Cornwall's coastal path gives access to many of Britain's finest marine landscapes, and a great many of the walks in this guide utilise sections of the path, which is maintained to a high standard. Two walks, starting at Polkerris and Little Petherick respectively, follow parts of the Saints' Way, which crosses Cornwall from coast to coast on a route pioneered by the early Christian missionaries. Other routes take in the ever-popular Land's End, romantic Prussia Cove (an old smugglers' haunt), and Bodmin Moor, a landscape that has altered little since the Iron Age, nearly 3,000 years ago.

Scooterboys are the lost tribe of British youth culture. Unrecognised, uncelebrated and unwanted; misunderstood by a general public who mistook us for Mods. We weren't Mods though. By the 1980s myself and tens of thousands of scooter riders collectively rejected that label. Instead, we took the roadmap of British youth disaffection and carved a new bypass. This route took us beyond the UK's faded seaside resorts, allowing us to spread our creed across the continents. Tuned and customised Vespa and Lambretta scooters gave us freedom to roam; transport to live for the weekend. Shared experiences of riots, local hostility and police harassment built strong fraternal bonds that endure to this day. Despite decades of two-wheeled rebellion our threat level was never high enough to put us on the national security radar. This low profile has its benefits. We aren't doomed to follow the same cycle as Mods. First feared, then pilloried, accepted and finally adopted as part of UK's rich culture. As British as a vindaloo. The cult of Scooterboy has escaped death-by-public-acceptance, simply by remaining too underground. Too difficult to distinguish from what came before. And that's just perfect. You'll never see Scooterboys parodied in TV insurance adverts or low budget fly-on-the-walls. The poorly-rendered caricature is always some cliché Mod on a 'Christmas Tree' scooter. If you rode to rallies in the 80s and 90s then this book will mirror your experiences. If you've never had a scooter then it offers a rare glimpse of life inside the lost tribe of two-stroke terrorists.

When monsters appear on Earth, Maggie MacKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except Maggie's dad, who vanished in the middle of an assignment. Now, an elf named Killian has shown up with a gig. Seems Maggie's uncle teamed up with the forces of dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. Ah, family... The only hope for survival lies in tracking down two magical artifacts and a secret that disappeared with Maggie's dad. WARNING: This book contains cussing, brawling, and unladylike behavior. Proceed with caution.

Dave Richardson bought his first motorcycle at 14. He wasn't much of a racer but wanted motorcycles to be his life. After a few odd jobs, he became a partner in newly-forming Moto International, and in no time, was thrust into running it. "It's a motorcycle shop. How hard can it be?" How hard indeed? Dave thought the hard part would be attracting customers. He never dreamed of the unexpected challenges. In these pages, the author of Guzziology tells the surprising story of dealing with banks, motorcycle manufacturers and distributors, defense contractors, finance companies, the public, and the EPA. He tells of fixing problems ignored by manufacturers, advocating for improvements in bikes, and trying to get distributors to fix customer's bikes. His career in motorcycle shops spanned 34 years, representing at various times Aprilia, Cagiva, Ducati, Husqvarna, Hyosung, KTM, Laverda, MuZ, and Ural. But always, Moto Guzzi.

For his eighth birthday, Emilio Scotto received a World Atlas. Promptly he announced his plan to make a route that would pass through all the countries of the world, a route he named BLUE ROAD ONE. When, some years later, he found himself astride a black 1100 Honda Gold Wing motorcycle, Blue Road One beckoned, and Scotto set off on a journey that would last more than a decade, take him virtually everywhere in the world, and land him in the Guinness Book of World Records. This is his story, a thrill ride that begins in his native Argentina, crosses Panama in the tumultuous time of Noriega, Mexico in the midst of an earthquake, and finds him broke in L.A. where, in a chance meeting, Muhammad Ali gives him fifty dollars and a signed book. Breaching the Iron Curtain, crossing the Berlin Wall at Checkpoint Charlie, being blessed by the Pope, set upon by cannibals in Sierra Leone, fleeing Somalia on a freighter, Scotto's adventures would be unbelievable if they weren't true. His tale of touring the world from Tunisia to Turkey, Petra to Afghanistan, Yugoslavia to Singapore, traveling miles enough to take him to the moon and back, is unlike any ever told. Come along, for the ride of a lifetime.

Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

"This is a starry love story, a tale of seething jealousies and subterfuge, a political imbroglio, and religious cruelties. It sounds like Shakespeare and it could have very well been the plot of one of his plays." --Toronto Star In 1494, award-winning author Stephen R. Bown tells the untold story of the explosive feud between monarchs, clergy, and explorers that split the globe between Spain and Portugal and made the world's oceans a battleground. When Columbus triumphantly returned from America to Spain in 1493, his discoveries inflamed an already-smouldering conflict between Spain's renowned monarchs, Ferdinand and Isabella, and Portugal's João II. Which nation was to control the world's oceans? To quell the argument, Pope Alexander VI—the notorious Rodrigo Borgia—issued a proclamation laying the foundation for the Treaty of Tordesillas of 1494, an edict that created an imaginary line in the Atlantic Ocean dividing the entire known (and unknown) world between Spain and Portugal. Just as the world's oceans were about to be opened by Columbus's epochal voyage, the treaty sought to limit the seas to these two favored Catholic nations. The edict was to have a profound influence on world history: it propelled Spain and Portugal to superpower status, steered many other European nations on a collision course, and became the central grievance in two centuries of international espionage, piracy, and warfare. The treaty also began the fight for "the freedom of the seas"—the epic struggle to determine whether the world's oceans, and thus global commerce, would be controlled by the decree of an autocrat or be open to the ships of any nation—a distinctly modern notion, championed in the early seventeenth century by the Dutch legal theorist Hugo Grotius, whose arguments became the foundation of international law. At the heart of one of the greatest international diplomatic and political agreements of the last five centuries were the strained relationships and passions of a handful of powerful individuals. They were linked by a shared history, mutual animosity, and personal obligations—quarrels, rivalries, and hatreds that dated back decades. Yet the struggle ultimately stemmed from a young woman's determination to defy tradition and the king, and to choose her own husband.

