Should we pay children to read books or to get good grades? Should we allow corporations to pay for the right to pollute the atmosphere? Is it ethical to pay people to test risky new drugs or to donate their organs? What about hiring mercenaries to fight our wars? Auctioning admission to elite universities? Selling citizenship to immigrants willing to pay? In *What Money Can't Buy*, Michael J. Sandel takes on one of the biggest ethical questions of our time: Is there something wrong with a world in

which everything is for sale? If so, how can we prevent market values from reaching into spheres of life where they don't belong? What are the moral limits of markets? In recent decades, market values have crowded out nonmarket norms in almost every aspect of life—medicine, education, government, law, art, sports, even family life and personal relations. Without quite realizing it, Sandel argues, we have drifted from having a market economy to being a market society. Is this where we want to be? In his New York Times bestseller *Justice*, Sandel showed himself to be a master at illuminating, with clarity and verve, the hard moral questions

we confront in our everyday lives. Now, in *What Money Can't Buy*, he provokes an essential discussion that we, in our market-driven age, need to have: What is the proper role of markets in a democratic society—and how can we protect the moral and civic goods that markets don't honor and that money can't buy?

Build muscle, burn fat, and chisel your physique with 100 delicious recipes and customized bodybuilding meal plans. Ever wonder how professional bodybuilders get that herculean look? Well, you might be surprised

to know it's as much about what happens in the kitchen as it is about what happens in the gym. Professional bodybuilders fuel their bodies with specific nutrients delivered at precise intervals to achieve their sculpted physiques, and now you can too! The Bodybuilder's Kitchen provides expert guidance on what to eat and when to eat it, and helps you understand how your body uses what you eat to burn fat and build lean, strong muscle. What are you waiting for? Dive right in to discover: - 100 delicious recipes for every mealtime with key macronutrients and nutrition panels provided for every recipe - 5 custom-designed meal plans for bulking and cutting

phases, as well as plans for ketogenic dieting, calorie cycling, and carb cycling - Strategic guidance on when to eat, what to eat, and how to manage your nutrition for optimum fat-burning and muscle-building results With five weekly meal plans, 100 mouth-watering recipes, and expert insight from champion bodybuilder Erin Stern, this much-needed nutrition book will provide you with everything you need to fuel your workouts and achieve the bodybuilder physique. From salads to sides, meal prep planning to protein bars, this bodybuilding book will be your one-stop guide to bulking up! Feel like having a more chiseled physique this New Year? Whether it's a

New Year's Resolution to be more musclebound, or you're simply seeking expert guidance on fueling your body to meet your fitness needs, this all-encompassing strength-training guide may be exactly what you're looking for! Join the journey to becoming your strongest self today!

The New Handbook of Political Sociology

United Nations Publications Wall Street Women tells the story of the first generation of women to establish themselves as professionals on Wall Street. Since these women, who began their careers in the 1960s, faced blatant discrimination and barriers to advancement, they created formal and

informal associations to bolster one another's careers. In this important historical ethnography, Melissa S. Fisher draws on fieldwork, archival research, and extensive interviews with a very successful cohort of first-generation Wall Street women. She describes their professional and political associations, most notably the Financial Women's Association of New York City and the Women's Campaign Fund, a bipartisan group formed to promote the election of pro-choice women. Fisher charts the evolution of the women's careers, the growth of their political and economic clout, changes in their perspectives and the cultural climate on Wall

Street, and their experiences of the 2008 financial collapse. While most of the pioneering subjects of Wall Street Women did not participate in the women's movement as it was happening in the 1960s and 1970s, Fisher argues that they did produce a "market feminism" which aligned liberal feminist ideals about meritocracy and gender equity with the logic of the market.

Segregation by Design

Routledge

Measures to prevent vulnerable individuals from radicalizing and to rehabilitate those who have already embraced Islamist extremism have been implemented in several Middle Eastern, Southeast Asian, and European countries. This monograph

describes and assesses the strengths and weaknesses of these programs and proposes steps that can be taken to promote and accelerate deradicalization processes.

Constructive critique.

