The concept of nation building is a multi-dimensional process, addressing various components simultaneously. It takes into account the various historical and geographical perspectives of the country in question, noting the peculiarities and diversity of its cultural ethos, including its social, economic and political structures. This volume addresses these inter-linked aspects, and the innovative development of these structures and institutions. However, such changes and development must be directed to create a more culturally homogenous and productive society, so that basic human needs like food, shelter, healthcare and education are fulfilled at the optimum level. All-round development and growth for the nation can be achieved only with a robust economy and political stability. As such, the process of nation building and development is a multifaceted phenomenon. In the context of India, this process is associated with the central

values embodied in the preamble of the country's constitution, which advocates for the establishment of secular, socialist and democratic society based on well-defined fundamental rights. This anthology reflects these academic spirits and vistas.

Napoleon on Napoleon: An

Autobiography of the Emperor Routledge

Cursed with eternal memory for transgressing the thin line between orthodoxy and liberty, Kratu, a young man from the ancient era, moves through time and worldly spheres, exploring both the illusions and the wisdom permeating the universe. Burdened by deathless memory, he pines for freedom while traversing successive worlds and epochs, deeply empathizing with the characters, bound in various shades of shackles that populate these sojourns. By the time he is born in a city in the present time, Kratu has dedicated himself to sprinkling joy and freedom from entrapment to people and personalities of all hues. As the story weaves together the successive births of Kratu, tales of wisdom, told masterfully through the medium of divinities and great seers, get

knit into a unified whole of past, present and future, bringing alive the consciousness of a millennia of Indian tradition. *Kratu*, as an engaging novel, not only narrates a multitude of absorbing tales but goes beyond – indeed, as *Kratu*, the pan-temporal traveller, embeds our psyche with priceless wisdom deeply imbued in the numerous streams coursing through the consciousness of India and its people.

It has long been contended that the Indian Constitution of 1950, a document in English created by elite consensus, has had little influence on India's greater population. Drawing upon the previously unexplored records of the Supreme Court of India, *A People's Constitution* upends this narrative and shows how the Constitution actually transformed the daily lives of citizens in profound and lasting ways. This remarkable legal process was led by individuals on the margins of society, and Rohit De looks at how drinkers, smugglers, petty vendors, butchers, and prostitutes—all despised minorities—shaped the constitutional culture. The Constitution came alive in the popular imagination so much that ordinary people attributed meaning to its existence, took recourse to it, and argued with it. Focusing on the use of constitutional remedies by citizens against new state regulations seeking to reshape the society and economy, De illustrates how laws and policies were frequently undone or renegotiated from below using the state's own procedures. De examines four important cases that set legal precedents: a Parsi journalist's contestation of new alcohol prohibition laws, Marwari petty traders' challenge to the system of commodity control, Muslim butchers' petition against cow

protection laws, and sex workers' battle to protect their right to practice prostitution. Exploring how the Indian Constitution of 1950 enfranchised the largest population in the world, *A People's Constitution* considers the ways that ordinary citizens produced, through litigation, alternative ethical models of citizenship.

The Secrets of the Self is a book-length, philosophical poem rooted in metaphysical thought and ideology, as well as Islamic theology. Originally published in 1915, the poem speaks of the "Self" in relation to the universe, how it is the inner power and soul of each individual human. It instructs on how to improve the Self through Love and willpower, which can then help one control the forces within the universe. The poem includes stories that illustrate its points and promotes the spread of Islamic ideals. MUHAMMAD IQBAL (1877-1938) was a poet, prophet, and politician in British India. Born in Sialkot, Punjab, Iqbal converted to Islam with his family as a child. He studied literature and law at Cambridge, Munich, and Heidelberg before starting his own law practice and concentrating on his scholarly writing, which he authored primarily in Persian. Many of Iqbal's works promote Islamic revival, especially in South Asia, and he was a well-known leader of the All India Muslim League. Today, he is recognized as the official poet of Pakistan, and his birthday is celebrated as a national holiday.

