This book is original in its conception, perspective

and treatment of the languages and identities of the West Indies as a whole. Peter Roberts makes extensive use of a huge range of multiple and multilingual historical sources to let the voices of the past speak for themselves, and unearths forgotten connections that reveal the interrelatedness of territories and their 'historical saga'. The author presents a lucid account of a movement from a written, wholly European construction of Caribbean identity

towards a more Caribbean one. He relates how the identity of the Caribbean region and the identities of the separate islands within the region were shaped and set out within a chronological sequence starting from the time of the European encounters with the Amerindians and finishing at the end of the nineteenth century.

It's back to school with a bang for Alisha, Iman and Kareem - they all failed GCSE English and there are only six weeks until their resits. This is their

last chance to continue Sixth Form, failure is not an option. It's down to Miss Murphy to see the trio through. But collectively, the students are unruly, she's already snowed under with her other classes and the school is literally falling apart. Gradually scenes set in and out of lessons reveal the difficulties facing students and staff, showing why they have 'failed' and why a stretched education system cannot cope with all the social problems outside. "The play touches

on themes of mental health, disability (...) and gender, while presenting the difficulties teachers face when navigating the line between health and safety, child protection, and simply trying to get unruly 16-years-olds to gain some much-needed qualifications." (The Stage) Every Day I Make Greatness Happen won the Nick Darke Award 2017 and premiered at the Hampstead Theatre, London.

Arabic-English-Arabic Legal Translation

Routledge

Arabic-English-Arabic

Legal Translation provides a groundbreaking investigation of the issues found in legal translation between Arabic and English. Drawing on a contrastive-comparative approach, it analyses parallel authentic legal documents in both Arabic and English to examine the features of legal discourse in both

languages and uncover the different translation techniques used. In so doing, it addresses the following questions: What are the features of English and Arabic legal texts? What are the similarities and differences of English and Arabic legal texts? What are the difficult areas of legal translation between English and Arabic legal texts? What are the techniques for translating these difficult areas on the lexical and syntactic levels? Features include: A thorough description of the features

of legal translation in both English and Arabic, drawing on empirical new research, corpus data analysis and strategic two-way comparisons between source texts and target texts Coverage of a broad range of topics including an outline of the chosen framework for data analysis, a historical survey of legal discourse developments in both Arabic and English and detailed analyses of legal literature at both the lexical and syntactic levels Attention to common areas of

difficulty such as Shariah Law terms, archaic terms and modal auxiliaries. Many examples and excerpts from a wide selection of authentic legal documents, reinforced by practical discussion points, exercises and practice drills to encourage active engagement with the material and opportunities for hands-on learning. Wide-ranging, scholarly and thought-provoking, this will be a valuable resource for advanced undergraduates and postgraduates on Arabic,

Translation Studies and Comparative Linguistics courses. It will also be essential reading for translation professionals and researchers working in the field.
