's simple: When you understand the material, and you have a context for the material, you remember the answers and pass the test. We might even have a little fun along the way. (This may be the only amateur radio book to teach an astronomical concept with a nacho cheese analogy.) - Includes every possible question and every answer - Correct answers clearly marked in bold - Precise instructions for how to locate a testing

session, how to prepare, and even what to bring -- and what not to bring -- to the test. - All technical topics explained in clear, plain language. The Kindle and print editions include over 200 illustrations to support your learning. - Step-by-step instructions to solve all the math problems - Test-taking strategies - Hints to easily solve many questions and avoid the traps in the test - Written in "learning order", not just the order of the official question bank, which is only a "warehouse" of questions

and was never designed to teach anyone anything. - Chapter summaries drive home the exam-conquering points to remember from each chapter. - Complete subject and question index. - Incorporates the exclusive Fast Track study plan. We don't just present the material, we teach you the most effective way to learn it and we provide the tools to implement it.- Covers questions that will be used until July 1, 2024. *Technician Class*

The Fast Track to Your Technician Class Ham Radio License John Wiley & Sons

Here's a new approach to passing the Technician Class test. The test is multiple choice and the other study guides take you through the 426 possible questions including all four answers

for each question. But three out of the four answers are WRONG! You are reading 1,278 wrong answers and that is both confusing and frustrating. The Easy Way focuses only on the right answers. All Ham and no Spam. The first part is a narrative of the author's ham radio experience. Every question and answer is woven into the story and identified in bold print. The second part is a 40-page Quick Summary. It gives every question and answer, with hints and cheats to help you

remember. Other study guides take over 200 pages. Which would you rather study: 40 pages of right answers or over 200 pages with three quarters of the answers wrong? Instructors: This book is perfect for review or weekend courses. Have the students read the narrative before class, then go over the concepts with them rather than slogging through all those wrong answers. You'll be done in no time and the students will be fully prepared to take their tests.

Here are two testimonials: "I just wanted to let you know that I purchased all 3 of your amateur radio license study books, read them all 3 repeatedly and passed all three tests in 3 weeks! 1st week Tech, 2nd week General, and 3rd week Extra class. Your books give the information needed to understand the material and questions and in turn, give the reader the knowledge and confidence to pass the exams. I have wanted to get involved in amateur

radio for years and now I have! I will be sure to let everyone interested in amateur radio study material to be sure and read Easy Way Ham Books! Thank you for writing these books." "Thanks for writing the "Pass Your Test The Easy Way" books! I got my Tech license in May, I scored 34/35. I got my General in June, scored 35/35. I just passed my Extra Class test this week and scored 50/50. I went to the same VE's for each test and after the Extra exam and some

handshakes, they had questions about how I studied. I showed them my copy of your Extra class book, highlighted, notes written in the margins and so on. I used your books for each exam and they definitely made a difference for me. I did my part as well but your books definitely made it easier. The books are now part of the ham radio reference section in my library. I don't normally go out of my way to thank an author, in fact, I've never done this before but your books made such a big

difference for me I felt I should reach out and let you know about it. So, thanks again for writing this series, 73! "
