A Portrait of the Artist as a Young Man [1916] established James Joyce as a leading figure in literary modernism across Europe. The novel is set in the author's homeland, Ireland, and narrates, in five episodes, the childhood of Stephen Dedalus. The plot is entirely based on Joyce's own life and serves as a private manifesto, particularly through its sharp declaration of independence from Catholicism. Joyce pioneered a new way of writing novels, abandoning traditional narration for stream of consciousness and introducing his epiphanies—momentary revelations that, in their everydayness, hint at a larger context of life. Upon the recommendation of the American poet Ezra Pound, A Portrait of the Artist as a Young Man was serialized in the magazine *The Egoist* in 1914/15 before being published as a book the following year. Today, more than a hundred years after its release, A Portrait of the Artist as a Young Man is considered one of the most significant autobiographical texts in world literature. The Modern Library ranked it as the 3rd best English-language novel of the 20th century (with Joyce's *Ulysses* as #1). JAMES JOYCE [1882-1941], Irish author, is a key figure in modernist literature with works such as *Dubliners* [1914], *A Portrait of the Artist as a Young Man* [1916], and *Ulysses* [1922].

From the globally acclaimed, best-selling novelist and author of *We Should All Be Feminists*, a timely and deeply personal account of the loss of her father: "With raw eloquence, *Notes on Grief* ... captures the bewildering messiness of loss in a society that requires serenity, when you'd rather just scream. Grief is impolite ... Adichie's words put welcome, authentic voice to this most universal of emotions, which is also one of the most universally avoided" (*The Washington Post*). *Notes on Grief* is an exquisite work of meditation, remembrance, and hope, written in the wake of Chimamanda Ngozi Adichie's beloved father's death in the summer of 2020. As the COVID-19 pandemic raged around the world, and kept Adichie and her family members separated from one another, her father succumbed unexpectedly to complications of kidney failure. Expanding on her original *New Yorker* piece, Adichie shares how this loss shook her to her core. She writes about being one of the millions of people grieving this year; about the familial and cultural dimensions of grief and also about the loneliness and anger that are unavoidable in it. With signature precision of language, and glittering, devastating detail on the page—and never without touches of rich, honest humor—Adichie weaves together her own experience of her father's death with threads of his life story, from his remarkable survival during the Biafran war, through a long career as a statistics professor, into the days of the pandemic in which he'd stay connected with his children and grandchildren over video chat from the family home in Abba, Nigeria. In the compact format of *We Should All Be Feminists* and *Dear Ijeawele*, Adichie delivers a gem of a book—a book that fundamentally connects us to one another as it probes one of the most universal human experiences. *Notes on Grief* is a book for this moment—a work readers will treasure and share now more than ever—and yet will prove durable and timeless, an indispensable addition to Adichie's canon.

Utopia is a work of fiction and socio-political satire by Thomas More published in 1516 in Latin. The universal jubilation that greeted Nelson Mandela's inauguration as president of South Africa in 1994 and the process by which the nightmare of apartheid had been banished is one of the most thrilling, hopeful stories in the modern era: peaceful, rational change was possible and, as with the fall of the Berlin Wall, the weight of an oppressive history was suddenly lifted. R.W. Johnson's major new book tells the story of South Africa from that magic period to the bitter disappointment of the present. As it turned out, it was not so easy for South Africa to shake off its past. The profound damage of apartheid meant there was not an adequate educated black middle class to run the new state and apartheid had done great psychological harm too, issues that no amount of goodwill could wish away. Equally damaging were the new leaders, many of whom had lived in exile or in prison for much of their adult lives and who tried to impose decrepit, Eastern Bloc political ideas on a world that had long moved on. This disastrous combination has had a terrible impact

? it poisoned everything from big business to education to energy utilities to AIDS policy to relations with Zimbabwe. At the heart of the book lies the ruinous figure of Thabo Mbeki, whose over-reaching ambitions led to catastrophic failure on almost every front. But, as Johnson makes clear, Mbeki may have contributed more than anyone else to bringing South Africa close to ?failed state? status, but he had plenty of help.

One of the best ways to understand history is through eye-witness accounts. Ting-Xing Ye's riveting first book, *A Leaf in the Bitter Wind*, is a memoir of growing up in Maoist China. It was an astonishing coming of age through the turbulent years of the Cultural Revolution (1966 - 1974). In the wave of revolutionary fervour, peasants neglected their crops, exacerbating the widespread hunger. While Ting-Xing was a young girl in Shanghai, her father's rubber factory was expropriated by the state, and he was demoted to a labourer. A botched operation left him paralyzed from the waist down, and his health deteriorated rapidly since a capitalist's well-being was not a priority. He died soon after, and then Ting-Xing watched her mother's struggle with poverty end in stomach cancer. By the time she was thirteen, Ting-Xing Ye was an orphan, entrusted with her brothers and sisters to her Great-Aunt, and on welfare. Still, the Red Guards punished the children for being born into the capitalist class. Schools were being closed; suicide was rampant; factories were abandoned for ideology; distrust of friends and neighbours flourished. Ting-Xing was sent to work on a distant northern prison farm at sixteen, and survived six years of backbreaking labour and severe conditions. She was mentally tortured for weeks until she agreed to sign a false statement accusing friends of anti-state activities. Somehow finding the time to teach herself English, often by listening to the radio, she finally made it to Beijing University in 1974 as the Revolution was on the wane — though the acquisition of knowledge was still frowned upon as a bourgeois desire and study was discouraged. Readers have been stunned and moved by this simply narrated personal account of a 1984-style ideology-gone-mad, where any behaviour deemed to be bourgeois was persecuted with the ferocity and illogic of a witch trial, and where a change in politics could switch right to wrong in a moment. The story of both a nation and an individual, the book spans a heady 35 years of Ye's life in China, until her eventual defection to Canada in 1987 — and the wonderful beginning of a romance with Canadian author William Bell. The book was published in 1997. The 1990s saw the publication of several memoirs by Chinese now settled in North America. Ye's was not the first, yet earned a distinguished place as one of the most powerful, and the only such memoir written from Canada. It is the inspiring story of a woman refusing to "drift with the stream" and fighting her way through an impossible, unjust system. This compelling, heart-wrenching story has been published in Germany, Japan, the US, UK and Australia, where it went straight to #1 on the bestseller list and has been reprinted several times; Dutch, French and Turkish editions will appear in 2001.

