SOSA TYRESE

Six Heroes of the Cold War Viking Adult
"This important new book . . . based on

archival material . . . shows the huge extent of Soviet espionage activity in the United States during the 20th century” (The Telegraph). Based on KGB archives that have never been previously released, this stunning book provides the most complete account of Soviet espionage in America ever written. In 1993, former KGB officer Alexander Vassiliev was permitted unique access to Stalin-era records of Soviet intelligence operations against the United States. Years later, Vassiliev retrieved his extensive notebooks of transcribed documents from Moscow. With these notebooks, John Earl Haynes and Harvey Klehr have meticulously constructed a new and shocking historical account. Along with valuable insight into Soviet espionage tactics and the motives of

Americans who spied for Stalin, *Spies* resolves many long-standing intelligence controversies. The book confirms that Alger Hiss cooperated with the Soviets over a period of years, that journalist I. F. Stone worked on behalf of the KGB in the 1930s, and that Robert Oppenheimer was never recruited by Soviet intelligence. Uncovering numerous American spies who never came under suspicion, this essential volume also reveals the identities of the last unidentified American nuclear spies. And in a gripping introduction, Vassiliev tells the story of his notebooks and his own extraordinary life.

[The Soviet World of American Communism](#) Da Capo Press

The Venona Secrets presents one of the last great, untold stories of World War II

and the Cold War. In 1995, secret Soviet cable traffic from the 1940s that the United States intercepted and eventually decrypted finally became available to American historians. Now, after spending more than five years researching all the available evidence, espionage experts Herbert Romerstein and Eric Breindel reveal the full, shocking story of the days when Soviet spies ran their fingers through America's atomic-age secrets. Included in *The Venona Secrets* are the details of the spying activities that reached from Harry Hopkins in Franklin Roosevelt's White House to Alger Hiss in the State Department to Harry Dexter White in the Treasury. More than that, *The Venona Secrets* exposes information that links Albert Einstein to Soviet intelligence and conclusive

evidence showing that J. Robert Oppenheimer gave Moscow our atomic secrets How Soviet espionage reached its height when the United States and the Soviet Union were supposedly allies in World War II The previously unsuspected vast network of Soviet spies in America How the Venona documents confirm the controversial revelations made in the 1940s by former Soviet agents Whittaker Chambers and Elizabeth Bentley. The role of the American Communist Party in supporting and directing Soviet agents How Stalin's paranoia had him target Jews (code-named Rats) and Trotskyites even after Trotsky's death How the Soviets penetrated America's own intelligence services *The Venona Secrets* is a masterful compendium of spy versus spy

that puts the Venona transcripts in context with secret FBI reports, congressional investigations, and documents recently uncovered in the former Soviet archives. Romerstein and Breindel cast a spotlight on one of the most shadowy episodes in recent American history a past when treason infected Washington and Soviet agents were shielded, either wittingly or unwittingly, by our very own government officials.

Last of the Cold War Spies Yale University Press

Whittaker Chambers is the first biography of this complex and enigmatic figure. Drawing on dozens of interviews and on materials from forty archives in the United States and abroad--including still-classified KGB dossiers--Tanenhaus

traces the remarkable journey that led Chambers from a sleepy Long Island village to center stage in America's greatest political trial and then, in his last years, to a unique role as the godfather of post-war conservatism. This biography is rich in startling new information about Chambers's days as New York's "hottest literary Bolshevik"; his years as a Communist agent and then defector, hunted by the KGB; his conversion to Quakerism; his secret sexual turmoil; his turbulent decade at Time magazine, where he rose from the obscurity of the book-review page to transform the magazine into an oracle of apocalyptic anti-Communism. But all this was a prelude to the memorable events that began in August 1948, when Chambers testified against Alger Hiss in

the spy case that changed America. Whittaker Chambers goes far beyond all previous accounts of the Hiss case, re-creating its improbably twists and turns, and disentangling the motives that propelled a vivid cast of characters in unpredictable directions. A rare conjunction of exacting scholarship and narrative art, Whittaker Chambers is a vivid tapestry of 20th century history. Stalin's Secret Agents Harper Collins

The Long Detour is an intellectually engaging overview of the history of socialism in the United States and of the continuing relevance of socialist principles today. Historian and journalist James Weinstein, a lifelong socialist and one-time Communist, takes readers from the movement's early years of utopian communities, through the heyday of

engagement with the makers of corporate America, and into the future of a de-industrializing era. He contends that socialism as a political movement was sidetracked when Communist domination of the American left stifled creative social thought and diverted the traditional left into sterile disputes over the true nature of the Soviet Union. And he argues that while "real existing socialism" -- which is what the Soviets called their system -- is dead, the humane social principles articulated by Marx and the leaders of the pre-1917 socialist movement remain vitally important to those on the left who seek to realize the promise of American democracy.

