HAYNES KATELYN

American English in Mind Level 4 Student's Book with DVD-ROM Cambridge University Press
American English in Mind is an integrated, four-skills course for beginner to advanced teenage learners of American English. American English in Mind Level 4 Student's Book with DVD-ROM features 16 units. Thought-provoking reading, listening, speaking, and writing topics motivate teenage students of American English. Content-rich photostories and dialogues present contemporary spoken American English in realistic contexts. 'Culture in mind' sections give

insight into different aspects of English-speaking life. 'Check your progress' sections help students monitor their learning. The DVD-ROM features stimulating grammar exercises, games, video, unit tests, Workbook audio, and selected Student's Book audio. The videos feature the photostory characters and include 'Videoke,' which allows students to record and hear their voices in portions of the video dialogues.

A Manual of English Phonetics and Phonology Cambridge University Press
This textbook is designed to fill two basic needs. One is for a clear and straightforward presentation of the rudiments of articulatory phonetics which is geared specifically to the

requirements of the (future) language teacher, and not exclusively to the student of linguistics, and in which the basic concepts and terminology are introduced via English as opposed to a variety of languages. An even greater need, perhaps, and one that has gone unfulfilled for too long, is for a simple but reasonably complete overview of the phonetic inventory of North American French.

English Phonetics and Phonology Paperback with Audio CDs (2)

Yayasan Alo Edu Indonesia
This book constitutes the refereed proceedings of the Second Asia Information Retrieval Symposium, AIRS 2005, held in Jeju Island, Korea, in October 2005. The 32 revised full papers and 36

revised poster papers presented were carefully reviewed and selected from 136 papers submitted. All current issues in information retrieval are addressed: applications, systems, technologies and theoretical aspects of information retrieval in text, audio, image, video and multi-media data. The papers are organized in topical sections on relevance/retrieval models, multimedia IR, natural language processing in IR, enabling technology, Web IR, question answering, document/query models, a special session: digital photo album, TDT/clustering, multimedia/classification, and two poster and demo sessions.

Pronunciation for Advanced Learners of English Student's Book
Cambridge University Press

The CD-ROM includes hundreds of vocabulary exercises which cover the language taught in the text. It covers 60 areas of key vocabulary, contains audio recordings for extra listening practice, a test function allowing the creation of your own tests, a progress check and a built-in dictionary.

A Course for Pre-

intermediate Learners

Cambridge University Press
The English in Mind Combos offer flexibility in a contemporary English course for teenagers. Each Combo contains eight Student's Book units with the corresponding Workbook material grouped into two modules, and offers approximately 40 to 45 hours of classwork. Clear learning objectives at the beginning of each module, plus 'Check your Progress' sections at the end, help students and teachers plan learning more effectively. There are free Audio CDs/CD-ROMs combining an interactive CD-ROM and audio material. The English in Mind Combos can be used with mixed-ability classes. Combo Starter A is for complete beginners. Combos 1A and 1B are for elementary students; 1A contains a 16-page starter section to review key language. Combos Levels 2A, 2B, 3A and 3B take students from pre-intermediate to intermediate level.

English for Professional Nursing
Cambridge University Press

This pronunciation material is suitable for all advanced students and teachers of English who

want to improve their understanding and competence in spoken English. It takes a discourse-based approach to the study of English pronunciation and intonation, encouraging learners to examine the sound system of English within the context of connected speech.

Changes 1 Teacher's Book
Cambridge University Press

This book offers a guide to medical English, and is addressed to healthcare professionals and students with an upper-intermediate level of English. It will also be useful as a handout for specialised English courses offered in medicine, nursing, and physiotherapy degrees, and can be used as a self-study book. The book is made up of four chapters, structured into three sections: namely, grammar, science, and phonetics. Each chapter reviews the main points of English grammar, and works with the vocabulary of the medical field. The book also provides students with basic knowledge of phonetics, which will help them to improve their listening and speaking skills.

English Phonetics and Phonology for Spanish Speakers + CD (2a Ed.)

Cambridge University Press

Changes is a four-level general English course for adult and young adult learners. Changes ensures that students have every opportunity to develop confident communicative ability as well as accuracy in English.

