England in Tudor and Stuart Times, (1485-1714), Routledge

A Political History of Tudor and Stuart England draws together a fascinating selection of sources to illuminate this turbulent era of English history. From the bloody overthrow of Richard III in 1485, to the creation of a worldwide imperial state under Queen Anne, these sources illustrate England's difficult transition from the medieval to the modern. Covering a period characterised by conflict and division, this wide-ranging single-volume collection presents the accounts of Yorkists and Lancastrians, Protestants and Catholics, and Roundheads and Cavaliers side by side. A Political History of Tudor and Stuart England provides a crucial opportunity for students to examine the institutions and events that moulded English history in the early modern era at first-hand.

Crown and Parliament in Tudor-Stuart England ; a Documentary Constitutional History, 1485-1714. Edited and with Introductions and Commentary by Paul L. Hughes [and] Robert F. Fries. -- Simon and Schuster

No period in British history has more resonance and mystery today than the sixteenth century. *New Worlds, Lost Worlds* brings the atmosphere and events of this great epoch to life. Exploring the underlying religious motivations for the savage violence and turbulence of the period—from Henry VIII's break with Rome to the overwhelming threat of the Spanish Armada—Susan Brigden investigates the actions and influences of such near-mythical figures as Elizabeth I, Thomas More, Bloody Mary, and Sir Walter Raleigh. Authoritative and accessible, *New Worlds, Lost Worlds*, the latest in the Penguin History of Britain series, provides a superb introduction to one of the most important,

compelling, and intriguing periods in the history of the Western world.

Tudor Stuart Britain and the Wider World, 1485-1685: Oxford Bibliographies Online Research Guide Robinson

Focuses on the political, social, cultural, and religious changes that occurred in Great Britain during the sixteenth and seventeenth centuries.

This England Routledge

Tudor and Stuart BritainRoutledge
Crown and Parliament in Tudor-Stuart England; a Documentary Constitutional History, 1485-1714, Ed. and with Introductions and Commentary by Paul L. Hughes [and] Robert F. Fries. -- Simon and Schuster

In this volume an international team of scholars builds up a comprehensive analysis of the fiscal history of Europe over six centuries. It forms a fundamental starting-point for an understanding of the distinctiveness of the emerging European states, and highlights the issue of fiscal power as an essential prerequisite for the development of the modern state. The study underlines the importance of technical developments by the state, its capacity to innovate, and, however imperfect the techniques, the greater detail and sophistication of accounting practice towards the end of the period. New taxes had been developed, new wealth had been tapped, new mechanisms of enforcement had been established. In general, these developments were made in western Europe; the lack of progress in some fiscal systems, especially those in eastern Europe, is an issue of historical importance in its own right and lends particular significance to the chapters on Poland and Russia. By the eighteenth century 'mountains of debt' and high debt-revenue ratios had become the norm in western Europe, yet in the east only Russia was able to adapt to the western model by 1815. The capacity of governments to borrow, and the interaction of the constraints on borrowing and the power to tax had become the real

test of the fiscal powers of the 'modern state' by 1800-15.

Death and Disorder Routledge

Tudor and Stuart Britain charts the political, religious, economic and social history of Britain from the start of Henry VII's reign in 1485 to the death of Queen Anne in 1714, providing students and lecturers with a detailed chronological narrative of significant events, such as the Reformation, the nature of Tudor government, the English Civil War, the Interregnum and the restoration of the monarchy. This fourth edition has been fully updated and each chapter now begins with an introductory overview of the topic being discussed, in which important and current historical debates are highlighted. Other new features of the book include a closer examination of the image and style of leadership that different monarchs projected during their reigns; greater coverage of Phillip II and Mary I as joint monarchs; new sections exploring witchcraft during the period and the urban sector in the Stuart age; and increased discussion of the English Civil War, of Oliver Cromwell and of Cromwellian rule during the 1650s. Also containing an entirely rewritten guide to further reading and enhanced by a wide selection of maps and illustrations, Tudor and Stuart Britain is an excellent resource for both students and teachers of this period.

We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

[A Brief History of Britain 1066 - 1485](#)

Oxford University Press, USA

From the Battle of Hastings to the Battle of Bosworth Field, Nicholas Vincent tells the story of how Britain was born. When William, Duke of Normandy, killed King Harold and seized the throne of England, England's language, culture, politics and law were transformed. Over the next four hundred years, under royal dynasties that looked principally to France for inspiration and ideas, an English identity was born, based in part upon struggle for control over the other parts of the British Isles (Scotland, Wales and Ireland), in part upon rivalry with the kings of France. From

these struggles emerged English law and an English Parliament, the English language, English humour and England's first overseas empires. In this thrilling and accessible account, Nicholas Vincent not only tells the story of the rise and fall of dynasties, but investigates the lives and obsessions of a host of lesser men and women, from archbishops to peasants, and from soldiers to scholars, upon whose enterprise the social and intellectual foundations of Englishness now rest. This the first book in the four volume Brief History of Britain which brings together some of the leading historians to tell our nation's story from the Norman Conquest of 1066 to the present-day. Combining the latest research with accessible and entertaining story telling, it is the ideal introduction for students and general readers.

