With more than thirty-five years of experience in psychotherapy, Dr.

Halpern enables the adult child to understand his or her parent and foster a positive, healthy adult relationship. In all respects, you appear to be well-adjusted, reasonably successful adult, but in the presence of your parents, you feel vulnerable, dependent, guilty, insecure—childlike. They manipulate you, smother you, demand your attention or elicit your resentment. In clear, nonclinical terms, renowned psychotherapist Dr. Howard Halpern shows you how to break these

familiar family routines so that you can build healthy, rewarding parent-child relationships. He teaches you, for example, how to handle martyred mothers, despotic fathers, and moralistic, unloving, or seductive parents. He also addresses the sensitive topics of how to deal with aging, divorced, or dying parents. Resolving conflicts with your parents will enable you, finally, to cut loose—to start being yourself rather than your parent's child. Without guilt, revenge, or fear as

your motives, you will be able to make the choices in love, work, and values that do justice to who you are. With more than thirty-five years of experience in psychotherapy, Dr. Halpern enables the adult child to understand his or her parent and foster a positive, healthy adult relationship.

The hunt for a serial killer begins... Detective Madison Knight concluded the case of a strangled woman an isolated incident. But when another woman's body is found in a park killed with the same brand of neckties, she realizes they're dealing with

something more serious. Despite mounting pressure from the sergeant and the chief to close the case even if it means putting an innocent man behind bars, and a partner who is more interested in saving his marriage than stopping a potential serial killer, Madison may have to go it alone if the murderer is going to be stopped.

Although acceptance of difference is on the rise in America, it's the rare gay

or lesbian person who has not been demeaned because of his or her sexual orientation, and this experience usually starts at home, among family members. Whether they are excluded from family love and approval, expected to accept second-class status for life, ignored by mainstream arts and entertainment, or abandoned when intervention would make all the difference, gay people are routinely subjected to forms of psychological and

physical abuse unknown to many straight Americans. “Familial homophobia,” as prizewinning writer and professor Sarah Schulman calls it, is a phenomenon that until now has not had a name but that is very much a part of life for the LGBT community. In the same way that Susan Brownmiller’s *Against Our Will* transformed our understanding of rape by moving the stigma from the victim to the perpetrator, Schulman’s *Ties That Bind* calls on us to recognize familial

homophobia. She invites us to understand it not as a personal problem but a widespread cultural crisis. She challenges us to take up our responsibilities to intervene without violating families, community, and the state. With devastating examples, Schulman clarifies how abusive treatment of homosexuals at home enables abusive treatment of homosexuals in other relationships as well as in society at large. Ambitious, original, and deeply important, Schulman’s book draws

on her own experiences, her research, and her activism to probe this complex issue—still very much with us at the start of the twenty-first century—and to articulate a vision for a more accepting world.

This easy-to-use guidebook provides exercises and visualization techniques that can be used to learn how to "cut the ties that bind" us to old situations, old behavior patterns, old habits. When we learn to connect with the "High C"

or the Real Self, we are able to let go of the past and allow ourselves a new and brighter future. Letting go of old habits can be fun! This workbook has been used by therapists, groups, and people who are working with the techniques outlined by Phyllis Krystal in workshops she has given all over the world. Readers who have not experienced these workshops may have read her books: *Cutting the Ties that Bind*, *Cutting More Ties that Bind*, and her recently published

Taming Our Monkey Mind, which speaks to insight, detachment and gaining identity.

Narrative of the Life of Frederick Douglass First published in 1845, *Narrative of the Life of Frederick Douglass* is an eye-opening depiction of American slavery. Part autobiography, part human-rights treatise, it describes the everyday horrors inflicted on captive laborers, as well as the strength and

courage needed to survive. Narrative of the Life of Frederick Douglass Born into slavery on a Maryland plantation in 1818, Frederick Douglass spent years secretly teaching himself to read and write—a crime for which he risked life and limb. After two failed escapes, Douglass finally, blessedly boarded a train in 1838 that would eventually lead him to New York City and freedom. Narrative of the Life of Frederick Douglass Few books have done more to change America's

notion of African Americans than this seminal work. Beyond its historical and social relevancy, it is admired today for its gripping stories, the intensity of spirit, and heartfelt humanity. Narrative of the Life of Frederick Douglass This ebook has been professionally proofread to ensure accuracy and readability on all devices. Narrative of the Life of Frederick Douglass Born into a life of bondage, Frederick Douglass secretly taught himself to read and write. It was a

crime punishable by death, but it resulted in one of the most eloquent indictments of slavery ever recorded. His gripping narrative takes us into the fields, cabins, and manors of pre-Civil War plantations in the South and reveals the daily terrors he suffered. Narrative of the Life of Frederick Douglass Written more than a century and a half ago by a Black man who went on to become a famous orator, U.S. minister to Haiti, and leader of his people, this timeless

classic still speaks directly to our age. It is a record of savagery and inhumanity that goes far to explain why America still suffers from the great injustices of the past. Narrative of the Life of Frederick Douglass

Third Sister in the Tao family, Ailin has watched her two older sisters go through the painful process of having their feet bound. In China in 1911, all the women of good families follow this ancient tradition. But Ailin loves to run away from her governess and play games with her male

cousins. Knowing she will never run again once her feet are bound, Ailin rebels and refuses to follow this torturous tradition. As a result, however, the family of her intended husband breaks their marriage agreement. And as she enters adolescence, Ailin finds that her family is no longer willing to support her. Chinese society leaves few options for a single woman of good family, but with a bold conviction and an indomitable spirit, Ailin is determined to forge her

own destiny. Her story is a tribute to all those women whose courage created new options for the generations who came after them.

