How Fangirls Created the Internet as We Know It Columbia University Press

"Destined to become a classic" (Iris Chang, author of *The Rape of Nanking*), this harrowing memoir of life inside North Korea was the first account to emerge from the notoriously secretive country -- and it remains one of the most terrifying. Amid escalating nuclear tensions, Kim Jong-un and North Korea's other leaders have kept a tight grasp on their one-party state, quashing any nascent opposition movements and sending all suspected dissidents to its brutal concentration camps for "re-education." Kang Chol-Hwan is the first survivor of one of these camps to escape and tell his story to the world, documenting the extreme conditions in these gulags and providing a personal insight into life in North Korea. Sent to the notorious labor camp Yodok when he was nine years old, Kang observed frequent public executions and endured forced labor and near-starvation rations for ten years. In 1992, he escaped to South Korea, where he found God and now advocates for human rights in North Korea. Part horror story, part historical document, part memoir, part political tract, this book brings together unassailable firsthand experience, setting one young man's personal suffering in the wider context of modern history, giving eyewitness proof to the abuses perpetrated by the North Korean regime.

Daughters of the Samurai: A Journey from East to West and Back Penguin

Shin Sang-ok (1926–2006) was arguably the most important Korean filmmaker of the postwar era. Over seven decades, he directed or produced nearly 200 films, including *A Flower in Hell* (1958) and *Pulgasari* (1985), and his career took him from late-colonial Korea to postwar South and North Korea to Hollywood. Notoriously crossing over to the North in 1978, Shin made a series of popular films under Kim Jong-il before seeking asylum in 1986 and resuming his career in South Korea and Hollywood. In *Split Screen Korea*, Steven Chung illuminates the story of postwar Korean film and popular culture through the first in-depth account in English of Shin's remarkable career. Shin's films were shaped by national division and Cold War politics, but *Split Screen Korea* finds surprising aesthetic and political continuities across not only distinct phases in modern South Korean history but also between South and North Korea. These are unveiled most dramatically in analysis of the films Shin made on opposite sides of the DMZ. Chung explains how a filmmaking sensibility rooted in the South Korean market and the global style of Hollywood could have been viable in the North. Combining close readings of a broad range of films with research on the industrial and political conditions of Korean film production, *Split Screen Korea* shows how cinematic styles, popular culture, and intellectual discourse bridged the divisions of postwar Korea, raising new questions about the implications of political partition.

This timely, pathbreaking study of North Korea's political history and culture sheds invaluable light on the country's unique leadership continuity and succession. Leading scholars Heonik Kwon and Byung-Ho Chung begin by tracing Kim Il Sung's rise to power during the Cold War. They show how his successor, his eldest son, Kim Jong Il, sponsored the production of revolutionary art to unleash a public political culture that would consolidate Kim's charismatic power and his own hereditary authority. The result was the birth of a powerful modern theater state that sustains North Korean leaders' sovereignty now to a third generation. In defiance of the instability to which so many revolutionary states eventually succumb, the durability of charismatic politics in North Korea defines its exceptional place in modern history. Kwon and Chung make an innovative contribution to comparative socialism and postsocialism as well as to the anthropology of the state. Their pioneering work is essential for all readers interested in understanding North Korea's past and future, the destiny of charismatic power in modern politics, the role of art in enabling this power.

A Former CIA Officer's Insights Into North Korea's Enigmatic Young Dictator Khu Press

The true, declassified account of CIA operative Tony Mendez's daring rescue of American hostages from Iran that inspired the critically-acclaimed film directed by and starring Ben Affleck, and co-starring John Goodman, Alan Arkin, and Bryan Cranston. On November 4, 1979, Iranian militants stormed the American embassy in Tehran and captured dozens of American hostages, sparking a 444-day ordeal and a quake in global politics still reverberating today. But there is a little-known drama connected to the crisis: six Americans escaped. And a top-level CIA officer named Antonio Mendez devised an ingenious yet incredibly risky plan to rescue them before they were detected. Disguising himself as a Hollywood producer, and supported by a cast of expert forgers, deep cover CIA operatives, foreign agents, and Hollywood special effects artists, Mendez traveled to Tehran under the guise of scouting locations for a fake science fiction film called *Argo*. While pretending to find the perfect film backdrops, Mendez and a colleague succeeded in contacting the escapees, and smuggling them out of Iran. Antonio Mendez finally details the extraordinarily complex and dangerous operation he led more than three decades ago. A riveting story of secret identities and international intrigue, *Argo* is the gripping account of the history-making collusion between Hollywood and high-stakes espionage.