An in-depth exploration of the effects of different steels, heat treatments, and edge geometries on knife performance. This book provides ratings for toughness, edge retention, and corrosion resistance for all of the popular knife steels. Micrographs of over 50 steels. Specific recommended heat treatments for each steel. And answers to questions like: 1) Does a thinner or thicker edge last longer? 2) What heat treatment leads to the best performance? 3) Are there performance benefits to forging blades? 4) Should I use stainless or carbon steel? All of these questions and more are answered by a metallurgist who grew up around the knife industry.

Dusk features some of the most masculine, perfectly and naturally built, handsome and sensual naked men within a stunning array of hauntingly beautiful and raw outback settings. Paul Freeman has established himself at the pinnacle of his craft, not only as a photographer, but as a visual poet and artist eulogizing as he captures the spirit of the rugged yet sensitive Australian male in all his physical glory. His genius is to find the right men to photograph and then tell an enthralling story with his vision from behind the camera. From the quality of the compositions and the lighting through to the texture of the outback locations, these are some of the most perfectly executed and delightful photographs in any collection, and set a tone of sophistication so rarely achieved in books of the male nude.

To commemorate the 150th Anniversary of the end of the Civil War, Diversion Books is publishing seminal works of the era: stories told by the men and women who led, who fought, and who lived in an America that had come apart at the seams. The events leading up to the Civil War reveal a country divided by more than just a belief in, or revulsion of, slavery. It reveals a country still forming, even as it fissures and breaks apart. It reveals an industrial north and an agricultural south evolving into enemies even as they mutually benefit one another. It reveals politicians playing to their bases, riling up young men especially to take up arms against their fellow countrymen. This astonishing historical work chronicles all this and more, exploring the fractious ideologies and the most important figures who led the country into its bloodiest conflict.

Ever wish you had a road map to follow to your God-given destiny? The Calling Journey is just such a map, revealing the common stages and transitions leaders go through on the pathway to their call. As you read what successful leaders from all walks of life experienced on the destiny road, you'll gain an amazing perspective on how God is leveraging everything in your own story to make his dream for you come true. Along the way, you'll learn how to identify key stages in your own journey and build a personal calling timeline. When you discover what God's agenda is for each stage, you can lean into what he is doing in you instead of fighting the process. Developed by a master leadership coach, the timeline model emerged from comparing the life stories of biblical characters to those of contemporary leaders. Through hundreds of coaching encounters, plus extensive interviews with Christian leaders in business, ministry, politics and other spheres, Tony discovered that God takes each of us through predictable stages of upward growth separated by "valleys" of adversity and inner formation. While we tend to view the difficult times in the valleys as failures or detours, Tony shows how they form a vital part of God's strategy for leadership development. Just as Joseph's repeated betrayal and elevation birthed the life message that is his greatest legacy ("You meant it for evil, but God meant it for good"), The Calling Journey shows how the Great Redeemer transforms times of heartache into the seedbed of a world-changing life. The Calling Journey depicts four stages and three valleys on an easy-to-understand graphical timeline. Dozens of personal stories (along with tales of historical and biblical travelers) bring the journey to life. Coupled with an innovative understanding of call as the unique way Jesus is incarnated in us by our story, this in-depth look at the purpose of life reveals how God truly is good all the time.

Check any poll of the best cities in North America and you'll see Vancouver near the top of the list. The only places that beat it are Victoria and, sometimes, San Francisco. The biggest city in BC, Vancouver is famed for letting its residents go from working in a high-rise office buildings all day to paddling kayaks, skiing, mountain biking or pretty much any other outdoor activity before sunset. The city is the art and culture capital of the province, as well. There's plenty of theater, good museums and, during the annual Film Festival, you see people lined up around the block waiting to

get into flicks you've never heard of. There's live music somewhere every night of the week, plus all the advantages of a university town. Then there's the wild. Stanley Park is one of the biggest municipal parks anywhere. Get off a trail here and you'll forget that you're in the middle of a city of more than two million residents. Twenty minutes from downtown can put you in the deep forest. Vancouver is also Canada's melting pot. When Hong Kong emptied out before the Communists took over, about half the people who fled ended up here. There are huge sections where almost nobody speaks English; a recent survey determined that 50% of people in lower mainland - Vancouver and environs - were born outside Canada. But it's not just the Chinese influence. Walk down Commercial Drive, and within a block you'll have a choice of restaurants serving ethnic cuisine from Ethiopia, Costa Rica, Thailand and Jamaica. And that's just the start. There's a little something for everybody here and this is the most detailed guide you will find to the city and its surroundings.
