BAKER SIDNEY	
Schaum's Outline of Introduction To Philosophy Reed Reference Publishing	
Getting Through is the story of an ordinary, undistinguished, retired aeronautical engineer who recounts his experiences from late childhood through an idyllic adolescence, a mediocre public school education, a thwarted flying career, a bitching time in the Air Force, a second-tier now defunct engineering college, a marriage that went bad, and a career of underlying discontent with a few failures and some successes. Included are his father's life recollections and the authors thoughts on philosophy, religion, nature and nurture, warfare, and the meaning of life ending with accumulations of life's journey things done, places been, best books read, and the distance traveled on planet Earth. Getting Through, replete with wit, wisdom, and ignorance, tells us that no life is ever ordinary and that everyone's story is worth telling. <i>Books in Print</i> McGraw Hill Professional	meaninglessness of suffering in a mechanical universe, the ephemerality of time in a world where value does not accumulate, the arbitrariness of historicized reason, the reduction of value to will, and the alienation of the Cartesian ego. These sources are reviewed in the first two parts of the book with the result that the phenomenon of nihilism becomes understandable. In its third and fourth parts, Crosby provides a critical analysis of the religious and philosophical forces leading to nihilism by discussing authors from the early modern period through Dostoyevsky, Sartre, Russell, and Derrida. He shows that these forces are skewed and impoverished and should not be allowed to determine our situation. The comprehensive attention to detail and the multi-perspectival interpretation demonstrates as well as asserts the richness of the culture that puts nihilism in its place. Part Five, finally, rephrases the criticism of the sources of nihilism in positive ways. Part Four in particular is a tour de force of philosophical argument. Its richness of nuance, plurality of views examined, and adroitness of critical interpretation provide cumulatively a powerful, non-nihilistic reading of the philosophic tradition. The force of the argument derives from its comprehensive, cumulative character. Crosby distinguishes and relates five areas of nihilism: political, moral, epistemological, cosmic, and existential. Throughout the book, he illustrates and examines these as they are expressed in literature and art, in daily life and practical affairs, and in philosophy. The book is richly erudite in its marshalling of consciousness from so many domains.
On its first appearance in 1960, the Concise Encyclopedia of Western Philosophy established itself as a classic; this third edition builds on its original strengths but brings it completely up to date. The Concise Encyclopedia offers a lively, readable, comprehensive and authoritative treatment of Western philosophy as a whole, incorporating scintillating articles by many leading philosophical authors. It serves not only as a convenient reference work, but also as an engaging introduction to philosophy.	Dictionary of Early American Philosophers Wipf and Stock Publishers
Introducing Feminist Perspectives on Pastoral Theology Beacon Press (MA)	Extensively revised and expanded in this fourth edition, Exploring Philosophy: An Introductory Anthology is a uniquely accessible and engaging introduction to philosophy. Steven M. Cahn brings together exceptionally clear recent essays by noted philosophers and supplements them with influential historical sources. Most importantly, the articles have been carefully edited to make them understandable to every reader. The topics are drawn from across the major fields of philosophy and include knowledge and skepticism, mind and body, freedom and determinism, the existence of God, identity and immortality, ethical reasoning, abortion, euthanasia, world hunger, democracy, social justice, art, and life and death. The readings are enhanced by concise introductions, study questions, explanatory notes, and suggestions for further reading. NEW TO THE FOURTH EDITION: * More than fifty new readings greatly expand the book's coverage and its flexibility for course use * More than half of the new readings are "Historical Sources," which introduce students to philosophical classics and help them understand the contemporary selections * Four new sections--Identity and Immortality, Social Justice, Art, and Life and Death--extend the anthology's range into areas that today's students find especially compelling * Study Questions after each reading help students test their comprehension and encourage class discussion SUPPORT PACKAGE OFFERED FOR THE FIRST TIME WITH THIS EDITION: * An Instructor's Manual features PowerPoint-based lecture outlines, reading summaries, a glossary, and a Test Bank of objective and essay questions * A Companion Website at www.oup.com/us/cahn contains all the material from the Instructor's Manual along with student resources including self-test questions, suggested readings, and helpful links
A comprehensive review of the material covered in a college-level - Introduction to Philosophy course. This book provides an overview to the nature of philosophy, epistemology, the philosophy of science, metaphysics, ethics, social and political philosophy, the philosophy of religion, and aesthetics. <i>The Concise Encyclopædia of Living Faiths</i> Prometheus Books	Paperbound Books in Print Fall 1995 Simon and Schuster