An eye-opening account of life inside North Korea—a closed world of increasing global importance—hailed as a “tour de force of meticulous reporting”

(The New York Review of Books) NATIONAL BOOK AWARD FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST In this landmark addition to the literature of totalitarianism, award-winning journalist Barbara Demick follows the lives of six North Korean citizens over fifteen years—a chaotic period that saw the death of Kim Il-sung, the rise to power of his son Kim Jong-il (the father of Kim Jong-un), and a devastating famine that killed one-fifth of the population. Demick brings to life what it means to be living under the most repressive regime today—an Orwellian world that is by choice not connected to the Internet, where displays of affection are punished, informants are rewarded, and an offhand remark can send a person to the gulag for life. She takes us deep inside the country, beyond the reach of government censors, and through meticulous and sensitive reporting we see her subjects fall in love, raise families, nurture ambitions, and struggle for survival. One by one, we witness their profound, life-altering disillusionment with the government and their realization that, rather than providing them with lives of abundance, their country has betrayed them. Praise for *Nothing to Envy* “Provocative . . . offers extensive evidence of the author’s deep knowledge of this country while keeping its sights firmly on individual stories and human details.”—The New York Times “Deeply moving . . . The personal stories are related with novelistic detail.”—The Wall Street Journal “A tour de force of meticulous reporting.”—The New York Review of Books “Excellent . . . humanizes a downtrodden, long-suffering people whose individual lives, hopes and dreams are so little known abroad.”—San Francisco Chronicle “The narrow boundaries of our knowledge have expanded radically with the publication of *Nothing to Envy*. . . . Elegantly structured and written, [it] is a groundbreaking work of literary nonfiction.”—John Delury, *Slate* “At times a page-turner, at others an intimate study in totalitarian psychology.”—The Philadelphia Inquirer

Preconditions for Talking Human Rights with a Hermit Kingdom A Kim Jong-Il ProductionThe Extraordinary True Story of a Kidnapped Filmmaker, His Star Actress, and a Young Dictator's Rise to Power

Under the Loving Care of the Fatherly Leader offers in-depth portraits of North Korea's two ruthless and bizarrely Orwellian leaders, Kim Il-Sung and Kim Jong-Il. Lifting North Korea's curtain of self-imposed isolation, this book will take readers inside a society, that to a Westerner, will appear to be from another planet. Subsisting on a diet short on food grains and long on lies, North Koreans have been indoctrinated from birth to follow unquestioningly a father-son team of megalomaniacs. To North Koreans, the Kims are more than just leaders. Kim Il-Sung is the country's leading novelist, philosopher, historian, educator, designer, literary critic, architect, general, farmer, and ping-pong trainer. Radios are made so they can only be tuned to the official state frequency. "Newspapers" are filled with endless columns of Kim speeches and propaganda. And instead of Christmas, North Koreans celebrate Kim's birthday--and he presents each child a present, just like Santa. The regime that the Kim Dynasty has built remains technically at war with the United States nearly a half century after the armistice that halted actual fighting in the Korean War. This fascinating and complete history takes full advantage of a great deal of source material that has only recently become available (some from archives in Moscow and Beijing), and brings the reader up to the tensions of the current day. For as this book will explain, North Korea appears more and more to be the greatest threat among the Axis of Evil countries--with some defector testimony warning that Kim Jong-Il has enough chemical weapons to wipe out the entire population of South Korea.

A History W. W. Norton & Company

The behind-the-scenes story of the rise and reign of the world's strangest and most elusive tyrant, Kim Jong Un, by the journalist with the best connections and insights into the bizarrely dangerous world of North Korea. Since his birth in 1984, Kim Jong Un has been swaddled in myth and propaganda, from the plainly silly -- he could supposedly drive a car at the age of three -- to the grimly bloody stories of family members who perished at his command. Anna Fifield reconstructs Kim's past and present with exclusive access to sources near him and brings her unique understanding to explain the dynastic mission of the Kim family in North Korea. The archaic notion of despotic family rule matches the almost medieval hardship the country has suffered under the Kims. Few people thought that a young, untested, unhealthy, Swiss-educated basketball fanatic could hold together a country that should have fallen apart years ago. But Kim Jong Un has not just survived, he has thrived, abetted by the approval of Donald Trump and diplomacy's weirdest bromance. Skeptical yet insightful, Fifield creates a captivating portrait of the oddest and most secretive political regime in the world -- one that is isolated yet internationally relevant, bankrupt yet in possession of nuclear weapons -- and its ruler, the self-proclaimed Beloved and Respected Leader, Kim Jong Un.