[Crown and Parliament in Tudor-Stuart England](#) Oxford University Press

The sixteenth century was an age of Reformation. There was religious reformation, as Protestantism came to England, Scotland and even Ireland, bringing liberation, chaos and bloodshed in its wake. And there was political reformation, as the Tudor and Stewart (later 'Stuart') monarchs made their authority felt within and beyond their kingdoms more than any of their predecessors. Together, these two reformations produced not only a new religion, but a new politics -absolutist yet pluralist, populist yet law-bound - and a new society - controlled, fractured, yet more widely engaged and empowered than ever before. In this book, Alec Ryrie provides an authoritative overview of these momentous events, showing how religion, politics and social change were always intimately interlinked, from the murderous politics of the Tudor court to the building and fragmentation of new religious and social identities in the parishes. Drawing on the most recent research, he explains why events took the course they did - and why that course was so often an unexpected and an unlikely one.

Tudor-Stuart England, 1485-1714

Notebook Jonathan Cape

This book examines the lives and tenures of all the consorts of the Tudor and Stuart monarchs of England between 1485 and 1714, as well as the wives of the two Lords Protector during the Commonwealth. The figures in Tudor and Stuart Consorts are both incredibly familiar—especially the six wives of Henry VIII—and exceedingly unfamiliar, such as George of Denmark, the husband of Queen Anne. These innovative and authoritative biographies recognise the important role consorts played in a period before constitutional monarchy: in addition to correcting popular assumptions that are based on limited historical evidence, the chapters provide a fuller picture of the role of consort that goes beyond discussions of exceptionalism and subversion. This

volume and its companions reveal the changing nature of English consortship from the Norman Conquest to today.

England in Tudor and Stuart Times (1485-1714). With 6 Maps and 9 Date Charts Oxford University Press, USA Shortlisted for the Wolfson History Prize 2018 A Book of the Year for the Evening Standard and the Observer A black porter publicly whips a white Englishman in the hall of a Gloucestershire manor house. A Moroccan woman is baptised in a London church. Henry VIII dispatches a Mauritanian diver to salvage lost treasures from the Mary Rose. From long-forgotten records emerge the remarkable stories of Africans who lived free in Tudor England... They were present at some of the defining moments of the age. They were christened, married and buried by the Church. They were paid wages like any other Tudors. The untold stories of the Black Tudors, dazzlingly brought to life by Kaufmann, will transform how we see this most intriguing period of history.

Highroads of History: Stuart and Tudor (1485 to 1688)

Routledge This Seminar Study introduces students to England's foreign policy during the reigns of the Tudor monarchs. In this succinct introduction the author addresses the key questions facing students - for example, to what extent did monarch or minister make policy. Each reign is analysed in turn providing a narrative and explanation of the major events and policy decisions throughout the Tudor period.

The Mathematical Practitioners of Tudor & Stuart England Springer Nature

Praise for the author:: 'For anyone researching the subject, this is the book you've been waiting for.' Washington Post From the death of Richard III on Bosworth Field in 1485 to the execution of Charles I after the Civil Wars of 1642-48, England was transformed by two dynasties. First, the Tudors, who had won the crown on the battlefield, changed both the nature of kingship and the nation itself. England became Protestant and began to establish itself as a trading power; facing down seemingly impossible odds, it defeated its enemies on land and sea. But after a century, Elizabeth I died with no heir and the crown was passed to the Stuarts, who sought to remould the kingdom in their own image. Leading authority on the history of the British Isles in the sixteenth and seventeenth centuries, Ronald Hutton brilliantly recreates the political landscape of this early modern period and shows how the modern nation was forged in these febrile, transformative years. Combining skilful pen portraits of the leading figures of the day with descriptions of its culture, economics and vivid accounts of everyday life, Hutton provides telling insights into this critical period on Britain's national history. This the second book in the landmark four-volume Brief History of Britain which brings together leading historians to tell Britain's story, from the Norman Conquest of 1066 to the present day. Combining the latest research with accessible and entertaining story-telling, the series is the ideal introduction for students and general readers.
