Donna Carver gives us a funny and interesting look at the trucking industry and the trucker's CB radio slang. From the passenger seat of a 'sure enough store bought large car', she's 'stylin and profilin', checking out the 'seat covers', and watching

the 'bushes for bears' as she gets the ride of her life. Ride with Donna as she shares her stories from the road. Sometimes funny and some sad, like when she sees New York after 9/11.

This book presents more than 630 up-to-date advanced cleaning product formulations for household, industrial and automotive applications. All formulations are completely different from those in other volumes.

Motor Truck News Transportation Research Board Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on

maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