Cliché and reality are rooted in India's long history. No invader or British Raj is ruling us. We have our own government but are we anywhere near to what we were in our glorious past? If Mohenjo-Daro and Harappa had highly precise

science of civil engineering and architecture then why can't we have clean and orderly cities now where people can live with basic dignity without unruly traffic and filthy streets? If Megasthenese said that in India thefts were extremely rare, that Indians honoured truth as a virtue, why today even after paying a bribe one is unsure if his work gets done? If Marco-polo rated Indians to be the best merchants in the world and the most truthful, then why in these times we think of our politicians, industrialists and bureaucrats as self-servers, obstructive, corrupt and always blocking the economic reforms? If we were straight forward, if it was love of truth and justice that Indians were known for, then why can't we insist loudly and clearly and courageously to defend our claim? If no one ever accused us of falsehood then why can't we redeem that same rule of law and decency? Why is there such deep rooted corruption and why an ever pervasive flair for free riding? Why are we ever ready to blame anyone but ourselves for our collective plight? How, where, what went wrong? Will our grandchildren also inherit a corrupt and inefficient system of governance? Is it that words come easier to us, actions come harder? If as people of one nation we have lost our sensitivity to the misery and mediocrity around us, then what value system we are passing on to the next generation; scepticism, oppression and corruption? Sometimes; questions are too complicated, especially if we fear the answers, sometimes; the worst battle we have to fight is between what we know and what we feel.

The spiritual journey begins when one turns away from the external acquisition

to inner exploration. Men and women are equal in the world. The Vedas mention how female sages studied and composed mantras alongside the sages. God alone exists. The world is the play of His divine power or maya, and is not perfect. Perfection lies only in the divine.

This book, first published in 1962, is an analysis of the history of the philosophy of a country that has never distinguished philosophy from religion. Indian philosophy is not merely metaphysical speculation, but has its foundation in immediate perception. This insistence upon immediate perception rather than abstract reasoning is what distinguishes the Indian philosophy of religion from philosophy as Western nations know it.

Drawing on the incredible wealth of diversity of languages, cultures and movements in which lesbian feminisms have been articulated, this book confronts the historic devaluation of lesbian-feminist politics within Anglo-American discourse and ignites a transnational and transgenerational discussion regarding the relevance of lesbian feminisms in today's world, a discussion that challenges the view of lesbian feminism as static and essentialist. Through careful consideration of contemporary debates, these writers, theorists, academics and activists consider the wider place of lesbian feminisms within queer theory, post-colonial feminism, and the movement for LGBT rights. It considers how lesbian feminisms can contribute to discussions on intersectionality, engage with trans activism and the need for trans-inclusion, to ultimately show how lesbian feminisms can offer a transformative approach to today's sexual and gender politics.

Saloni Chopra is an actor by choice and a writer by accident. While one helps her serotonin, the other helps her mortgage*. Raised in Australia, but firmly believes it's not where she "grew up", because that happened in the heart of Mumbai, an over-populated city where she ironically learnt to take up more space by fighting for rights she didn't even know she would need one day. From falling into a puddle of quicksand and staying calm enough to not get sucked in, to the art of finding her own voice in a patriarchal society - she learnt everything in her early 20s the hard way (only one of the above is true). There came a point when Saloni realised that if she was going to keep living a life that was such a dramatic page-turner, she may as well write a book about it. * And she doesn't even have a mortgage

This book redefines the origins of the women's rights campaigns in Britain. Contrary to the existing historiography, which argues that the Victorian Feminist movement began in the 1850s, this book, by bringing to light a wealth of unused sources, demonstrates that a vibrant community existed during the 1830s and 1840s. Previously neglected, this remarkable group of writers and reformers established both the ideologies and personnel network which provided the foundations of the women's rights campaigns of the coming decades.
