HATFIELD ADRIENNE

Social Media and the Post-Truth World Order Simon and Schuster

The emergence of new communication technologies (such as the Internet and social media networking sites and platforms) has strongly affected social movement activism. In this compelling and timely book, Victoria Carty examines these movements and their uses of digital technologies within the context of social movement theory and history. With an accessible and unique mix of theory and real-world examples, *Social Movements and New Technology* takes readers on a tour through MoveOn and Tea Party e-mail campaigns, the hacktivist tactics of Anonymous, global online protests against rapists and rape culture, and the tweets and Facebook pages that accompanied uprisings across the Arab world, Europe, and the United States. In each case study, the reader is invited to examine the movement, organization, or protest and their use of digital tools through the lens of social movement theory. Discussion questions at the end of each chapter invite critical thinking, further reflection, and debate.

Stress Tested: The Covid-19 Pandemic and Canadian National Security MIT Press

In the United States during the early 1980s, hundreds of day care providers were accused of sexually abusing their young charges in satanic rituals that included blood drinking, cannibalism, and human sacrifice. The panic surrounding the ritual abuse of children has spread quickly to Canada, Europe, and Australasia, and its rapid dispersion has been unimpeded by international investigations that found no evidence to corroborate the allegations and warned that a moral panic was thrusting them into professional public attention. This work is a sociologically based analysis of the day care ritual abuse panic in America. It introduces the concept of moral panic and analyzes its relevance to the ritual abuse scare, explores the ideological, political, economic, and professional forces that fomented the panic, discusses the McMartin Preschool case as the incident that brought attention to satanic menaces and children, and examines the dialect between the various interest groups that stirred up and spread the moral panic and the day care providers accused of ritual abuse. Also covered are the popular culture representations of day care ritual abuse, the diffusion of the scare to areas overseas, the institutionally symbolic and ideologically contradictory social ends of the panic, and the outcomes of the panic in various settings. The book ends with a discussion of moral panic theory and how it needs to be changed for a complex, multi-mediated postmodern culture, and what lessons can be learned from the scare.

Trump on the Couch Bloomsbury Publishing

"An engaging, beautifully synthesized page-turner" (Slate). The #1 New York Times bestseller and Time #1 Nonfiction Book of the Year: Hillary Rodham Clinton's most personal memoir yet, about the 2016 presidential election. In this "candid and blackly funny" (The New York Times) memoir, Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history. She takes us inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. "At her most emotionally raw" (People), Hillary describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. She tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. In this "feminist manifesto" (The New York Times), she speaks to the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. Offering a "bracing... guide to our political arena" (The Washington Post), *What Happened* lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand them to protect our values and our democracy in the future. The election of 2016 was unprecedented and historic. *What Happened* is the story of that campaign, now with a new epilogue showing how Hillary grappled with many of her worst fears coming true in the Trump Era, while finding new hope in a surge of civic activism, women running for office, and young people marching in the streets.

The Social Science of QAnon National Geographic Books

The World's Worst Conspiracies is a compilation of the most fascinating, bizarre and compelling conspiracy theories in the world today. Delving into speculation about the assassination of JFK, chemtrails, the emergence of the 'New World Order', the sinister experiments at CERN, possible cover-ups regarding Area 51 and the so-called Clinton Body Count, this collection provides an essential reference for everyone interested in learning more about the secret forces that may be controlling our world. Taking a balanced and measured approach, it explores why these theories have taken hold, and how much truth lies at their foundations. Do you believe them?

The Protocols of the Learned Elders of Zion Stanford University Press

Before AidSat I had no self, no soul. I was a billing address. A credit score. I had a TV, a computer, a phone, a car, an apartment, some furniture, and a health-club locker. Then AidSat hired me and gave me a life. And not just one life. Hundreds of them, thousands. Kent Selkirk is an operator at AidSat, an omnipresent subscriber service ready to answer, solve, and assist with the client's every problem. Through the AidSat network Kent has a wealth of information at his fingertips—information he can use to monitor subscribers' vital signs, information he can use to track their locations, information he can use to insinuate himself into their very lives.