An emotionally charged story about the power of dreams, and how passion can turn to obsession. Beck hates his life. He hates his violent mother. He hates his home. Most of all, he hates the piano that his mother forces him to play hour after hour, day after day. He will never play as she did before illness ended her career and left her bitter and broken. But Beck is too scared to stand up to his mother, and tell her his true passion, which is composing his own music - because the least suggestion of rebellion on his part ends in violence. When Beck meets August, a girl full of life, energy and laughter, love begins to awaken within him and he glimpses a way to escape his painful existence. But dare he reach for it? Thrilling and powerfully written, this is an explosive debut for YA readers which tackles the dark topic of domestic abuse in an ultimately hopeful tale.

Whether we live in cities, suburbs, or villages, we are encroaching on nature, and it in one way or another perseveres. Naturalist

Susan Shetterly looks at how animals, humans, and plants share the land—observing her own neighborhood in rural Maine. She tells tales of the locals (humans, yes, but also snowshoe hares, raccoons, bobcats, turtles, salmon, ravens, hummingbirds, cormorants, sandpipers, and spring peepers). She expertly shows us how they all make their way in an ever-changing habitat. In writing about a displaced garter snake, witnessing the paving of a beloved dirt road, trapping a cricket with her young son, rescuing a fledgling raven, or the town's joy at the return of the alewife migration, Shetterly issues warnings even as she pays tribute to the resilience that abounds. Like the works of Annie Dillard and Aldo Leopold, Settled in the Wild takes a magnifying glass to the wildness that surrounds us. With keen perception and wit, Shetterly offers us an education in nature, one that should inspire us to preserve it.

All But My Life is the unforgettable story of Gerda Weissmann Klein's six-year ordeal as a victim of Nazi cruelty. From her

comfortable home in Bielitz (present-day Bielsko) in Poland to her miraculous survival and her liberation by American troops--including the man who was to become her husband--in Volary, Czechoslovakia, in 1945, Gerda takes the reader on a terrifying journey. Gerda's serene and idyllic childhood is shattered when Nazis march into Poland on September 3, 1939. Although the Weissmanns were permitted to live for a while in the basement of their home, they were eventually separated and sent to German labor camps. Over the next few years Gerda experienced the slow, inexorable stripping away of "all but her life." By the end of the war she had lost her parents, brother, home, possessions, and community; even the dear friends she made in the labor camps, with whom she had shared so many hardships, were dead. Despite her horrifying experiences, Klein conveys great strength of spirit and faith in humanity. In the darkness of the camps, Gerda and her young friends manage to create a community of friendship and love. Although stripped of the essence of life, they were able to survive the barbarity of their captors. Gerda's beautifully written story gives an invaluable message to everyone. It introduces them to last century's terrible history of devastation and prejudice, yet offers them hope that the effects of hatred can be overcome.

With the intrigue of a psychological thriller, Camus's masterpiece gives us the story of an ordinary man unwittingly drawn into a senseless murder on an Algerian beach. Behind the intrigue, Camus explores what he termed "the nakedness of man faced with the absurd" and describes the condition of reckless

alienation and spiritual exhaustion that characterized so much of twentieth-century life. First published in 1946; now in translation by Matthew Ward.

Cry the Beloved Country A&C Black

Writers of fiction have always confronted topics of crime and punishment. This age-old fascination with crime on the part of both authors and readers is not surprising, given that criminal justice touches on so many political and psychological themes essential to literature, and comes equipped with a trial process that contains its own dramatic structure. This volume explores this profound and enduring literary engagement with crime, investigation, and criminal justice. The collected essays explore three themes that connect the world of law with that of fiction. First, defining and punishing crime is one of the fundamental purposes of government, along with the protection of victims by the prevention of crime. And yet criminal punishment remains one of the most abused and terrifying forms of political power. Second, crime is intensely psychological and therefore an important subject by which a writer can develop and explore character. A third connection between criminal justice and fiction involves the inherently dramatic nature of the legal system itself, particularly the trial. Moreover, the ongoing public conversation about crime and punishment suggests that the time is ripe for collaboration between law and literature in this troubled domain. The essays in this collection span a wide array of genres, including tragic drama, science fiction, lyric poetry, autobiography, and mystery novels. The works discussed include works as old as fifth-century BCE Greek tragedy and as recent as contemporary novels, memoirs, and mystery novels. The cumulative result is arresting: there are "killer wives" and crimes against trees; a government bureaucrat who sends political adversaries to their death for treason before falling to the same fate himself; a convicted murderer who doesn't die when hanged; a psychopathological collector whose quite sane kidnapping victim nevertheless also collects; Justice Thomas' reading and misreading of *Bigger*; a man who forgives his son's murderer and one who cannot forgive his wife's non-existent adultery; fictional detectives who draw on historical analysis to solve murders. These essays begin a conversation, and they illustrate the great depth and power of crime in literature.