In this first interdisciplinary study of this contentious subject, leading experts in politics, history, and philosophy examine the complex aspects of the terror bombing of German cities during World War II. The contributors address the decision to embark on the bombing campaign, the moral issues raised by the bombing, and the main stages of the campaign and its effects on German civilians as well as on Germany's war effort. The book places the bombing campaign within the context of the history of air warfare, presenting the bombing as the first stage of the particular type of state terrorism that led to Hiroshima and Nagasaki and brought about the Cold War era "balance of terror." In doing so, it makes an important contribution to current debates about terrorism. It also analyzes the public debate in Germany about the historical, moral, and political significance of the deliberate killing of up to 600,000 German civilians by the British and American air forces. This pioneering collaboration provides a platform for a wide range of views-some of which are controversial-on a highly topical, painful, and morally challenging subject. <i>Christian Ethics</i> A&C Black	"Based on the seventh edition of The Oxford Companion to English Literature (2009)"--Preface. <i>Encyclopaedia of Religion and Ethics</i> Oxford University Press
This book examines the core components of Immanuel Kant's unique and revolutionary philosophy, Transcendental Idealism. In it the reader will discover concise yet thorough descriptions of the most important aspects of Kantianism, including such topics as:The limits of theoretical knowledgeKant's Copernican RevolutionThe distinction between the phenomenal and the noumenalThe antinomies and dialectical logicSynthetic a priori knowledgeKantian ethics (deontology)The Categorical ImperativeKant's ideas on free will, the immortality of the soul, and the existence of God.A brief biography of the life of Immanuel Kant is also included in the book. <i>Whitaker's Book List</i> Trafford Publishing	The most complete and up-to-date philosophy reference for a new generation, with entries ranging from Abstract Objects to Wisdom, Socrates to Jean-Paul Sartre, Ancient Egyptian Philosophy to Yoruba Epistemology. The Concise Routledge Encyclopedia of Philosophy includes: * More than 2000 alphabetically arranged, accessible entries * Contributors from more than 1200 of the world's leading thinkers * Comprehensive coverage of the classic philosophical themes, such as Plato, Arguments for the Existence of God and Metaphysics * Up-to-date coverage of contemporary philosophers, ideas, schools and recent developments, including Jacques Derrida, Poststructuralism and Ecological Philosophy * Unrivaled international and multicultural scope with entries such as Modern Islamic Philosophy, Marxist Thought in Latin America and Chinese Buddhist Thought * An exhaustive index for ease of use * Extensive cross-referencing * Suggestions for further reading at the end of each entry <i>Forthcoming Books</i> Wipf and Stock Publishers
List of members in v. 1- . <i>A Concise Encyclopedia of Hinduism</i> Berghahn Books	The first half of 'Religion and the Natural Sciences' is an introduction to the discussion of science and religion. Here the reader learns why there is any debate at all and what resources exist for responding to it. The second half deals with specific issues that arise in the individual sciences, from astronomy and physics to biology and ecology. Any project hoping to connect science and religion must supply the categories of connection, which are found primarily, although not exclusively, in philosophy. The simplicity of the arrangement and the nature of the selections are intended to make 'Religion and the Natural Sciences' available to as wide an audience as possible, including students from the sciences and technology, the professions, the humanities and liberal studies, and theology. <i>Religion and the Natural Sciences</i> Simon and Schuster
The church has always been a place of profound ambivalence for women. While the majority of those who attend church are women, women experience hierarchical exclusion and invisibility within its institutional structures. Throughout most of its history, women have not participated in the church's reflections on its own nature. And yet, feminist theologians claim that women are church and always have been church. This book explores women's experiences of being church and reclaiming the church in order to rebuild it as meaningful, open, sacramental space where everybody's presence is celebrated. Natalie Watson proposes a creative and constructive dialogue with existing theological approaches to the church, from different Christian traditions as well as more recent feminist theologians, and suggests the development of criteria which hear women's experiences of being church and reclaiming church into speech. The church is the embodied reality of all women, children and men whose stories tell the story of the Triune God. This book explores the ambivalence of women's experiences of being part of the church, yet often on men's terms, and seeks to establish a constructive and creative re-reading of ecclesiology from a feminist perspective. <i>Deutero-Pauline Writings</i> Psychology Press	This book introduces feminist perspectives in pastoral theology. It is concerned both with pastoral care and practice and also with pastoral theology and theory. It seeks to explore why the inclusion of women's experiences and of feminist perspectives is of vital importance to Christian pastoral practice and to a Christian understanding of God. The book is designed for concerned practitioners and also has specifically in mind the needs of students of pastoral theology. It begins with the lived experience of violence in Church and society, moving through to the implications of this for our understanding of the human community and the divine. <u>Convinced, Concise, and Christian</u> Routledge
This book is our century's most comprehensive and wise treatment of nihilism in all of its guises, comparing favorably with Rosen, Cavell, and indeed with Spengler. Crosby argues that our culture is genuinely haunted by nihilism expressing itself in the fideism of fundamentalism as well as in the debilitating alienation from all orientation. This results from a one-sided development of Western culture. Unlike most writers on this topic, Crosby acknowledges many sources colluding to frame the culture of nihilism, including □the death of God,□ the objectification of nature, the	