The essays in *Relative Values* draw on new work in anthropology, science studies, gender theory, critical race studies, and postmodernism to offer a radical revisioning of kinship and kinship theory. Through a combination of vivid case studies and trenchant

theoretical essays, the contributors—a group of internationally recognized scholars—examine both the history of kinship theory and its future, at once raising questions that have long occupied a central place within the discipline of anthropology and moving beyond them. Ideas about kinship are vital not only to understanding but also to forming many of the practices and innovations of contemporary society. How do the cultural logics of contemporary biopolitics,

commodification, and globalization intersect with kinship practices and theories? In what ways do kinship analogies inform scientific and clinical practices; and what happens to kinship when it is created in such unfamiliar sites as biogenetic labs, new reproductive technology clinics, and the computers of artificial life scientists? How does kinship constitute—and get constituted by—the relations of power that draw lines of hierarchy and equality, exclusion

and inclusion, ambivalence and violence? The contributors assess the implications for kinship of such phenomena as blood transfusions, adoption across national borders, genetic support groups, photography, and the new reproductive technologies while ranging from rural China to mid-century Africa to contemporary Norway and the United States. Addressing these and other timely issues, *Relative Values* injects new life into one of anthropology's most

important disciplinary traditions. Posing these and other timely questions, *Relative Values* injects an important interdisciplinary curiosity into one of anthropology's most important disciplinary traditions. Contributors. The Ties that Bind Cutting the Ties that Bind This is the sequel to "Cutting the Ties that Bind" and contains advanced information that can be used to release ourselves from more complex systems that programme behaviours. These include familial and national customs - things we do without even thinking about them - role playing, acting out of superstition, fear of

unmentioned taboos, old prejudices and fears that we accept blindly. This is the book that will make us "see" what we are doing; it will help us to be the kind of parents we wish we had! This very important book is a textbook for effective self-awareness that opens the door to a lifestyle for self-assured and happy people.

Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate

governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of

empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .

This 2012 Global Food Policy Report is the second in an annual series

that provides an in-depth look at major food policy developments and events. Initiated in response to resurgent interest in food security, the series offers a yearly overview of the food policy developments that have contributed to or hindered progress in food and nutrition security. It reviews what happened in food policy and why, examines key challenges and opportunities, shares new evidence and knowledge, and highlights emerging issues. In 2012, world food security remained

vulnerable. While talk about hunger and malnutrition was plentiful, it remains to be seen whether current and past commitments to invest in agriculture, food security, and nutrition will be met. New data from the Food and Agriculture Organization of the United Nations suggest that the world will fall short of achieving the first Millennium Development Goal of halving the prevalence of undernutrition by 2015. Translating commitments into action is thus even

more urgent. *A Novel* Duke University Press
Lacing cultural criticism, Victorian literature, and storytelling together, "TOO MUCH spills over: with intellect, with sparkling prose, and with the brainy arguments of Vorona Cote, who posits that women are all, in some way or another, still susceptible to being called too much." (Esmé Weijun Wang) A weeping woman is a monster. So too is a fat woman, a horny woman, a woman shrieking with laughter.

Women who are one or more of these things have heard, or perhaps simply intuited, that we are repugnantly excessive, that we have taken illicit liberties to feel or fuck or eat with abandon. After bellowing like a barn animal in orgasm, hoovering a plate of mashed potatoes, or spraying out spit in the heat of expostulation, we've flinched-ugh, that was so gross. I am so gross. On rare occasions, we might revel in our excess--belting out anthems with our friends

over karaoke, perhaps-- but in the company of less sympathetic souls, our uncertainty always returns. A woman who is Too Much is a woman who reacts to the world with ardent intensity is a woman familiar to lashes of shame and disapproval, from within as well as without. Written in the tradition of *Shrill*, *Dead Girls*, *Sex Object* and other frank books about the female gaze, *TOO MUCH* encourages women to reconsider the beauty of their excesses-- emotional, physical, and

spiritual. Rachel Vorona Cote braids cultural criticism, theory, and storytelling together in her exploration of how culture grinds away our bodies, souls, and sexualities, forcing us into smaller lives than we desire. An erstwhile Victorian scholar, she sees many parallels between that era's fixation on women's "hysterical" behavior and our modern policing of the same; in the space of her writing, you're as likely to encounter *Jane Eyre* and *Lizzie Bennet* as you are

Britney Spears and Lana Del Rey. This book will tell the story of how women, from then and now, have learned to draw power from their reservoirs of feeling, all that makes us "Too Much."

This stunning fantasy inspired by Chinese folklore is a companion novel to *Starry River of the Sky* and the New York Times bestselling and National Book Award finalist *When the Sea Turned to Silver* In the

valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical

creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved Year of the Dog and Year of the Rat returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, Where the Mountain Meets the Moon is a timeless story reminiscent of The Wizard of Oz and Kelly Barnhill's The Girl Who Drank the Moon. Her beautiful illustrations, printed in full-color, accompany the

text throughout. Once again, she has created a charming, engaging book for young readers.
