The first science fiction course in the American academy was held in the early 1950s. In the sixty years since, science fiction has become a recognized and established literary genre with a significant and growing body of scholarship. The Cambridge History of Science Fiction is a landmark volume as the first authoritative history of the genre. Over forty contributors with diverse and complementary specialties present a history of science fiction across national and genre boundaries, and trace its intellectual and creative roots in the philosophical and

fantastic narratives of the ancient past. Science fiction as a literary genre is the central focus of the volume, but fundamental to its story is its non-literary cultural manifestations and influence. Coverage thus includes transmedia manifestations as an integral part of the genre's history, including not only short stories and novels, but also film, art, architecture, music, comics, and interactive media.

In a world awash in screenwriting books, *The Science of Screenwriting* provides an alternative approach that will help the aspiring screenwriter navigate this mass of often contradictory advice: exploring the science behind storytelling strategies. Paul Gulino, author of the best-selling *Screenwriting: The Sequence Approach*, and Connie Shears, a noted cognitive psychologist, build, chapter-by-chapter, an understanding of the human perceptual/cognitive processes, from the functions of our eyes and ears bringing real world information into our brains, to the intricate networks within our brains connecting our decisions and emotions. They draw on a variety of examples from film and television -- *The Social Network*, *Silver Linings Playbook* and *Breaking Bad* -- to show how the human perceptual process is reflected in the storytelling strategies of these filmmakers. They conclude with a detailed analysis of one of the most successful and influential films of all time, *Star Wars*, to discover just how it had the effect that it had.

John Irving's memoir begins with his account of the distinguished career and medical writings of the novelist's grandfather Dr. Frederick C. Irving, a renowned obstetrician and gynecologist, and includes Mr. Irving's incisive history of abortion politics in the United States. But *My Movie Business* focuses primarily on the thirteen years John Irving spent adapting his novel *The Cider House Rules* for the screen--for four different directors. Mr. Irving also writes about the failed effort to make his first novel, *Setting Free the Bears*, into a movie; about two of the films that were made from his novels (but not from his screenplays), *The World According to Garp* and *The Hotel New Hampshire*; about his slow progress at shepherding his screenplay of *A Son of the Circus* into production. Not least, and in addition to its qualities as a memoir--anecdotal, comic, affectionate, and candid--*My Movie Business* is an insightful essay on the essential differences between writing a novel and writing a screenplay. The photographs in *My Movie Business* were taken by Stephen Vaughan, the still photographer

on the set of *The Cider House Rules*--a Miramax production directed by Lasse Hallström, with Michael Caine in the role of Dr. Larch. Concurrently with the November 1999 release of the film, Talk Miramax Books will publish John Irving's screenplay. *Aliens: The Official Movie Novelization* Random House
Veteran script consultant Jill Chamberlain discovered in her work that an astounding 99 percent of first-time screenwriters don't know how to tell a story. These writers may know how to format a script, write snappy dialogue, and set a scene. They may have interesting characters and perhaps some clever plot devices. But, invariably, while they may have the kernel of a good idea for a screenplay, they fail to tell a story. What the 99 percent do instead is present a situation. In order to explain the difference, Chamberlain created the Nutshell Technique, a method whereby writers identify eight dynamic, interconnected elements that are required to successfully tell a story. Now, for the first time, Chamberlain presents her unique method in book form with *The Nutshell Technique: Crack the Secret of Successful Screenwriting*. Using easy-to-follow diagrams ("nutshells"), she thoroughly explains how the Nutshell Technique can make or break a film script. Chamberlain takes readers step-by-step through thirty classic and contemporary movies, showing how such dissimilar screenplays as *Casablanca*, *Chinatown*, *Pulp Fiction*, *The Usual Suspects*, *Little Miss Sunshine*, *Juno*, *Silver Linings Playbook*, and *Argo* all have the same system working behind the scenes, and she teaches readers exactly how to apply these principles to their own screenwriting. Learn the Nutshell Technique, and you'll discover how to turn a mere situation into a truly compelling screenplay story.

Dan O'Bannon famously crafted his screenplays using a self-designed system which he called "dynamic structure." This book outlines how O'Bannon's method differs from those of other well-known screenwriting gurus, and illustrates with examples from classic (and not-so-classic) films how dynamic structure can be applied to craft narrative and character. O'Bannon also includes his insights on subjects such as the logic of the three-act structure, the role of the producer in screenplay development, and the psychological principle known as "hedonic adaptation," which has a unique effect on the structuring of screen stories.

You've just boarded a plane. You've loaded your phone with your favorite podcasts, but before you can pop in your earbuds, disaster strikes: The guy in the next seat starts telling you all about something crazy that happened to him--in great detail. This is the unwelcome storyteller, trying to convince a reluctant audience to care about his story. We all hate that guy, right? But when you tell a story (any kind of story: a novel, a memoir, a screenplay, a stage play, a comic, or even a cover letter), you become the unwelcome storyteller. So how can you write a story that audiences will embrace? The answer is simple: Remember what it feels like to be that jaded audience. Tell the story that would win you over, even if you didn't want to hear it. The *Secrets of Story* provides comprehensive, audience-focused strategies for becoming a master storyteller. Armed with the Ultimate Story Checklist, you can improve every aspect of your fiction writing with incisive questions like these: • Concept: Is the one-sentence description of your story uniquely appealing? •

Character: Can your audience identify with your hero? • Structure and Plot: Is your story ruled by human nature? • Scene Work: Does each scene advance the plot and reveal character through emotional reactions? • Dialogue: Is your characters' dialogue infused with distinct personality traits and speech patterns based on their lives and backgrounds? • Tone: Are you subtly setting, resetting, and upsetting expectations? • Theme: Are you using multiple ironies throughout the story to create meaning? To succeed in the world of fiction and film, you have to work on every aspect of your craft and satisfy your audience. Do both--and so much more--with *The Secrets of Story*.