God, Immortality, Ethics A Concise Introduction to Philosophy Schaum's Outline of Introduction To Philosophy McGraw Hill Professional

The Thought of Huw Parri Owen Xlibris Corporation

Scope: theology, philosophy, ethics of various religions and ethical systems and relevant portions of anthropology, mythology, folklore, biology, psychology, economics and sociology.

Macmillan International Higher Education

The seventh volume of this Companion series is devoted to the writings ascribed to Paul but widely thought not to be genuinely from the Apostle.

These are of particular importance in showing how Paul's authority was exploited in the Early Church, and the topics addressed often deal with Christian discipline and hierarchy. Hence there is a particularly strong feminist agenda to be explored here. The Pastoral Epistles, Ephesians and Colossians are prominent among the writings addressed in this sparkling collection, and the authors include David Scholer, Luise Schottroff, Bonnie Thurston, Lilian Portefaix, Sara Winter and Ingrid Rosa Kitzberger.

[Concise Routledge Encyclopedia of Philosophy](#) Routledge

Christian Ethics provides a biblical, historical, philosophical and theological guide to the field of Christian ethics. Prominent theologian David S. Cunningham explores the tradition of 'virtue ethics' in this creative and lively text, which includes literary and musical references as well as key contemporary theological texts and figures. Three parts examine: the nature of human action and the people of God as the 'interpretative community' within which ethical discourse arises the development of a 'virtue ethics' approach, and places this in its Christian context significant issues in contemporary Christian ethics, including the ethics of business and economics, politics, the environment, medicine and sex. This is the essential text for students of all ethics courses in theology, religious studies and philosophy.

[Immanuel Kant](#) God, Immortality, Ethics A Concise Introduction to Philosophy Schaum's Outline of Introduction To Philosophy

ETHICS: THEORY AND CONTEMPORARY ISSUES, 8E CONCISE presents the major areas of ethical theory through an engaging collection of contemporary moral debates. First, readers are introduced to such ethical subjects as religion and global ethics, utilitarianism and deontology, natural law ethics, virtue ethics, non-Western paradigms, feminist ethics, and care ethics. Then, these and other ethical concepts provide the framework for in-depth discussions on moral dilemmas such as euthanasia, sexual morality, economic justice, animal ethics, war, violence, and globalization. Plus, this edition brings the debate up-to-date with detailed discussions of timely moral topics such as same-sex marriage, structural racism, factory farming, pacifism, and global distributive justice. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Kant's Moral Philosophy Udo Schaefer

A moral philosopher discusses the rights and wrongs of specific military campaigns from 1914 on, including the war in Vietnam, the Six Day War, the British bombing campaign against Germany, the American bombing of Japan, the Korean War, the Indo-Pakistani War of 1971, the 1976 raid on Entebbe, and the 1986 attack against Libya.

A Concise History of Afghanistan in 25 Volumes Routledge

For 35,000 years ancient Afghanistan was called Aryana (the Light of God) has existed. Then in 747 AD what is today called Afghanistan became Khorasan (which means Sunrise in Dari) which was a much larger geographical area. In the middle of the nineteenth century the name Afghanistan, which means home of the united tribes, was applied originally by the Saxons (present day British) and the Russians. During the Great Games in the middle of nineteenth century, the Durand Line was created in 1893 and was in place until 1993. Saxons created the state of Afghanistan out of a geographical area roughly the size of Texas: in 1893 before which there were 10 million square kilometers, larger than the size of Canada, as means to act as a buffer zone between the Saxon-India & Tsarist-Russia and the Chinese.