Information Retrieval Technology Cambridge

University Press

This is a fully integrated course book aimed at university students of English in the German-speaking region. It presents a staged and clearly developed introduction to the theory of pronunciation combined with a wealth of transcription exercises and an accompanying CD. The book requires no prior knowledge of linguistics. From the outset, it explains key concepts in easy-to-understand language, highlights key terms in the text for easy re-view, and gives translations of many of the terms into German. Additionally, a glossary provides students with a handy quick reference. The transcription exercises guide students from exploratory tasks to basic transcription to the more demanding transcription of natural dialogue, and all exercises are supplied with annotated solutions. The book is carefully divided into lessons and exercises which can be managed in 12 two-hour classes, leaving enough time for review and examination in a university term of 14 weeks or more. "a well structured and easy-to-follow introduction to the basics of the theory of

pronunciation, accompanied by a carefully designed set of practical exercises and a step-by-step transcription course" (Snezhina Dimitrova, Linguist List)
Understanding English Pronunciation Cambridge University Press
This edited book examines the use of English as a Medium of Instruction (EMI) in a variety of international higher education contexts. The internationalization of education - indicated by increasing mobility of students, staff and ideas, as well as by policies and programmes put in place to facilitate educational exchange - has led to increasing adoption of English as a Lingua Franca (ELF) for educational purposes. In this book, the authors present the results of empirical research into the implementation, assessment, development and use of EMI programmes in different settings, presenting the case for more structured training of teachers and staff. It will be of interest to second/foreign language teaching and administrative staff, as well as anyone else involved in teaching in English at higher

education level.

Twelve Lessons with an Integrated Course in Phonetic Transcription

Orient Blackswan

Designed so students can work through the exercises in class with other students or alone without the aid of the teacher. Spaces in the book can be filled in.

Twelve Lessons with an Integrated Course in Phonetic Transcription

Teach Yourself English Phonetics

The objectives of the course are: (1) to enable students to shape listening skills needed to understand basic core of topics and communicative functions in English; (2) to enable students to shape speaking skills pertaining to expressing ideas and feeling in certain topics and communicative functions in English; (3) to enable students to shape writing skills for a range of functional writing tasks; (4) to enable students to shape intensive and extensive reading skills in good manner in terms of being honest, discipline, confident and responsible.

From research to practice

Routledge

Second language phonology is approached in this book from the perspective of data-based studies into the English

sound system as used by native and non-native speakers of the language. The book offers a unique combination of psycholinguistic, sociolinguistic and pedagogical approaches, with individual contributions investigating the effect of selected conditioning factors on the pronunciation of English. With all the richness of approaches, it is a strong phonetic background that unifies individual contributions to the volume. Thus, the book contains a large body of original, primary research which will be of interest to experienced scientist, practitioners and lecturers as well as graduate students planning to embark on empirical methods of investigating the nature of the sound system

English in Mind Level 1B Combo with Audio CD/CD-ROM Springer

The English in Mind Combos offer flexibility in a contemporary English course for teenagers. Each Combo contains eight Student's Book units with the corresponding Workbook material grouped into two modules, and offers approximately 40 to 45 hours of classwork. Clear

learning objectives at the beginning of each module, plus 'Check your Progress' sections at the end, help students and teachers plan learning more effectively. There are free Audio CDs/CD-ROMs combining an interactive CD-ROM and audio material. The English in Mind Combos can be used with mixed-ability classes. Combo Starter A is for complete beginners. Combos 1A and 1B are for elementary students; 1A contains a 16-page starter section to review key language. Combos Levels 2A, 2B, 3A and 3B take students from pre-intermediate to intermediate level.

Gimson's Pronunciation of English Cambridge University Press

This book is designed to help students to gain insight and a better understanding of the production, transmission, and reception of English speech sounds. Started with the challenges faced by Indonesian learners in pronouncing English utterances, the author invites learners to reflect on their problems and check their pronunciation to help them focus on the problems they need to work on. The book is also designed to give learners a simple way to

understand the English sounds system by using various charts and diagrams. By looking at the pictures and charts provided in each units, students are expected to understand the sound system more efficiently. Finally, the units in the book are ended by a discussion of English prosodic features, and how human beings can use those linguistic features to express their meaning across.

Pronunciation Tasks
Teacher's Book Edicions Universitat Barcelona
 Pronunciation plays a crucial role in learning English as an international language, yet often remains marginalised by educators due to a lack of required phonetic and

phonological knowledge. *Pronunciation for English as an International Language* bridges the gap between phonetics, phonology and pronunciation and provides the reader with a research based guide on how best to teach the English language. The book follows an easy to follow format which ensures the reader will have a comprehensive grasp of each given topic by the end of the chapter. Key ideas explored include:

- Articulation of English speech sounds and basic transcription
- Connected speech processes
- Current issues in English language pronunciation teaching
- Multimedia in English

language pronunciation practice

- Using speech analysis to investigate pronunciation features

Using the latest research, *Pronunciation for English as an International Language* will facilitate effective teaching and learning for any individual involved in teaching English as a second, foreign or international language.

A Course for Pre-intermediate Learners
 Cambridge Scholars Publishing