Many Are the Crimes Potomac Books Incorporated

The View from Alger's Window is Tony Hiss's remarkable memoir of the trial and imprisonment of one of the most famous victims of the Cold War witch-hunts: his father. Tony Hiss was seven years old when Whittaker Chambers first accused Alger Hiss of passing secrets to the Russians. For the rest of his childhood, Tony and his family experienced the cruelties and intimidations of the time. Drawing on hundreds of letters Alger sent from prison, the author counters public perceptions of Hiss and shows the fundamental decency and essential goodness of his father and, along the way, draws a compelling portrait of an innocent man. At the same time he lets us see how adversity drew this father and son together, allowing them to

achieve a closeness they might never have been able to otherwise. Beautifully written, wise, The View from Alger's Window sheds new light on a family, a time, an accusation, and a man whose guilt or innocence continues to inspire debate.

Decoding Soviet Espionage in

America Yale University Press

The Secret World of American Communism (1995), filled with revelations about Communist party covert operations in the United States, created an international sensation. Now the American authors of that book, along with Soviet archivist Kyrill M. Anderson, offer a second volume of profound social, political, and historical importance. Based on documents newly available from Russian archives, The

Soviet World of American Communism conclusively demonstrates the continuous and intimate ties between the Communist Party of the United States of America (CPUSA) and Moscow. In a meticulous investigation of the personal, organizational, and financial links between the CPUSA and Soviet Communists, the authors find that Moscow maintained extensive control of the CPUSA, even of the American rank and file. The widely accepted view that the CPUSA was essentially an idealistic organization devoted to the pursuit of social justice must be radically revised, say the authors. Although individuals within the organization may not have been aware of Moscow's influence, the leaders of the organization most definitely were. The authors explain and

annotate ninety-five documents, reproduced here in their entirety or in large part, and they quote from hundreds of others to reveal the actual workings of the American Communist party. They show that:

- the USSR covertly provided a large part of the CPUSA budget from the early 1920s to the end of the 1980s;
- Moscow issued orders, which the CPUSA obeyed, on issues ranging from what political decisions the American party should make to who should serve in the party leadership;
- the CPUSA endorsed Stalin's purges and the persecution of Americans living in Russia.

This documentation of the architecture of Santa Barbara, California has grown since the first edition was published in

1970: the second (1980) saw an expanded format and some 150 new photographs, and the third includes still more pages and photographs. The architectural examples presented here, selected from thousands taken on a block-by-block survey, were chosen for purity of style, historical significance, and uniqueness. Each clear and beautiful black and white photo is captioned with information on the original owner or building title; date of construction; name of architect, designer, or builder; address; and alterations or additions to the building. 11x10" Annotation copyright by Book News, Inc., Portland, OR

Soviet Espionage and the American Response 1939-1957 Pearson Prentice Hall

An espionage thriller about Russian spies and Mafia fighting for power and land in London while Britain is struggling to protect its security. By a co-author of *Spies: The Rise and Fall of the KGB in America*, and *The Haunted Wood: Soviet Espionage in America - The Stalin Era*.

The Hawk and the Dove Penguin

Communism was never a popular ideology in America, but the vehemence of American anticommunism varied from passive disdain in the 1920s to fervent hostility in the early years of the Cold War. Nothing so stimulated the white hot anticommunism of the late 1940s and 1950s more than a series of spy trials that revealed that American Communists had co-operated with Soviet espionage against the United States and had assisted in stealing the technical secrets

of the atomic bomb as well as penetrating the US State Department, the Treasury Department, and the White House itself. This book, first published in 2006, reviews the major spy cases of the early Cold War (Hiss-Chambers, Rosenberg, Bentley, Gouzenko, Coplon, Amerasia and others) and the often-frustrating clashes between the exacting rules of the American criminal justice system and the requirements of effective counter-espionage.

Smiley's People Random House Incorporated

The Cold War was one of the most dangerous periods in American history, but it ended with one of our greatest victories: the dismantling of the Soviet Empire and discrediting of Communist ideology. *Architects of Victory* tells how

the Cold War was won and it does so in a unique way by focusing on the lives of six great figures who were among those most responsible for Western victory: Harry Truman, Winston Churchill, Konrad Adenauer, Alexander Solzhenitsyn, Pope John Paul II, and Ronald Reagan. This scholarly survey of contemporary history and celebration of human greatness provides an indispensable overview of the events and personalities that dominated the second half of the 20th Century.

A Memoir of the Hollywood Ten Basic Books

A primary source examination of the infiltration of Stalin's Soviet intelligence network by members of the American government during World War II reveals the dictator's dubious partnerships with

such top-level figures as Vice President Henry Wallace and chief advisor Harry Hopkins. Co-written by the author of *Blacklisted by History*.

The Long Detour Vintage

The arrest, trial and execution of Julius and Ethel Rosenberg in 1951 mesmerised an America coming to grips with the early Cold War and the anxiety aroused by the Soviet Union's testing of the atomic bomb. However, in 1965, Walter Schneir famously presented evidence that the Rosenbergs were innocent and had been framed by the FBI - a case which was brought into question in 1995 when the FBI released 3000 Soviet intelligence documents. This prompted Schneir to continue his research, which has led to surprising and revelatory results.