Life and Politics in the Failed Stalinist Utopia Rowman & Littlefield Publishers

North Koreans could change the world. Today their country can annihilate South Korea and Japan. By 2020 their aim is to have submarine-launched missiles able to nuke the US mainland. So who are the North Koreans? What do they think and feel? Are they belligerent automatons, indoctrinated by years of propaganda, with fingers hovering over trigger buttons? Or simply ordinary men and women who have been shaped by fear or national idolisation, willing to do anything to be accepted and to survive?To answer these question, photographer Nick Danziger and author Rory MacLean, two of today's most sensitive chroniclers, travelled across the country, meeting farmers, fishermen and the captain of the national football team. They

spent a morning one hundred metres underground with a 22-year-old subway train dispatcher and afternoons at the capital's dolphinarium, a lavish entertainment complex created to convince North Koreans of their prosperity. At the Museum of the Victorious Fatherland War, as the Korean War is known in the country, they spoke to a much-decorated national hero who boasted, 'When I was eighteen years old I shot and killed 367 enemy soldiers.' From the spotless streets of Pyongyang to the pine-fringed beaches of Wonsan, along the Youth Hero Road, an all-but-deserted strategic highway built by some 50,000 conscripts out of 'patriotic duty', Danziger and MacLean create a telling portrait of both ordinary and extraordinary North Koreans, catching a glimpse of real life in the world's most secretive nation, at a turning point in its - and our - history. 'Danziger is the stuff that legends are made of.' -- Literary Review 'One of the world's top photojournalists.' -- Practical Photographer 'Rory MacLean is more than a gifted writer. He is a man whose artistry is underpinned by a powerful moral sensibility.' - Fergal Keane, BBC 'MacLean is one of the most strikingly original and talented travel writers of his generation.' - Katie Hickman

Dear Leader Macmillan

A page-turning history about the invention of the motion picture and the mysterious man behind it—detailing his life, work, disappearance, and legacy. The year is 1888 and Louis Le Prince is finally testing his “taker” or “receiver” device for his family on their front lawn. The device is meant to capture ten to twelve images per second on film, creating a reproduction of reality that can be replayed as many times as desired. In an otherwise separate and detached world, occurrences from one end of the globe could now be viewable with only a few days delay on the other side of the world. No human experience—from the most mundane to the most momentous—would need to be lost to history. In 1890, Le Prince was granted patents in four countries ahead of other inventors who were rushing to accomplish the same task. But just weeks before unveiling his invention to the world, he mysteriously disappeared and was never seen or heard from again. Three and a half years later, Thomas Edison, Le Prince’s rival, made the device public, claiming to have invented it himself. And the man who had dedicated his life to preserving memories was himself lost to history—until now. The Man Who Invented Motion Pictures pulls back the curtain and reveals the riveting story of both Louis Le Prince’s life and work, dispelling the secrets that shroud each. This captivating, impeccably researched work presents the never before told history of the motion picture and sheds light on the unsolved mystery of Le Prince’s disappearance.

****Named one of the best books of 2015 by The Economist**** Private Markets, Fashion Trends, Prison Camps, Dissenters and Defectors. North Korea is one of the most troubled societies on earth. The country's 24 million people live under a violent dictatorship led by a single family, which relentlessly pursues the development of nuclear arms, which periodically incites risky military clashes with the larger, richer, liberal South, and which forces each and every person to play a role in the "theater state" even as it pays little more than lip service to the wellbeing of the overwhelming majority. With this deeply anachronistic system eventually failed in the 1990s, it triggered a famine that decimated the countryside and obliterated the lives of many hundreds of thousands of people. However, it also changed life forever for those who survived. A lawless form of marketization came to replace the iron rice bowl of work in state companies, and the Orwellian mind control of the Korean Workers' Party was replaced for many by dreams of trade and profit. A new North Korea Society was born from the horrors of the era—one that is more susceptible to outside information than ever before with the advent of k-pop and video-carrying USB sticks. This is the North Korean society that is described in this book. In seven fascinating chapters, the authors explore what life is actually like in modern North Korea today for the ordinary "man and woman on the street." They interview experts and tap a broad variety of sources to bring a startling new insider's view of North Korean society—from members of Pyongyang's ruling families to defectors from different periods and regions, to diplomats and NGOs with years of experience in the country, to cross-border traders from neighboring China, and textual accounts appearing in English, Korean and Chinese sources. The resulting stories reveal the horror as well as the innovation and humor which abound in this fascinating country.

