Hospitality can be a blessing to both the host and her guests, but for many women today, it simply doesn't happen. Feelings of inadequacy, unrealistic expectations, fear of failure, lack of time--all conspire to steal the joy that comes from opening one's home and sharing fellowship with others. In *The Reluctant Entertainer*, Sandy Coughlin relates to people in real ways about real meals that mortals cook, during which real conversations draw people together. Would-be hostesses will discover that true hospitality is not about being perfect, cooking a fancy meal, or spending a lot of money. Rather, it's about an open door and an open heart.

The Damned (Là-bas). Joris-Karl Huysmans. *The Damned (Là-bas)* By Joris-Karl Huysmans Charles-Marie-Georges Huysmans (February 5, 1848 - May 12, 1907) was a French novelist who published his works as Joris-Karl Huysmans; he is most famous for the novel *À rebours*. His style is remarkable for its idiosyncratic use of the French language, wide-ranging vocabulary, wealth of detailed and sensuous description, and biting, satirical wit. The novels are also noteworthy for their encyclopaedic documentation, ranging from the catalogue of decadent Latin authors in *À rebours* to the discussion of the symbology of Christian architecture in *La Cathédrale*. Huysmans' work expresses a disgust with modern life and a deep pessimism, which led the author first to the philosophy of Arthur Schopenhauer then to the teachings of the Catholic Church.

Colonel Ridge Zirkander isn't the model of military professionalism—he has a tendency to say exactly what's on his mind, and his record has enough demerits to wallpaper the hull of an airship—but as the best fighter pilot in the Iskandian army, he's used to a little leniency from his superiors. Until he punches the wrong diplomat in the nose and finds himself issued new orders: take command of a remote prison mine in the inhospitable Ice Blades Mountains. Ridge has never been in charge of anything larger than a flier squadron—what's he supposed to do with a frozen fortress full of murderers and rapists? Not to mention the strange woman who shows up right before he arrives... Sardelle Terushan wakes from three hundred years in a mage stasis shelter, only to realize that she is the last of the Referatu, the sorcerers who once helped protect Iskandia from conquerors. Their subterranean mountain community was blown up in a treacherous sneak attack by soldiers who feared their power. Everyone Sardelle ever knew is dead, and the sentient soulblade she has been bonded to since her youth is buried in the core of the mountain. Further, what remains of her home has been infested by bloodthirsty miners commanded by the descendants of the very soldiers who destroyed her people. Sardelle needs help to reach her soulblade—her only link to her past and her last friend in the world. Her only hope is to pretend she's one of the prisoners while trying to gain the commander's trust. But lying isn't her specialty, especially when the world has changed so much in the intervening centuries, and if Colonel Zirkander figures out who she truly is, he'll be duty-bound to sentence her to the only acceptable punishment for sorcerers: death.

In Two Parts. ... By Thomas Nugent, LL.D. Independently Published

French has long been the donor language par excellence in the history of English. French has contributed to the English vocabulary in the form of new words since before the Norman Conquest. The French influence on the English lexicon represents the focus of linguistic concern in a considerable number of investigations of the language and its development. Yet French borrowings which have recently been adopted into English have as yet figured little if at all in such studies. The present study sets out to shed light on the French impact on English in the recent past. The results presented in this book are based on a corpus of 1677 twentieth-century French borrowings collected from the Oxford English Dictionary Online. On the basis of their meanings, the words under consideration have been assigned to different subject fields in order to give a tour d'horizon of the manifold areas and spheres of life enriched by French in recent times. The first part of the present investigation concentrates on the phonological and orthographical reception of the various borrowings. The focus of this study is on the semantic development of the French borrowings in comparison to their sources in the donor language. Emphasis has been placed upon analysing

whether a particular meaning a borrowing assumes after its first attested use is taken over from French, or whether it represents an independent semantic change within English.