This book provides a critical, evidence-based analysis of REDD+ implementation so far, without losing sight of the urgent need to reduce forest-based emissions to prevent catastrophic climate change. REDD+ as envisioned  
An International Perspective Rand Corporation  
A new way of thinking about data science and data ethics that is informed by the ideas

of intersectional feminism. Today, data science is a form of power. It has been used to expose injustice, improve health outcomes, and topple governments. But it has also been used to discriminate, police, and surveil. This potential for good, on the one hand, and harm, on the other, makes it essential to ask: Data science by whom? Data science for whom? Data science with whose interests in mind? The narratives around big data and data science are overwhelmingly white, male, and techno-heroic. In *Data Feminism*, Catherine D'Ignazio and Lauren Klein present a new way of thinking about data science and data ethics—one that is informed by

intersectional feminist thought. Illustrating data feminism in action, D'Ignazio and Klein show how challenges to the male/female binary can help challenge other hierarchical (and empirically wrong) classification systems. They explain how, for example, an understanding of emotion can expand our ideas about effective data visualization, and how the concept of invisible labor can expose the significant human efforts required by our automated systems. And they show why the data never, ever “speak for themselves.” *Data Feminism* offers strategies for data scientists seeking to learn how feminism can help them work

toward justice, and for feminists who want to focus their efforts on the growing field of data science. But Data Feminism is about much more than gender. It is about power, about who has it and who doesn't, and about how those differentials of power can be challenged and changed.

Oculus Publishers

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the

world."—Walt Whitman, "Song of Myself," *Leaves of Grass* The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also

looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey.

Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we

confront today. Quantitative Trading  
Routledge  
International treaties, conventions, and organizations to protect refugees were established in the aftermath of World War II to protect people escaping targeted persecution by their own governments. However, the nature of cross-border displacement has transformed dramatically since then. Such threats as environmental change, food insecurity, and generalized violence force massive numbers of people to flee states that are unable or unwilling to ensure their basic rights, as do conditions in failed and fragile states that make possible human rights deprivations. Because these reasons

do not meet the legal understanding of persecution, the victims of these circumstances are not usually recognized as “refugees,” preventing current institutions from ensuring their protection. In this book, Alexander Betts develops the concept of “survival migration” to highlight the crisis in which these people find themselves. Examining flight from three of the most fragile states in Africa—Zimbabwe, the Democratic Republic of Congo, and Somalia—Betts explains variation in institutional responses across the neighboring host states. There is massive inconsistency. Some survival migrants are offered asylum as refugees; others are rounded up, detained,

and deported, often in brutal conditions. The inadequacies of the current refugee regime are a disaster for human rights and gravely threaten international security. In *Survival Migration*, Betts outlines these failings, illustrates the enormous human suffering that results, and argues strongly for an expansion of protected categories. Battle for Ground Zero Human Kinetics  
Train Like a Bodybuilder  
Get Lean. Get Big. Get Strong. Penguin  
*Transforming REDD+* Routledge  
It's the summer of 2008. For the past decade Nick and Bryony Skinner and their four children have ridden high on the economic boom, but their luck is about to

run out. Suddenly, the privileged family finds itself at the center of a financial scandal: their Central London house is besieged by the press, Nick disappears, and Bryony and the children become virtual prisoners in their own home. And Ali, their trusted nanny, watches it all. As the babysitter, she brings a unique insider-outsider perspective to the family, seeing far more than even the family itself is capable of. But when a reporter with a personal connection to the story comes asking her for the inside scoop, will Ali remain loyal to the family who never saw her as anything other than the help? Or will she tell her side? Written with Fiona Neill's delicious humor and addictive style, What

the Nanny Saw is a keenly observed, often comical chronicle of the urban wealthy elite, of parents who are often too busy to notice what is going on under their own noses, of children left to their own devices, and of a young nanny thrown into a role she doesn't know how to play. It is a morality tale of our time, a tale of betrayal, the corrosive influence of too much money, and why good people sometimes do bad things.

What Money Can't Buy

Columbia University Press

Houston A. Baker Jr. condemns those black intellectuals who, he believes, have turned their backs on the tradition of racial activism in America. These individuals choose personal gain

over the interests of the black majority, whether they are espousing neoconservative positions that distort the contours of contemporary social and political dynamics or abandoning race as an important issue in the study of American literature and culture. Most important, they do a disservice to the legacy of W. E. B. Du Bois, Martin Luther King Jr., and others who have fought for black rights. In the literature, speeches, and academic and public behavior of some black intellectuals in the past quarter century, Baker identifies a "hungry generation" eager for power, respect, and money. Baker critiques his own impoverished childhood in the "Little

