The Islamic Invasion BRILL

In Jakarta's gleaming center a man and a woman watch each other from adjoining skyscrapers. The man, a journalist, has on his desk reports he doesn't dare publish of a massacre in East Timor. He contemplates the demands of truth and confronts the split in his world between a sophisticated urban life where the women waft by in signature perfumes, and the primitive oppression of Indonesia's army state in East Timor. Only jazz mediates. A music of raw emotion and powerful refinement, urbane yet born in the growl and moan of generations of slaves, jazz is not literal, but absolutely true. So too this novel, which defied Indonesia's regime of censorship and made available, in its pages, the heavily censored reality that journalists dared not report. In "Jazz, Perfume and the Incident," Seno Gumira Ajidarma combines the surreal and the actual in a way that forever changed Indonesian literature and political discourse.

The Arthur of the Italians Wadsworth Publishing Company

This is the first comprehensive book on the Arthurian legend in medieval and Renaissance Italy since Edmund Gardner's 1930 *The Arthurian Legend in Italian Literature*. Arthurian material reached all levels of Italian society, from princely courts with their luxury books and frescoed palaces, to the merchant classes and even popular audiences in the piazza, which enjoyed shorter retellings in verse and prose. Unique assemblages emerge on Italian soil, such as the *Compilation of Rustichello da Pisa* or the innovative *Tavola Ritonda*, in versions made for both Tuscany and the Po Valley. Chapters examine the transmission of the French romances across Italy; reworkings in various Italian regional dialects; the textual relations of the prose *Tristan*; narrative structures employed by Italian writers; later ottava rima poetic versions in the new medium of printed books; the Arthurian-themed art of the Middle Ages and Renaissance; and more. The *Arthur of the Italians* offers a rich corpus of new criticism by scholars who have brought the Italian Arthurian material back into critical conversation.

Exploring Language Change Good Press

In this student-friendly text, Jones and Singh explore the phenomenon of language change, with a particular focus on the social contexts of its occurrence and possible motivations, including speakers' intentions and attitudes. Presenting new or little-known data, the authors draw a distinction between "unconscious" and "deliberate" change. The discussion on "unconscious" change considers phenomena such as the emergence and obsolescence of individual languages, whilst the sections on "deliberate" change focus on issues of language planning, including the strategies of language revival and revitalization movements. There is also a detailed exploration of what is arguably the most extreme instance of "deliberate" change; language invention for real-world use. Examining an extensive range of language situations, *Exploring Language Change* makes a clear, but often ignored distinction between concepts such as language policy and planning, and language revival and revitalization. Also featured are a number of case studies which demonstrate that real-life language use is often much more complex than theoretical abstractions might suggest. This is a key text for students on a variety of courses, including sociolinguistics, historical linguistics and language policy and planning.

Sūfism, the religious philosophy of Islam, is described in the oldest extant definition as 'the apprehension of divine realities,' and Mohammedan mystics are fond of calling themselves Ahl al-Haqq, 'the followers of the Real.' In attempting to set forth their central doctrines from this point of view, the author draws to some extent on materials which he has collected for a history of Islamic mysticism. This edition provides an easy approach to the study of Islamic mysticism. Apart what the general reader requires to be told at first about Sūfism; the book includes a large amount of material that will be new even to professional Orientalists. Dr. Nicholson sets before us the results of twenty years' unremitting labour, and that, too, with remarkable simplicity and clarity for such a subject; at the same time he lets the mystics mostly speak for themselves and mainly in his own

fine versions from the original Arabic and Persian.

Summary: "Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan."--Publisher description.

From the pages of *Epic* magazine come the true stories that inspired the *Apple Original Series*. Includes nearly a hundred color photographs and a Foreword by Kumi Nangiuo Kanani. Nearly everyone in America came from somewhere else. This is a fundamental part of the American idea—an identity and place open to everyone. People arrive from all points distant, speaking a thousand languages, carrying every culture, each with their own reason for uprooting themselves to try something new. Everyone has their own unique story. *Little America* is a collection of those stories, told by the people who lived them. Together, they form a wholly original, at times unexpected portrait of America's immigrants—and thereby a portrait of America itself.

How can the international conservation movement protect biological diversity, while at the same time safeguarding the rights and fulfilling the needs of people, particularly the poor? *Contested Nature* argues that to be successful in the long-term, social justice and biological conservation must go hand in hand. The protection of nature is a complex social enterprise, and much more a process of politics, and of human organization, than ecology. Although this political complexity is recognized by practitioners, it rarely enters into the problem analyses that inform conservation policy. Structured around conceptual chapters and supporting case studies that examine the politics of conservation in specific contexts, the book shows that pursuing social justice enhances biodiversity conservation rather than diminishing it, and that the fate of local peoples and that of conservation are completely intertwined.