With a New Foreword The heartwrenching New York Times bestseller about the only known person born inside a North Korean prison camp to have escaped. North Korea’s political prison camps have existed twice as long as Stalin’s Soviet gulags and twelve times as long as the Nazi concentration camps. No one born and raised in these camps is known to have escaped. No one, that is, except Shin Dong-hyuk. In *Escape From Camp 14*, Blaine Harden unlocks the secrets of the world’s most repressive totalitarian state through the story of Shin’s shocking imprisonment and his astounding getaway. Shin knew nothing of civilized existence—he saw his mother as a competitor for food, guards raised him to be a snitch, and he witnessed the execution of his mother and brother. The late “Dear Leader” Kim Jong Il was recognized throughout the world, but his country remains sealed as his third son and chosen heir, Kim Jong Eun, consolidates power. Few foreigners are allowed in, and few North Koreans are able to leave. North Korea is hungry, bankrupt, and armed with nuclear weapons. It is also a human rights catastrophe. Between 150,000 and 200,000 people work as slaves in its political prison camps. These camps are clearly visible in satellite photographs, yet North Korea’s government denies they exist. Harden’s harrowing narrative exposes this hidden dystopia, focusing on an extraordinary young man who came of age inside the highest security prison in the highest security state. *Escape from Camp 14* offers an unequalled inside account of one of the world’s darkest nations. It is a tale of endurance and courage, survival and hope.

In his preface the author states: "The cinema is now one of the main objects on which efforts should be concentrated in order to conduct the revolution in art and literature. The cinema occupies an important place in the overall development of art and literature. As such it is a powerful ideological weapon for the revolution and construction. Therefore, concentrating efforts on the cinema, making breakthroughs and following up success in all areas of art and literature is the basic principle that we must adhere to in revolutionizing art and literature." Before becoming the world's most notorious dictator, Kim Jong-Il ran North Korea's Ministry for Propaganda and its film studios. Conceiving every movie made, he acted as producer and screenwriter. Despite this control, he was underwhelmed by the available talent and took drastic steps, ordering the kidnapping of Choi Eun-Hee (Madam Choi)—South Korea’s most famous actress—and her ex-husband Shin Sang-Ok, the country's most famous filmmaker. Madam Choi vanished first. When Shin went to Hong Kong to investigate, he was attacked and woke up wrapped in plastic sheeting aboard a ship bound for North Korea. Madam Choi lived in isolated luxury, allowed only to attend the Dear Leader's dinner parties. Shin, meanwhile, tried to escape, was sent to prison camp, and "re-educated." After four years he cracked, pledging loyalty. Reunited with Choi at the first party he attends, it is announced that the couple will remarry and act as the Dear Leader's film advisors. Together they made seven films, in the process gaining Kim Jong-Il's trust. While pretending to research a film in Vienna, they flee to the U.S. embassy and are swept to safety. A nonfiction thriller packed with tension, passion, and politics, author Paul Fischer's *A Kim Jong-Il Production* offers a rare glimpse into a secretive world, illuminating a fascinating chapter of North Korea's history that helps explain how it became the hermetically sealed, intensely stage-managed country it remains today.

Forgotten Country Broadway Books

Paek Nam-nyong’s *Friend* is a tale of marital intrigue, abuse, and divorce in North Korea. A woman in her thirties comes to a courthouse petitioning for a divorce. As the judge who hears her statement begins to investigate the case, the story unfolds into a broader consideration of love and marriage. The novel delves into its protagonists’ past, describing how the couple first fell in love and then how their marriage deteriorated over the years. It chronicles the toll their acrimony takes on their son and their careers alongside the story of the judge’s own marital troubles. A best-seller in North Korea, where Paek continues to live and write, *Friend* illuminates a side of life in the DPRK that Western readers have never before encountered. Far from being a propagandistic screed in praise of the Great Leader, *Friend* describes the lives of people who struggle with everyday problems such as marital woes and workplace conflicts. Instead of socialist-realist stock figures, Paek depicts complex characters who wrestle with universal questions of individual identity, the split between public and private selves, the unpredictability of existence, and the never-ending labor of maintaining a relationship. This groundbreaking translation of one of North Korea’s most popular writers offers English-language readers a page-turner full of psychological tension as well as a revealing portrait of a society that is typically seen as closed to the outside world.