Africa" section of Louisville, Kentucky, to understand the shaping of this new public figure. He also revisits classical sites of African American literary and historical criticism and critique. Baker devotes chapters to the writing and thought of such black academic superstars as Cornel West, Michael Eric Dyson, and Henry Louis Gates Jr.; Hoover Institution senior fellow Shelby Steele; Yale law professor Stephen Carter; and Manhattan Institute fellow John McWhorter. His provocative investigation into their disingenuous posturing exposes what Baker deems a tragic betrayal of King's legacy. Baker concludes with a discussion of American

myth and the role of the U.S. prison-industrial complex in the "disappearing" of blacks. Baker claims King would have criticized these black intellectuals for not persistently raising their voices against a private prison system that incarcerates so many men and women of color. To remedy this situation, Baker urges black intellectuals to forge both sacred and secular connections with local communities and rededicate themselves to social responsibility. As he sees it, the mission of the black intellectual today is not to do great things but to do specific, racially based work that is in the interest of the black majority.

**Promising Lives Cut**

**Short** Stanford University Press  
 Now, Voyager, Stella Dallas, Leaver Her to Heaven, Imitation of Life, Mildred Pierce, Gilda...these are only a few of the hundreds of “women’s films” that poured out of Hollywood during the thirties, forties, and fifties. The films were widely disparate in subject, sentiment, and technique, they nonetheless shared one dual purpose: to provide the audience (of women, primarily) with temporary liberation into a screen dream—of romance, sexuality, luxury, suffering, or even wickedness—and then send it home reminded of, reassured by, and resigned to the fact that no matter what else she might do, a woman’s most

important job was...to be a woman. Now, with boundless knowledge and infectious enthusiasm, Jeanine Basinger illuminates the various surprising and subversive ways in which women’s films delivered their message. Basinger examines dozens of films, exploring the seemingly intractable contradictions at the convoluted heart of the woman’s genre—among them, the dilemma of the strong and glamorous woman who cedes her power when she feels it threatening her personal happiness, and the self-abnegating woman whose selflessness is not always as “noble” as it appears. Basinger looks at the stars who played these women and helps us

understand the qualities—the right off-screen personae, the right on-screen attitudes, the right faces—that made them personify the woman’s film and equipped them to make believable drama or comedy out of the crackpot plots, the conflicting ideas, and the exaggerations of real behavior that characterize these movies. In each of the films the author discusses—whether melodrama, screwball comedy, musical, film noir, western, or biopic—a woman occupies the center of her particular universe. Her story—in its endless variations of rags to riches, boy meets girl, battle of the sexes, mother love, doomed romance—inevitably

sends a highly potent mixed message: Yes, you women belong in your “proper place” (that is, content with the Big Three of the women’s film world—men, marriage, and motherhood), but meanwhile, and paradoxically, see what fun, glamour, and power you can enjoy along the way. A Woman’s View deepens our understanding of the times and circumstances and attitudes out of which these movies were created.

Organization Theory and Design Tata

McGraw-Hill Education  
This open access book presents 18 case studies that explore current scientific and technological efforts to address global development issues,

such as poverty, from a holistic and interdisciplinary point of view, putting actual impacts at the centre of its analysis. It illustrates the use of technologies for development in various fields of research, such as humanitarian action, medical and information and communication technology, disaster risk-reduction technologies, habitat and sustainable access to energy. The authors discuss how innovative technologies, such as unmanned aerial vehicles for disaster risk reduction, crowdsourcing humanitarian data, online education and ICT-based medical technologies can have significant social impact. The book brings together the

best papers of the 2016 International Conference on Technologies for Development at EPFL, Switzerland. The book explores how the gap between innovation in the global South and actual social impact can be bridged. It fosters exchange between engineers, other scientists, practitioners and policy makers active at the interface of innovation and technology and human, social, and economic development.

Nutrition Support for Athletic Performance  
John Wiley & Sons  
The Routledge History of Death Since 1800  
looks at how death has been treated and dealt with in modern history - the history of the past 250 years - in a global context, through

a mix of definite, often quantifiable changes and a complex, qualitative assessment of the subject. The book is divided into three parts, with the first considering major trends in death history and identifying widespread patterns of change and continuity in the material and cultural features of death since 1800. The second part turns to specifically regional experiences, and the third offers more specialized chapters on key topics in the modern history of death. Historical findings and debates feed directly into a current and prospective assessment of death, as many societies transition into patterns of ageing that will further alter the death

experience and challenge modern reactions. Thus, a final chapter probes this topic, by way of introducing the links between historical experience and current trajectories, ensuring that the book gives the reader a framework for assessing the ongoing process, as well as an understanding of the past. Global in focus and linking death to a variety of major developments in modern global history, the volume is ideal for all those interested in the multifaceted history of how death is dealt with in different societies over time and who want access to the rich and growing historiography on the subject. Chapter 1 of this book is freely available as a downloadable Open