The Storm Is Upon Us Greenhaven Publishing

How to understand a media environment in crisis, and how to make things better by approaching information ecologically. Our media environment is in crisis. Polarization is rampant. Polluted information floods social media. Even our best efforts to help clean up can backfire, sending toxins roaring across the landscape. In *You Are Here*, Whitney Phillips and Ryan Milner offer strategies for navigating increasingly treacherous information flows. Using ecological metaphors, they emphasize how our individual me is entwined within a much larger we, and how everyone fits within an ever-shifting network map.

The Paranoid Style in American Politics Random House

As the novel coronavirus (Covid-19) spread around the world, so did theories, stories, and conspiracy beliefs about it. These theories infected communities from the halls of Congress to Facebook groups, spreading quickly in newspapers, on various social media and between friends. They spurred debate about the origins, treatment options and responses to the virus, creating distrust towards public health workers and suspicion of vaccines. This book examines the most popular Covid-19 theories, connecting current conspiracy beliefs to long-standing fears and urban legends. By examining the vehicles and mechanisms of Covid-19 conspiracy, readers can better understand how theories spread and how to respond to misinformation.

The Psychology of Conspiracy Theories Princeton University Press

'Detailed and impeccably researched. Eye-opening' GUARDIAN 'Punchy and well-reported. Sommer is the perfect person to tell this story' NEW YORK TIMES

Pastels and Pedophiles Penguin

Have you been hearing a lot about the Q or QAnon movement known that is gaining worldwide recognition and are curious to know more about it, besides what you've probably heard in news commentaries? Are you looking for a comprehensive guide that will help you understand everything from what you've been hearing down to the deep information that will shock you to the core? If your answer was a YES, then keep reading... *You Are About To Step Into The World Of Conspiracy Theories And Learn How They Are Shut Down To Cover The Truth And Better Yet, Discover The Facts Of The Latest One - The QAnon Conspiracy Theory!* QAnon is a far-right conspiracy that is rapidly gaining a lot of traction, especially with its connection to the US President, Donald Trump. With out-of-this-world claims that there is a cabal of devil-worshipping pedophiles who run a worldwide sex-trafficking ring and who are plotting against President Donald Trump and much more, QAnon is, without any doubt, bold and unusual. By the virtue that you are reading this, it is quite clear that you want to know what QAnon is all about, including what the great awakening is all about and make some sense out of everything about QAnon. By now, you might be probably wondering... Who is behind the QAnon conspiracy, and what is their agenda? What are the facts, and what is fiction about this conspiracy theory? Who is the deep state? Is the conspiracy fabricated? What actions have been taken to suppress this conspiracy theory from spreading, and how has it managed to get so much traction? Who are members of the cabal from the QAnon conspiracy and does the cabal have any ties to the Illuminati? What does the QAnon have to do with the New World Order? If you have these and other related questions about QAnon, this book is for you, so keep reading, as it will give you the full insight

about the QAnon conspiracy in a well-researched and compiled manner for easy understanding. Below is a preview of what you are going to learn in this book: What is QAnon, how it began, and how they are spreading What the QAnon conspiracy entails and how the creators acquired the information to back the theory Some of the conspiracy theories in history that actually turned out to be true What the great awakening entails The connection between religion and the new awakening Being human and how it all interconnected And much more... You know that a storm is coming, and it won't be too long before the world wakes up to this. It's better to be armed with the facts and know where to lean when it all comes crumbling down. The unique conspiracy group called QAnon is growing in both membership and political power, and understanding this phenomenon is key to combating QAnon's negative effects on society. This book uses social science theory to explain the attraction and spread of the defining conspiracy movement of our times.

The World's Worst Conspiracies Routledge

Why has punditry lately overtaken news? Why do lies seem to linger so long in the cultural subconscious even after they've been thoroughly discredited? And why, when more people than ever before are documenting the truth with laptops and digital cameras, does fact-free spin and propaganda seem to work so well? *True Enough* explores leading controversies of national politics, foreign affairs, science, and business, explaining how Americans have begun to organize themselves into echo chambers that harbor diametrically different facts—not merely opinions—from those of the larger culture.

