This is why I think my book is #1 Best Magical Herb Book in the world: BIG! 340+ herbs + a really BIG index + Hundreds of magical properties! This is life changing! Think of all the awesome magic you could cast with the herbs around you already have and you never knew their full magical properties! Wide. I made this book to be used by anyone of any belief. Before I came there were many books written from a Wicca perspective, some from a Voodoo perspective, and not that many from other beliefs. This book encompasses all beliefs offering a reference point for everyone practicing magic. Tailored solutions. Mix and match magical properties targeting individual specific needs. You can really narrow down and get as nitty gritty as you want, offering you a better individualised solution to fit your needs just right. Your "size", your magical solution, EVERY SINGLE TIME! So you can cast BETTER SPELLS! Delightful user experience. Many times, I've seen books that are difficult to use by the reader (even when they have an index), I wanted to create something you can use with ease and truly rely on as a reference book for many years to come. I pride myself in making this amazing book easy to use. You can work both ways: find out what a herb does, and find out what herbs are best suited for your situation. Interchangeable. Easy substitutions. We've seen books saying one herb can be used for a specific purpose and being rigid in their terminology. We've also seen the substitutions lists. All of them squash creativity, putting everything into a stereotypical box. THIS BOOK IS THE END OF THIS INSANITY! Same language

and terminology are used throughout the book making it easy for you to find what you need. This is a fluid book; you can substitute any herb with any other herb from the same category (ie: attraction). No planet, deity, or number association because the same herbs can play different roles within a spell. Limiting a herb also limits your understanding and ability to use that herb. I offer you the freedom to understand how herbs work beyond of what you already know. This is priceless because it builds confidence and wisdom. Cut the fluff. Only instructions, and a bonus from our upcoming Friendships With Spirits book at the end. Familiar. I use the same language you use, the same witchy terms. Smooth. Easy to read, memorise, and see similar patterns between herbs. This makes you realize how well interconnected everything really is. No pictures. I wanted something quick and easy you can hold in your hand and use without fluff. Imagine this scenario: you're casting a cleansing spell, the candles are almost gone, you just run out of a sage and you need a solution, FAST! You pick up my book, go to the index, look under cleansing, and easily find a substitute you already have. Problem solved! There are thousands of pictures already on Google easy to access with just the click of a button in a matter of seconds (even faster if you downloaded this book in your smartphone's Kindle app). Now, let me ask you this, do you really care about the pictures? PS: Your purchase just made my day; I hope this book will make yours! Leave me a review after you use it, I always like reading your lovely reviews. They make me really happy ☺

Harold Roth is a leading authority on plant/herbal magic. His new book, *The Witching Herbs*, is an in-depth exploration of 13

essential plants and herbs most closely associated with witchcraft—13 because it's the witching number and reflects the 13 months of the lunar calendar. The plants are poppy, clary sage, yarrow, rue, hyssop, vervain, mugwort, wormwood, datura, wild tobacco, henbane, belladonna, and mandrake. Roth writes simply and clearly on a vast amount of esoteric information that is not easily found elsewhere and will be greeted enthusiastically by those who already have extensive experience and libraries. It is unique in that it combines mysticism with practical instructions for growing each plant, based on Roth's 30 years of gardening expertise. Each chapter focuses on one plant and includes information on its unique plant spirit familiar, clear how-to instructions for magical projects, and pragmatic information on growing and cultivating. Roth writes, "This book is a great choice for intermediate-to-advanced witches who would like to work more closely with the traditional witching herbs, especially the baneful plants with their rather difficult spirits. Working directly with spirits is one of the fundamentals of the Craft." *The Witching Herbs* is the essential plant-worker's guide. Roth is not only a successful gardener, but also a magician and scholar of the occult. No other book blends clear, practical gardening techniques with equally lucid and sophisticated plant magic so successfully.