The Islamic Turks were poised to overrun Europe at The Battle of Vienna on September 11/12 of 1683, but were defeated. The Islamic Invasion As Mosques appear across the country people are asking—"What do I need to Know about Islam?" Islam—once an obscure Middle Eastern religion—has rapidly grown into the second largest religion in the world. There are now more Muslims than Episcopalians in the United States! Between Harmony and Discrimination explores the varying expressions of religious practices and the intertwined, shifting interreligious relationships of the peoples of Bali and Lombok. As religion has become a progressively more important identity marker in the 21st century, the shared histories and practices of peoples of both similar and differing faiths are renegotiated, reconfirmed or reconfigured. This renegotiation, inspired by Hindu or Islamic reform movements that encourage greater global identifications, has created situations that are perceived locally to oscillate between harmony and discrimination depending on the relationships and the contexts in which they are acting. Religious belonging is increasingly important among the Hindus and

Muslims of Bali and Lombok; minorities (Christians, Chinese) on both islands have also sought global partners. Contributors include Brigitta Hauser-Schäublin, David D. Harnish, I Wayan Ardika, Ni Luh Sitjiati Beratha, Erni Budiwanti, I Nyoman Darma Putra, I Nyoman Dhana, Leo Howe, Mary Ida Bagus, Lene Pedersen, Martin Slama, Meike Rieger, Sophie Strauss, Kari Telle and Dustin Wiebe.

Discrete Choice Analysis presents these results in such a way that they are fully accessible to the range of students and professionals who are involved in modelling demand and consumer behavior in general or specifically in transportation - whether from the point of view of the design of transit systems, urban and transport economics, public policy, operations research, or systems management and planning. The methods of discrete choice analysis and their applications in the modelling of transportation systems constitute a comparatively new field that has largely evolved over the past 15 years. Since its inception, however, the field has developed rapidly, and this is the first text and reference work to cover the material systematically, bringing together the scattered and often inaccessible results for graduate students and professionals. *Discrete Choice Analysis* presents these results in such a way that they are fully accessible to the range of students and professionals who are involved in modelling demand and consumer behavior in general or specifically in transportation - whether from the point of view of the design of transit systems, urban and transport economics, public policy, operations research, or systems management and planning. The introductory chapter presents the background of discrete choice analysis and context of transportation demand forecasting. Subsequent chapters cover, among other topics, the theories of individual choice behavior, binary and multinomial choice models, aggregate forecasting techniques, estimation methods, tests used in the process of model development, sampling theory, the nested-logit model, and systems of models. *Discrete Choice Analysis* is ninth in the MIT Press Series in Transportation Studies, edited by Marvin Manheim.

It is 1600 and Dutch merchants are welcomed to the Banda islands. But, in the space of three years, Bandanese society changes as its people succumb to the temptations of Western materialism—a process that leads inevitably to social dissension and, finally, to rebellion. Written during the dying days of the Netherlands East Indies, *Tambera* is Utuy Tatang Sontani's most seminal work. In looking back to the beginnings of colonialism in the Indies, Sontani anticipates many of the philosophical and moral challenges that still confronted the nascent republic of Indonesia, three hundred and fifty years later.

Buku ini merupakan kumpulan 160 esai pendek Goenawan Mohamad yang pernah dimuat majalah Tempo dari Januari 1986 sampai Februari 1990. Diawali dengan esai berjudul "Ding" (4 Januari 1986) sampai yang terakhir "Asongan" (24 Februari

1990). Esai-esai yang dikenal sebagai Catatan Pinggir itu berbicara beragam hal, bahkan hampir semua hal yang dekat dengan peristiwa di masyarakat dalam kurun waktu empat tahun itu: tentang kecemasan, kebebasan, kekuasaan, kemerdekaan, keserakahan, kebahagiaan, demokrasi. Mengenai topik yang disebut terakhir, William Liddle, dalam Kata Pengantar untuk buku ini, mengatakan kiranya jelas bahwa Goenawan sangat menyakini demokrasi sebagai jenis pemerintahan yang terbaik bagi negara kebangsaan Dunia Ketiga seperti Indonesia. Tetapi dia tidak berpretensi seolah-olah demokrasi dengan sendirinya mampu menyelesaikan segala persoalan.... Goenawan Mohamad, kata Liddle, adalah burung langka dalam sangkar intelektual modern Indonesia. Dia menolak tegas pengkotakan Timur-Barat. Dalam sejumlah Catatan Pinggir ini, kata Liddle, dikotomi Timur-Barat

beberapa kali ditampik Goenawan.