The New York Times bestseller from the founder of Oh She Glows "Angela Liddon knows that great cooks depend on fresh ingredients. You'll crave every recipe in

this awesome cookbook!" —Isa Chandra Moskowitz, author of *Isa Does It* "So many things I want to make! This is a book you'll want on the shelf." —Sara Forte, author of *The Sprouted Kitchen* A self-trained chef and food photographer, Angela Liddon has spent years perfecting the art of plant-based cooking, creating inventive and delicious recipes that have brought her devoted fans from all over the world. After struggling with an eating disorder for a decade, Angela vowed to change her diet — and her life — once and for all. She traded the low-calorie, processed food she'd been living on for whole, nutrient-packed vegetables, fruits, nuts, whole grains, and

more. The result? Her energy soared, she healed her relationship with food, and she got her glow back, both inside and out. Eager to share her realization that the food we put into our bodies has a huge impact on how we look and feel each day, Angela started a blog, [ohsheglows.com](http://ohsheglows.com), which is now an Internet sensation and one of the most popular vegan recipe blogs on the web. This is Angela's long-awaited debut cookbook, with a treasure trove of more than 100 mouthwatering, wholesome recipes — from revamped classics that even meat-eaters will love, to fresh and inventive dishes — all packed with flavor. The Oh She Glows Cookbook also

includes many allergy-friendly recipes — with more than 90 gluten-free recipes — and many recipes free of soy, nuts, sugar, and grains, too! Whether you are a vegan, "vegan-curious," or you simply want to eat delicious food that just happens to be healthy, too, this cookbook is a must-have for anyone who longs to eat well, feel great, and simply glow!

**100 Muscle-Building, Fat Burning Recipes, with Meal Plans to Chisel Your Physique**

Knopf

A powerful portrait of the lives of four boarding school graduates who died too young, John F. Kennedy, Jr. among them, by their fellow Andover classmate, New York Times bestselling author

William D. Cohan. In his masterful pieces for *Vanity Fair* and in his bestselling books, William D. Cohan has proven to be one of the most meticulous and intrepid journalists covering the world of Wall Street and high finance. In his utterly original new book, *Four Friends*, he brings all of his brilliant reportorial skills to a subject much closer to home: four friends of his who died young. All four attended Andover, the most elite of American boarding schools, before spinning out into very different orbits. Indelibly, using copious interviews from wives, girlfriends, colleagues, and friends, Cohan brings these men to life on the page. Jack Berman, the child of impoverished

Holocaust survivors, uses his unlikely Andover pedigree to achieve the American dream, only to be cut down in an unimaginable act of violence. Will Daniel, Harry Truman's grandson and the son of the managing editor of *The New York Times*, does everything possible to escape the burdens of a family legacy he's ultimately trapped by. Harry Bull builds the life of a careful, successful Chicago lawyer and heir to his family's fortune...before taking an inexplicable and devastating risk on a beautiful summer day. And the life and death of John F. Kennedy, Jr.—a story we think we know—is told here with surprising new details that cast it in an entirely different light.

Four Friends is an immersive, wide-ranging, tragic, and ultimately inspiring account of promising lives cut short, written with compassion, honesty, and insight. It not only captures the fragility of life but also its poignant, magisterial, and pivotal moments.

**Bodybuilding** MIT Press

The third edition of Market-Led Strategic Change builds on the massive success of the previous two editions, popular with lecturers and students alike, presenting an innovative approach to solving an old problem: making marketing happen! In his witty and direct style, Nigel Piercy has radically updated this seminal text, popular with managers, students,

and lecturers alike, to take into account the most recent developments in the field. With a central focus on customer value and creative strategic thinking, he fully evaluates the impact of electronic business on marketing and sales strategy, and stresses the goal of totally integrated marketing to deliver superior customer value. "Reality Checks" throughout the text challenge the reader to be realistic and pragmatic. The book confronts the critical issues now faced in strategic marketing: · escalating customer demands driving the imperative for superior value · totally integrated marketing to deliver customer value · the profound impact of electronic

business on customer relationships · managing processes like planning and budgeting to achieve effective implementation At once pragmatic, cutting-edge and thought-provoking,

Market-Led Strategic Change is essential reading for all managers, students and lecturers seeking a definitive guide to the demands and challenges of strategic marketing in the 21st century.
