This book provides the state-of-the-art intelligent methods and techniques for solving real-world problems along with a vision of the future research. The fifth 2020 Future Technologies Conference was organized virtually and received a total of 590 submissions from academic pioneering researchers, scientists, industrial engineers, and students from all over the world. The submitted papers covered a wide range of important topics including but not limited to computing, electronics, artificial intelligence, robotics, security and communications and their applications to the real world. After a double-blind peer review process, 210 submissions (including 6 poster papers) have been selected to be included in these proceedings. One of the meaningful and valuable dimensions of this conference is the way it brings together a large group of technology geniuses in one venue to not only present breakthrough research in future technologies, but also to promote discussions and debate of relevant issues, challenges, opportunities and research findings. The authors hope that readers find the book interesting, exciting and inspiring

In the nineteenth century, Bengal witnessed an extraordinary intellectual flowering. Bengali prose emerged, and with it the novel and modern blank verse; old arguments about religion, society, and the lives of women were overturned; great schools and colleges were created; new ideas surfaced in science. And all these changes were led by a handful of remarkable men and women. For the first time comes a gripping narrative about the Bengal Renaissance recounted through the lives of all its players from Rammohun Roy to Rabindranath Tagore. Immaculately researched, told with colour, drama, and passion, Awakening is a stunning achievement.

In today's world of unequal globalization, Bangladesh has drawn international attention for the spate of factory disasters that have taken the lives of numerous garment workers, mostly young women. The contemporary garment industry—and the labor organizing pushing back—draws on a long history of gendered labor division and exploitation in East Bengal, the historical antecedent of Bangladesh. Yet despite the centrality of women's labor to anticolonial protest and postcolonial state-building, historiography has struggled with what appears to be its absence

from the archive. Poulomi Saha offers an innovative account of women's political labor in East Bengal over more than a century, one that suggests new ways to think about textiles and the gendered labors of their making. An Empire of Touch argues that women have articulated—in writing, in political action, in stitching—their own desires in their own terms. They produce narratives beyond women's empowerment and independence as global and national projects; they refuse critical pronouncements of their own subjugation. Saha follows the historical traces of how women have claimed their own labor, contending that their political commitments are captured in the material objects of their manufacture. Her analysis of the production of historical memory through and by the bodies of women spans British colonialism and American empire, anticolonial nationalism to neoliberal globalization, depicting East Bengal between development economics and postcolonial studies. Through a material account of text and textile, An Empire of Touch crafts a new narrative of gendered political labor under empire.

Polymath Rabindranath Tagore was the first non-European to be awarded the Nobel Prize for Literature in 1913. But Tagore was much more than a writer. Through his poems, novels, short stories, poetic songs, dance-dramas, and paintings, he transformed Bengali literature and Indian art. He was instrumental in bringing Indian culture to the West and vice versa, and he strove to create a less divided society through mutual respect and understanding, following the example of his great contemporary and close friend, Mahatma Gandhi. In this timely reappraisal of Tagore's life and work, Bashabi Fraser assesses Tagore's many activities and shows how he embodies the modern consciousness of India. She examines his upbringing in Bengal, his role in Indian politics, and his interests in international relationships. Taking a holistic perspective, she also addresses some of the misreadings of his extraordinary life and work.

Bangla is spoken as the majority language in Bangladesh and the state of West Bengal in India, and as a minority language in several other Indian states. With almost 200 million native speakers, it ranks among the top ten languages in the world in number of speakers. Based on both primary and secondary materials, the CASL Bangla grammar provides comprehensive coverage of the phonology, orthography, morphology, and syntax of Bangla. Plentiful examples of naturally-occurring sentences provide native orthography, Romanization, and morpheme-by-morpheme glossing along with free translations. Unlike many Romanizations of Bangla, our system eschews Sanskritic influence and instead reflects actual Bangla phonology. We also offer comparative information of use to linguists, highlighting features of Bangla shared with the South Asian sprachbund, such as light verb constructions, as well as those that differentiate Bangla from its Indo-Aryan relatives; for example, its unique NP structure. Written in an accessible style from a theory-neutral perspective, this work will be of use to linguistic researchers, language scholars, and students of Bangla. A formal grammar focusing on the morphology is an available companion work.

Banglapedia On various subjects pertaining to Bangladesh. M., the Apostle & the Evangelist - Volume 13

Swami Nityatmananda lived in the company of Sri M. for a long time, maintained a diary and elaborated it in sixteen parts of Sri Ma Darshan. The book is also available in English under the title 'M., the Apostle & the Evangelist.' All the sixteen parts are available in Bengali too. It is a continuation of the Kathamrita. This work is the result of twenty years of hard and incessant work and tapasya, on the banks of the Ganga in Rishikesh, in the Himalayas. In this series of 16 volumes the reader is brought in close touch with the life and teachings of Sri Ramakrishna family: Thakur, Swamiji, Holy Mother, M., Swami Shivananda, Swami Abhedananda and others. And there is the elucidation according to Sri Ramakrishna's line of thought, of the Upanishads, the Gita, the Bible, Guru Granth Sahib, the Holy Quran and other scriptures. The third specialty of this work is the commentary on the Gospel of Sri Ramakrishna by the author himself. Says Swami Shradhdhananda, "One wonders at the unusual capacity of Swami Nityatmananda in recording these day to day conversations of this Vyasadeva of our time - M. - and later developing his notes into his masterly work. One cannot fail to discover the special training he received from Sri M. himself in this direction while he was serving as a teacher in M.'s school and living with him for years." When he read it, Swami Jagadananda remarked, "The author has presented M.'s words lifelike. After reading his Kathamrita, a study of this book will throw new light on the Kathamrita. There is no doubt about it." The great American and senior sadhu, Swami Atulananda, wrote, "This book may serve a double purpose. To those who are acquainted with M.'s Kathamrita, it may be welcome as a companion volume, and to those not yet acquainted with the Kathamrita, it may arouse a desire to make that acquaintance. For this book, which is a record of M.'s talks with his admirers about his reminiscences, not only reveals new facts about the life of Sri Ramakrishna, but throws new light on that wonderful life." Swami Virajananda, the late President of Sri Ramakrishna Math and Mission, heard the manuscript read to him by his Secretary when he visited Dehradun for the last time, and he was delighted to hear it. He told to the author, "What a wonderful thing you have written! Why didn't you show it to me earlier? Never mind, now go and finish the writing. Human life is so uncertain. If you complete the writing itself, publication can be taken up by others... Ah! The move is as dramatic as the subject is sublime...'

In the foreword to the first edition Geoffrey Moorhouse wrote: 'In a sense, the story of Calcutta is the story of India . . . It is the story of how and why Empire was created and what happened when Empire finished . . . The imperial residue of Calcutta, a generation after Empire ended, is both a monstrous and a marvellous city. Journalism and television have given us a rough idea of the monstrosities but none at all of the marvels. I can only hope to define the first more clearly and to persuade anyone interested that the second is to be found there too'. Geoffrey Moorhouse succeeds triumphantly in his aims. First published in 1971 this title has stood the test of time. Remarkably it was the first full-length study of Calcutta, seat of the British Raj, since 1918. 'The book is organized out of a profound understanding of the true issues and is brilliantly executed.' Paul Scott, Guardian
