Puzzlers can have challenging fun every day of the year with 365 problem-solving exercises to test and sharpen their skills. Numbers, words, logic, concentration, creativity: they're all worked out. Puzzle icons at the top of each page explain exactly which ability is being tested and the difficulty level. Look at a diagram and figure out how many square and rectangles it would have if the diagonal lines were removed. Arrange a block of text alphabetically to find out what the 13 word would be. Complete a magic square so that it contains all the numbers from 1 to 25, and so that the sum of each line,

column, and the two diagonals come to 65.

These mental gymnastics will definitely keep the mind in top shape. [Games and Puzzles to Keep Your Mind Sharp and Supple](#) 365 Games & Puzzles to Keep Your Mind Sharp

In a review of several studies, researchers found that seniors with memory loss who worked on puzzles for 45 minutes two times a week had improved scores on memory tests. These improvements accounted for approximately six to nine months delay in symptoms or decline. Staying active and engaged is beneficial for both physical and cognitive health, so it's particularly important for people with dementia or Alzheimer's disease to engage in activities. Some activities have proven to be particularly helpful for those with dementia, such

as games, exercise and cryptograms maintaining day-to-day routines. specially designed exercise helps to maintain their cognitive function, sense of security, and can calm anxious or aggressive behaviors. It also helps provide a sense of control over their day and their environment, especially for those in the early stages of the disease. specially designed exercise helps to maintain their cognitive function, sense of security, and can calm anxious or aggressive behaviors.  Love word searches? Then

try this super-duper colossal collection of 365 searches—a full year’s worth of mind-melting puzzles that will (as a bonus) improve your vocabulary, too. Every page has TWO word searches on it, each with a cool theme, like "File Extensions" and "Fountains" or "Jelly Beans" and "Letter Order." See how many "Movie Stars" (Damon, Diesel, Streep) catch your eye or fun "Onomatopoeia" words you can circle—boom, buzz, clang, click, gurgle, hiccup, honk. Experts who want something really challenging will find what they want here, too. "Conifer" includes such tree names as bristlecone, loblolly, and tamarack, while "Quantum Mechanics" offers bosons, fermions, and isobar. And for something a little unusual, there’s even a "Minnesota Zip Code" puzzle, where you look for groups of numbers. But the truly brain-busting ones come at the end of the book, when the puzzles veer from the standard to the really challenging, and some even have no word list at all. They’re hard, they’re tough . . . and they’re wildly entertaining!
