A bold exploration and call-to-arms over the widening gap between AI, automation, and big data—and our ability to deal with its effects We are living in the first exponential age. High-tech innovations are created at dazzling speeds; technological forces we barely understand remake our homes and workplaces; centuries-old tenets of politics and economics are upturned by new technologies. It all points to a world that is getting faster at a dizzying pace. Azeem Azhar, renowned technology analyst and host of the Exponential View podcast, offers a revelatory new model for understanding how technology is evolving so fast, and why it fundamentally alters the world. He roots his analysis in the idea of an “exponential gap” in which technological developments rapidly outpace our society’s ability to catch up. Azhar shows that this divide explains many problems of our time—from political polarization to ballooning inequality to unchecked corporate power. With stunning clarity of vision, he delves into how the exponential gap is a near-inevitable consequence of the rise of AI, automation, and other exponential technologies, like renewable energy, 3D printing, and synthetic biology, which loom over the horizon. And he offers a set of policy solutions that can prevent the growing exponential gap from fragmenting, weakening, or even destroying our societies. The result is a wholly new way to think about technology, one that will transform our understanding of the economy, politics, and the future.

“Westerson creates an utterly believable history of witches, demons, and magic for her claustrophobic New England village including a heroine with enough spark, smarts, and stubbornness to keep both the bad guys and the deliciously dangerous love-interest on their toes.” —Kat Richardson, author of the Greywalker series To get a fresh start away from a bad relationship, Kylie Strange moves across the country to open a shop in a seemingly quiet town in rural Maine. During renovations on Strange Herbs & Teas, she discovers a peculiar and ancient codex, *The Booke of the Hidden*, bricked into the wall. Every small town has its legends and unusual histories, and this artifact sends Kylie right into the center of Moody Bog’s biggest secret. While puzzling over the tome’s oddly blank pages, Kylie gets an unexpected visitor—Erasmus Dark, an inscrutable stranger who claims to be a demon, knows she has the book, and warns her that she has opened a portal to the netherworld. Kylie brushes off this nonsense, until a series of bizarre murders put her, the newcomer, at the center. With the help of the demon and a coven of witches she befriends while dodging the handsome but sharp-eyed sheriff, Kylie hunts for a killer—that might not be human.

Obsessive self-promotion, an aggressive triggering response, and retaliatory rants. "Both sensitive and incisive, beautifully capturing the paradoxical dynamic of narcissism—that the grandiosity and surrounding bravado belies an underlying fragility and brittleness." —Kenneth N. Levy, PhD, Associate Professor, Penn State University; Senior Fellow, Personality Disorders Institute, Cornell University Even before Donald Trump entered America's highest office, an international survey revealed that narcissism is part of the assumed "national character" of Americans. While only a small number actually meet the criteria for Narcissistic Personality Disorder, those exploitive few have a way of gaining center stage in our culture. *Fragile Bully: Understanding Our Destructive Affair With Narcissism in the Age of Trump* looks beyond the sound bites of self-aggrandizing celebrities and selfish tweets to the real problem of narcissism. We see past the solo act to the vicious circles that arise in relationships with a fragile bully, and how patterns like this generate both power and self-destruction. We also look at the problem of Echo, how so many of us get hooked by the narcissist, and how variations on the destructive affair leave both partners dehumanized and diminished. Once we recognize the steps in each dance, we can break the cycle and allow and the possibility of true engagement.

The “engrossing, thoroughly researched look at women who are in romantic relationships with incarcerated men”—fully updated with twenty-first-century cases (Publishers Weekly). In 1991, Sheila Isenberg’s classic study *Women Who Love Men Who Kill* asked the provocative question, “Why do women fall in love with convicted murderers?” Now, Isenberg returns to the same question in the age of smart phones, social media, mass shootings, and modern prison dating. The result is a compelling psychological study of prison passion in the new millennium. Isenberg conducts extensive interviews with women who seek relationships with convicted killers, as well as conversations with psychiatrists, social workers, and prison officials. She shows that many of these women know exactly what they are getting

into—yet they are willing to sacrifice everything for the sake of a love without hope, promise, or consummation. This edition of *Women Who Love Men Who Kill* includes gripping new case studies and an absorbing look at how the digital age is revolutionizing this phenomenon. Meet the young women writing “fan fiction” featuring America’s most sadistic murderers; the killer serving consecutive life sentences for strangling his wife and smothering his toddler daughters—and the women who visit him in prison; the high-powered journalist who fell in love and risked it all for “Pharma Bro” Martin Shkreli; and many other women absorbed in online and real-life dalliances with their killer men.
