The summer of '28 was a vintage season for a growing boy. A summer of green apple trees, mowed lawns, and new sneakers. Of half-burnt firecrackers, of gathering dandelions, of Grandma's belly-busting dinner. It was a summer of sorrows and marvels and gold-fuzzed bees. A magical, timeless summer in the life of a twelve-year-old boy named Douglas Spaulding—remembered forever by the incomparable Ray Bradbury. The only god living in Green Town, Illinois, that Douglas Spaulding knew of. The facts about John Huff, aged twelve, are simple and soon stated. • He could pathfind more trails than any Choctaw or Cherokee since time began. • Could leap from the sky like a chimpanzee from a vine. • Could live underwater two minutes and slide fifty yards downstream. • Could hit baseballs into apple trees, knocking down harvests. • Could jump six-foot orchard walls. • Ran laughing. • Sat easy. • Was not a bully. • Was kind. • Knew the words to all the cowboy songs and would teach you if you asked. • Knew the names of all the wild flowers and when the moon would rise or set and when the tides came in or out. He was, in fact, the only god living in the whole of Green Town, Illinois, during the twentieth century that Douglas Spaulding knew of. "[Ray] Bradbury is an authentic original."—Time

### Wise Thoughts for Every Day e-artnow

The #1 New York Times bestseller that has all America talking—with a new afterword on expanding your range—as seen on CNN's Fareed Zakaria GPS, Morning Joe, CBS This Morning, and more. "The most important business—and parenting—book of the year." —Forbes "Urgent and important. . . an essential read for bosses, parents, coaches, and anyone who cares about improving performance." —Daniel H. Pink Shortlisted for the Financial Times/McKinsey Business Book of the Year Award Plenty of experts argue that anyone who wants to develop a skill, play an instrument, or lead their field should start early, focus intensely, and rack up as many hours of deliberate practice as possible. If you dabble or delay, you'll never catch up to the people who got a head start. But a closer look at research on the world's top performers, from professional athletes to Nobel laureates, shows that early specialization is the exception, not the rule. David Epstein examined the world's most successful athletes, artists, musicians, inventors, forecasters and scientists. He discovered that in most fields—especially those that are complex and unpredictable—generalists, not specialists, are primed to excel. Generalists often find their path late, and they juggle many interests rather than focusing on one. They're also more creative, more agile, and able to make connections their more specialized peers can't see. Provocative, rigorous, and engrossing, *Range* makes a compelling case for actively cultivating inefficiency. Failing a test is the best way to learn. Frequent quitters end up with the most fulfilling careers. The most impactful inventors cross domains rather than deepening their knowledge in a single area. As experts silo themselves further while computers master more of the skills once reserved for highly focused humans, people who think broadly and embrace diverse experiences and perspectives will increasingly thrive.

### Things Fall Apart John Wiley & Sons

Winner of the 2015 Book Prize for the Promotion of Social and Personality Science (Society for Personality and Social Psychology) Why are we sometimes blind to the minds of others, treating them like objects or animals instead? Why do we talk to our cars, or the stars, as if there is a mind that can hear us? Why do we so routinely believe that others think, feel, and want what we do when, in fact, they do not? And why do we think we understand our spouses, family, and friends so much better than we actually do? In this illuminating book, leading social psychologist Nicholas Epley introduces us to what scientists have learned about our ability to understand the most complicated puzzle on the planet—other people—and the surprising mistakes we so routinely make. *Mindwise* will not turn others into open books, but it will give you the wisdom to revolutionize how you think about them—and yourself.

### The Circus of Dr. Lao Simon and Schuster

During the last years of his life, Leo Tolstoy kept one book invariably on his desk, read and reread it to his family, and recommended it to all his friends: a compendium of wise thoughts gathered over the course of a decade from his wide-ranging readings in philosophy and religion, and from his own spiritual meditations. It was banned under the Communists, and only one volume, *A Calendar of Wisdom*, drawn largely from the writings of other famous thinkers, has been published before in English. *Wise Thoughts For Every Day* is the volume comprising Tolstoy's own most essential ideas about spirituality and what it is to live a good life. Designed by Tolstoy to be a cycle of daily readings, this book offers thoughts and aphorisms for every day according to a succession of themes repeated each month—such as God, the soul, desire, our passions, humility, inequality, evil, truth, happiness, prayer, and the blessings of love. At once challenging, comforting, and inspiring, this is a spiritual treasure trove and a book of great human warmth.

A New York Times Bestseller From #1 New York Times bestselling author Julia Quinn comes the story of Francesca Bridgerton, in the sixth of her beloved Regency-set novels featuring the charming, powerful Bridgerton family, now a series created by Shondaland for Netflix. FRANCESCA'S STORY In every life there is a turning point. A moment so tremendous, so sharp and breathtaking, that one knows one's life will never be the same. For Michael Stirling, London's most infamous rake, that moment came the first time he laid eyes on Francesca Bridgerton. After a lifetime of chasing women, of smiling slyly as they chased him, of allowing himself to be caught but never permitting his heart to become engaged, he took one look at Francesca Bridgerton and fell so fast and hard into love it was a wonder he managed to remain standing. Unfortunately for Michael, however, Francesca's surname was to remain Bridgerton for only a mere thirty-six hours longer—the occasion of their meeting was, lamentably, a supper celebrating her imminent wedding to his cousin. But that was then . . . Now Michael is the earl and Francesca is free, but still she thinks of him as nothing other than her dear friend and confidant. Michael dares not speak to her of his love . . . until one dangerous night, when she steps innocently into his arms, and passion proves

stronger than even the most wicked of secrets . . .

*The Problem of Pain* is a book concerned, to one degree or another, with refuting popular objections to Christianity, such as the question, "How could a good God allow pain to exist in the world?" The book addresses an important aspect of theodicy, an attempt by one Christian layman to reconcile orthodox Christian belief in a just, loving and omnipotent God with pain and suffering. Some have felt that it is useful to read it together with *A Grief Observed*, Lewis' reflections on his own experiences of grief and anguish upon the death of his wife. In addition to dealing with human pain, however, the book also contains a chapter entitled "Animal Pain," demonstrating not only the fact that Lewis cast his net wider than human suffering, but also a reflection on a lifelong love of animals. Clive Staples Lewis (1898-1963) was a British novelist, poet, academic, medievalist, lay theologian and Christian apologist. He is best known for his fictional work, especially *The Screwtape Letters*, *The Chronicles of Narnia*, and *The Space Trilogy*, and for his non-fiction Christian apologetics, such as *Mere Christianity*, *Miracles*, and *The Problem of Pain*.

Soon to be a major motion picture from Academy Award-winning director Guillermo del Toro and starring Bradley Cooper, Cate Blanchett, Rooney Mara, and Toni Collette. *Nightmare Alley* begins with an extraordinary description of a carnival-show geek—alcoholic and abject and the object of the voyeuristic crowd's gleeful disgust and derision—going about his work at a county fair. Young Stan Carlisle is working as a carny, and he wonders how a man could fall so low. There's no way in hell, he vows, that anything like that will ever happen to him. And since Stan is clever and ambitious and not without a useful streak of ruthlessness, soon enough he's going places. Onstage he plays the mentalist with a cute assistant (before long his harried wife), then he graduates to full-blown spiritualist, catering to the needs of the rich and gullible in their well-upholstered homes. It looks like the world is Stan's for the taking. At least for now.