The Masters of Atlantis Hardie Grant Publishing

How 4chan and 8chan fuel white nationalism, inspire violence, and infect politics. The internet has transformed the ways we think and act, and by consequence, our politics. The most impactful recent political movements on the far left and right started with massive online collectives of teenagers. Strangely, both movements began on the same website: an anime imageboard called 4chan.org. It Came from Something Awful is the fascinating and bizarre story of sites like 4chan and 8chan and their profound effect on youth counterculture. Dale Beran has observed the anonymous messageboard community's shifting activities and interests since the beginning. Sites like 4chan and 8chan are microcosms of the internet itself—simultaneously at the vanguard of contemporary culture, politics, comedy and language, and a new low for all of the above. They were the original meme machines, mostly frequented by socially awkward and disenfranchised young men in search of a place to be alone together. During the recession of the late 2000's, the memes became political. 4chan was the online hub of a leftist hacker collective known as Anonymous and a prominent supporter of the Occupy Wall Street movement. But within a few short years, the site's ideology spun on its axis; it became the birthplace and breeding ground of the alt-right. In *It Came from Something Awful*, Beran uses his insider's knowledge and natural storytelling ability to chronicle 4chan's strange journey from creating rage-comics to inciting riots to—according to some—memeing Donald Trump into the White House.

QAnon and On HarperCollins UK

"A great public service—critical for our time." --Bandy X. Lee, M.D., M.Div., Yale psychiatrist, expert on violence, and editor of *The Dangerous Case of Donald Trump* The New York Times-bestselling author of *Bush on the Couch* shows that Donald Trump is mentally and emotionally unfit to execute the duties of President. No president in the history of the United States has inspired more alarm and confusion than Donald Trump. As questions and concerns about his decisions, behavior, and qualifications for office have multiplied, they point to one primary question: Does he pose a genuine threat to our country? The American Psychiatric Association's Goldwater Rule constrains psychiatrists from offering diagnoses on public figures who are not patients and who have not endorsed such statements. But in *Trump on the Couch* Clinical Professor of Psychiatry Justin A. Frank invokes the moral responsibility that compels him to speak out and present a full portrait of a man who presents us with a clear and present danger. Using observations gained from a close study of Trump's patterns of thought, action, and communication, Dr. Frank uncovers a personality riddled with mental health issues. His analysis is filled with important revelations about our nation's leader, including disturbing insights into his childhood, his family, his business dealings, and his unusual relationship with alternative facts, including how The absence of a strong maternal

force during childhood has led to Trump's remarkable lack of empathy and disregard for women's boundaries; His compulsion to polarize America has grown out of the way he perceives the world as full of deceitful and destructive persecutors; His inability to tolerate the pain of frustration has triggered his belief that omnipotence will finally remove it; His idiosyncratic use of language points to larger issues than even his tweets might suggest. With our country itself at stake, Dr. Frank calls attention to the underlying narcissism, misogyny, deception, and racism that drive the President who endangers it. A penetrating examination of how we as a nation got here and, more important, where we are going, Trump on the Couch sounds a call to action that we cannot ignore.

The Day Care Ritual Abuse Moral Panic Oxford University Press
"Q" appeared in the Fall 2017 as Socratic dialogue, intended to raise the consciousness of not only America, but also the World. Donald J. Trump campaigned, and won, the US Presidency on a promise "to drain the Swamp." Less than a year into his Presidency, very much opposed by the "Deep State", "Q" postings, resembling military code appeared on 4chan, then 8chan, then on qanonpost. These "crumbs" started to attract the attention of the Public, and they ascertained that "Q" was a part of Trump's entourage. In retrospect, many of the posts were predictive, and "Q" said "future proves past." Some of the posts correlated with the President's Tweets. It was said that "Q ANON" resembled the Common Sense pamphlets of Thomas Paine in the First American Revolution. Many Patriots participated and, as an astrologer, I wanted to analyze their characteristics. See you in the Rabbit Hole!

