Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Fate finally stepped in and they made the life-changing move. A thirty year roller-coaster journey of coincidences and sometimes unnerving omens it covers the positives and negatives of both the move and new life, and hopefully explains some of the subtle seductions of the islands, especially Crete. Packed with strange adventures and encounters, and eccentric characters (not least the two main subjects). Inspiring and daunting reading for anyone thinking of moving abroad.

'Balikwas' is a Tagalog word, virtually untranslatable into English. It signifies a startling change, such as an awakening. It can also mean 'going over to the other side'. Chris Payne writes about making a change, a change of moving his life to the other side of the world when he and wife Loydz emigrated to The Philippines. The book is an account of what needed to be done at each end of the 'project', as they came to call it, but it also includes amusing asides about life and its quirks. It can be read as a simple 'how to do it' guide for anyone contemplating emigration, either to The Philippines or elsewhere. Or it could be seen as a comic account. Most of all though, it is an encouraging and life-affirming story of how, even late in life, one can still change one's life and enjoy new and interesting experiences in a far away country.