Early Cold War Spies Yale University Press

The autobiographical story of a KGB spy sent to Washington to recruit Americans as Soviet agents also reveals the identity of "Socrates"--the former top State Department-White House advisor he actually enlisted

Venona Simon and Schuster

Discusses the FBI's role in important espionage cases of the cold war years, charging that the FBI promoted political McCarthyism while masking counterintelligence shortcomings and citing the FBI's failure to apprehend and convict Soviet agents.

The Story of America Univ of North Carolina Press

A brilliant and revealing biography of the two most important Americans during

the Cold War era—written by the grandson of one of them Only two Americans held positions of great influence throughout the Cold War; ironically, they were the chief advocates for the opposing strategies for winning—and surviving—that harrowing conflict. Both men came to power during World War II, reached their professional peaks during the Cold War's most frightening moments, and fought epic political battles that spanned decades. Yet despite their very different views, Paul Nitze and George Kennan dined together, attended the weddings of each other's children, and remained good friends all their lives. In this masterly double biography, Nicholas Thompson brings Nitze and Kennan to vivid life. Nitze—the hawk—was a consummate

insider who believed that the best way to avoid a nuclear clash was to prepare to win one. More than any other American, he was responsible for the arms race. Kennan—the dove—was a diplomat turned academic whose famous "X article" persuasively argued that we should contain the Soviet Union while waiting for it to collapse from within. For forty years, he exercised more influence on foreign affairs than any other private citizen. As he weaves a fascinating narrative that follows these two rivals and friends from the beginning of the Cold War to its end, Thompson accomplishes something remarkable: he tells the story of our nation during the most dangerous half century in history. *Freedom and Crisis from Settlement to Superpower* Penguin

When Elizabeth Bentley slunk into an FBI field office in 1945, she was thinking only of saving herself from NKGB assassins who were hot on her trail. She had no idea that she was about to start the greatest Red Scare in U.S. history. Bentley (1908-1963) was a Connecticut Yankee and Vassar graduate who spied for the Soviet Union for seven years. She met with dozens of highly placed American agents who worked for the Soviets, gathering their secrets and stuffing sensitive documents into her knitting bag. But her Soviet spymasters suspected her of disloyalty--and even began plotting to silence her forever. To save her own life, Bentley decided to betray her friends and comrades to the FBI. Her defection effectively shut down Soviet espionage in the United States for

years. Despite her crucial role in the cultural and political history of the early Cold War, Bentley has long been overlooked or underestimated by historians. Now, new documents from Russian and American archives make it possible to assess the veracity of her allegations. This long overdue biography rescues Elizabeth Bentley from obscurity and tells her dramatic life story.

Red Spy Queen Melville House

A Christian Science Monitor Best Book of the Year From the award-winning author of *Waiting and War Trash*: a riveting tale of espionage and conflicted loyalties that spans half a century in the entwined histories of two countries—China and the United States—and two families. When Lilian Shang, born and raised in America, discovers her father's diary after the

death of her parents, she is shocked by the secrets it contains. She knew that her father, Gary, convicted decades ago of being a mole in the CIA, was the most important Chinese spy ever caught. But his diary, an astonishing chronicle of his journey as a Communist intelligence agent, reveals the pain and longing that his double life entailed—and point to a hidden second family that he'd left behind in China. As Lilian follows her father's trail back into the Chinese provinces, she begins to grasp the extent of his dilemma: he is a man torn between loyalty to his motherland and the love he came to feel for his adopted country. She sees how his sense of duty distorted his life, and as she starts to understand that Gary too had been betrayed, Lilian finds that it is up to her

to prevent his tragedy from endangering yet another generation of Shangs. A stunning portrait of a multinational family and an unflinching inquiry into the meaning of citizenship, patriotism, and home, *A Map of Betrayal* is a spy novel that only Ha Jin could write. From the Hardcover edition.

The View from Alger's Window Ivan R Dee

Analyzes how government secrets, such as President Truman's decision to make a sacred secret of the Venona intercepts, distort politics and our understanding of history

Russian Sector Vintage

Ray Kurzweil is the inventor of the most innovative and compelling technology of our era, an international authority on artificial intelligence, and one of our

greatest living visionaries. Now he offers a framework for envisioning the twenty-first century--an age in which the marriage of human sensitivity and artificial intelligence fundamentally alters and improves the way we live. Kurzweil's prophetic blueprint for the future takes us through the advances that inexorably result in computers exceeding the memory capacity and computational ability of the human brain by the year 2020 (with human-level capabilities not far behind); in relationships with automated

personalities who will be our teachers, companions, and lovers; and in information fed straight into our brains along direct neural pathways. Optimistic and challenging, thought-provoking and engaging, *The Age of Spiritual Machines* is the ultimate guide on our road into the next century.

Yale University Press

Offers an analysis of the McCarthy phenomenon, tracing the machinations of anticommunism in creating a culture of fear and suspicion.
