"They had it wrong all along. It's not pop that will eat itself. It's ambition."A penchant for Bollywood beats and dance music.A garish, flirtatious outsider whose exotic looks make his origins so difficult to pinpoint.Kohl.As London is burning and the pop/disco holocaust is playing out, Alekzandr has little else to fall back on other than his charm and wit in his pursuit of an interesting life. Even across the pond, the new generation of club kids seem to love him. But in an era when stars are made, not born, nobody is particularly interested in taking a chance on an outsider, particularly when his musical shortcomings are so obvious.Still, ambition knows no bounds, and the arrival of the music video changes everything in the industry. Having already used everything else at his disposal, can he use it to ride the new wave into the hearts of the public? And Alekzandr? He may well be a new romantic but he's also a gay heart breaker. And being gay in the 20th century pop mainstream is just another -arbitrary- obstacle he has to overcome. Because the best pop stars make waves, not just music.Alekzandr's story is the story that so many of us share: the one where we try and reconcile our desires and ambitions with the world around us and the people in our lives...it's just that his plays out against the backdrop so many of us grew up in and loved: 80s and 90s popular culture.Evocative, romantic and brimming with pop cultural references, Vinyl Tiger captures and celebrates the changing zeitgeist of the 80s, 90s and 00s.

When one defines "order" as a sorting of priorities, it becomes beautifully clear as to what Foucault is doing here. With virtuoso showmanship, he weaves an intensely complex history of thought. He dips into literature, art, economics and even biology in The Order of Things, possibly one of the most significant, yet most overlooked, works of the twentieth century. Eclipsed by his later work on power and discourse, nonetheless it was The Order of Things that established Foucault's reputation as an intellectual giant. Pirouetting around the outer edge of language, Foucault unsettles the surface of literary writing. In describing the limitations of our usual taxonomies, he opens the door onto a whole new system of thought, one ripe with what he calls "exotic charm". Intellectual pyrotechnics from the master of critical thinking, this book is crucial reading for those who wish to gain insight into that odd beast called Postmodernism, and a must for any fan of Foucault.

Acclaimed entertainer Hans Schneir collapses when his beloved Marie leaves him because he won’t marry her within the Catholic Church. The desertion triggers a searing re-examination of his life—the loss of his sister during the war, the demands of his millionaire father and the hypocrisies of his mother, who first fought to “save” Germany from the Jews, then worked for “reconciliation” afterwards. Heinrich Böll’s gripping consideration of how to overcome guilt and live up to idealism—how to find something to believe in—gives stirring evidence of why he was such an unwelcome presence in post-War German consciousness . . . and why he was such a necessary one.

Over the next four years, as she endures the deaths of family members, starvation, and brutal forced labour, Raami clings to the only remaining vestige of childhood - the mythical legends and poems told to her by her father. Photographic portraits should not be the formal, corporate-style poses of yesteryear, which reveal nothing of the subject's emotion, personality or mood - so believe Sarah Plater and Paul Wilkindon. Theirs is a modern, fresh and vibrant approach that aims to capture a moment in the lifestyle of the person or persons in the picture. This authoritative guide contains clear, concise and jargon-busting text that discusses the essential technical aspects of photography from choosing a camera and equipment to an appreciation of exposure, aperture, metering, shutter speed, depth of field and white balance settings, in addition to how natural light, colour and movement affect a photograph. A guide to posing helps to ensure dynamic and arresting images

The year 2020 was marked by a series of rolling crises. The Australian wildfires at the start of the year were a catastrophic sign of the global climate crisis. Xi Jinping's announcement in September that the People's Republic of China would become carbon neutral by 2060 could help alleviate the

crisis, but China has to fix its coal problem first. The big story was, of course, the global COVID-19 pandemic. Appearing to originate in a Wuhan wet market, by year's end the pandemic had claimed nearly 2 million lives worldwide, put whole countries into lockdown, and sent economies around the world tumbling into recession. China itself successfully suppressed the disease at home and recorded positive economic growth for the year — proving, at least according to the Chinese Communist Party, the 'superiority of the socialist system'. Not everyone was convinced, with persistent questions about the CCP's initial cover up of the outbreak, and how the lack of transparency helped it become a pandemic in the first place. The China Story Yearbook 2020: Crisis surveys the multiple crises of the year of the Metal Rat, including the catastrophic mid-year floods that sparked fears about the stability of the Three Gorges Dam. It looks at how Chinese women fared through the pandemic, from the rise in domestic violence to portraits of female sacrifice on the medical front line to the trolling of a famous dancer for being childless. It also examines the downward-spiralling Sino-Australian relationship, the difficult 'co-morbidities' of China's relations with the US, the end of 'One Country, Two Systems' in Hong Kong, the simmering border conflict with India, and the rise of pandemic-related anti-Chinese racism. The Yearbook also explores the responses to crisis of, among others, Daoists, Buddhists, and humourists — because when all else fails, there's always philosophy, prayer, and laughter.

When looking at the travel journals of Giancarlo Iliprandi, one of the masters of Italian graphic design, you can see how sketching can become a way of looking at reality, and therefore a way of designing communication. Travel journals and bundles of paper filled with sketches and drawings show, much like the engine underneath the bonnet, the processes that make Iliprandi tick. As he himself says «action precedes thought» and, in this case, it is the sketch precedes the birth of the idea.
