Introduction to Managerial Accounting, 4/e by

Brewer/Garrison/Noreen is based on the market-leading text,

Managerial Accounting, by Garrison, Noreen and Brewer.

However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Cost Accounting, a Managerial Emphasis, Third Canadian Edition. Student Solutions Manual Cengage Learning

This extensively revised third edition serves as a textbook for B.Com. and other professional courses in accounting. It covers the new syllabus of Cost Accounting recommended by U.G.C. for B.Com. courses and also the syllabus of Cost Accounting (PE-II Exam., of ICAI). The text is example based and illustrates each concept by providing solved problems that demand the application of the concept. In addition, under the section, "Review Problems", complete solutions to a large number of prob-blems selected from professional examinations have been incorporated. A key feature of the book is discussion at the end of each solution, under "Points to Remember", that provides insights into

the problem. Learning cost accounting using this book will be more enjoyable as the problems are interesting and arranged in order of difficulty.

Management Accounting is written for students in international Business Management study programs. It covers the widely applied syllabus of Cost Accounting and Management Accounting at universities on bachelor's and master's level. The book is based on more than 20 years' academic teaching experience in Germany and at international universities in South Africa, Malaysia, China, the Netherlands and South Korea. In this text book, the application of methods and instruments comes first. Management Accounting follows a case study based approach. All cases are taken from previous exam papers and explained in detail. The text book starts with a case study of a manufacturing company and compares Financial Accounting to Management Accounting. It covers two point of views: (1) a General Management view, with aspects of business planning, cost-volume-profit analysis, degree of operating leverage, mergers and cross-border acquisitions and risk valuation. (2) a Cost Accounting view with Management Accounting systems, flexible budgeting, cost allocations, performance measurement and monitoring, reporting, calculation, manufacturing accounting (job order and process costing), activity based costing and multi-level contribution margin Accounting. On the UVK website, numerous exam tasks and complete solutions thereto are available in English.