Q ANON: the Reluctant Warrior Dhayes Media

"Anthology of curated essays addressing QAnon and conspiracy theories--why they begin, how they catch fire, and how they affect politics and society"--

The Pursuit of the Millennium HarperCollins

How the new conspiracists are undermining democracy—and what can be done about it Conspiracy theories are as old as politics. But conspiracists today have introduced something new—conspiracy without theory. And the new conspiracism has moved from the fringes to the heart of government with the election of Donald Trump. In *A Lot of People Are Saying*, Russell Muirhead and Nancy Rosenblum show how the new conspiracism differs from classic conspiracy theory, how it undermines democracy, and what needs to be done to resist it.

Qanon And The Great Awakening University of Calgary Press
Lamar Jimmerson is the leader of the Gnomon Society, the international fraternal order dedicated to preserving the arcane wisdom of the lost city of Atlantis. Stationed in France in 1917, Jimmerson comes across a little book crammed with Atlantean puzzles, Egyptian riddles, and extended alchemical metaphors. It's the Codex Pappus - the sacred Gnomon text. Soon he is basking in the lore of lost Atlantis, convinced that his mission on earth is to administer to and extend the ranks of the noble brotherhood.

Pure Invention Oxford University Press, USA

This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as "Free Silver and the Mind of 'Coin' Harvey" and "What Happened to the Antitrust Movement?", *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

Q Springer Nature

The end of the millennium has always held the world in fear of earthquakes, plague, and the catastrophic destruction of the world. At the dawn of the 21st millennium the world is still experiencing these anxieties, as seen by the onslaught of fantasies of renewal, doomsday predictions, and New Age prophecies. This fascinating book explores the millenarianism that flourished in western Europe between the eleventh and sixteenth centuries. Covering the full range of revolutionary and anarchic sects and movements in medieval Europe, Cohn demonstrates how prophecies of a final struggle between the hosts of Christ and Antichrist melded with the rootless poor's desire to improve their own material conditions, resulting in a flourishing of millenarian fantasies. The only overall study of medieval millenarian movements, *The Pursuit of the Millennium* offers an excellent interpretation of how, again and again, in situations of anxiety and unrest, traditional beliefs come to serve as vehicles for social

aspirations and animosities.

Calm Before The Storm Cambridge University Press

"I hope everyone reads this book. It has become such a crucial thing for all of us to understand." —Erin Burnett, CNN "An ideal tour guide for your journey into the depths of the rabbit hole that is QAnon. It even shows you a glimmer of light at the exit."
—Cullen Hoback, director of HBO's *Q: Into the Storm* Its messaging can seem cryptic, even nonsensical, yet for tens of thousands of people, it explains everything: What is QAnon, where did it come from, and is the Capitol insurgency a sign of where it's going next? On October 5th, 2017, President Trump made a cryptic remark in the State Dining Room at a gathering of military officials. He said it felt like "the calm before the storm"—then refused to elaborate as puzzled journalists asked him to explain. But on the infamous message boards of 4chan, a mysterious poster going by "Q Clearance Patriot," who claimed to be in "military intelligence," began the elaboration on their own. In the days that followed, Q's wild yarn explaining Trump's remarks began to rival the sinister intricacies of a Tom Clancy novel, while satisfying the deepest desires of MAGA-America. But did any of what Q predicted come to pass? No. Did that stop people from clinging to every word they were reading, expanding its mythology, and promoting it wider and wider? No. Why not? Who were these rapt listeners? How do they reconcile their worldview with the America they see around them? Why do their numbers keep growing? Mike Rothschild, a journalist specializing in conspiracy theories, has been collecting their stories for years, and through interviews with QAnon converts, apostates, and victims, as well as psychologists, sociologists, and academics, he is uniquely equipped to explain the movement and its followers. In *The Storm Is Upon Us*, he takes readers from the background conspiracies and cults that fed the Q phenomenon, to its embrace by right-wing media and Donald Trump, through the rending of families as loved ones became addicted to Q's increasingly violent rhetoric, to the storming of the Capitol, and on. And as the phenomenon shows no sign of calming despite Trump's loss of the presidency—with everyone from Baby Boomers to Millennial moms proving susceptible to its messaging—and politicians starting to openly espouse its ideology, Rothschild makes a compelling case that mocking the seeming madness of QAnon will get us nowhere. Rather, his impassioned reportage makes clear it's time to figure out what QAnon really is — because QAnon and its relentlessly dark theory of everything isn't done yet.
