It challenges the sacred tenets of the United States Constitution, urban life, the civil rights movement, the father-son relationship, and the holy grail of racial equality—the black Chinese restaurant. Born in the "agrarian ghetto" of Dickens—on the southern outskirts of Los Angeles—the narrator of *The Sellout* resigns himself to the fate of lower-middle-class Californians: "I'd die in the same bedroom I'd grown up in, looking up at the cracks in the stucco ceiling that've been there since '68 quake." Raised by a single father, a controversial sociologist, he spent his childhood as the subject in racially charged psychological studies. He is led to believe that his father's pioneering work will result in a memoir that will solve his family's financial woes. But when his father is killed in a police shoot-out, he realizes there never was a memoir. All that's left is the bill for a drive-thru funeral. Fueled by this deceit and the general disrepair of his hometown, the narrator sets out to right another wrong: Dickens has literally been removed from the map to save California from further embarrassment. Enlisting the help of the town's most famous resident—the last surviving Little Rascal, Hominy Jenkins—he initiates the most outrageous action conceivable: reinstating slavery and segregating the local high school, which lands him in the Supreme Court.

Legal Environment Business Law and the Legal Environment, Standard Edition

How Yvonne Rainer's art shaped new ways of watching as well as performing; how it connected 1960s avant-garde art to politics and activism. In her dance and performances of the 1960s, Yvonne Rainer famously transformed the performing body—stripped it of special techniques and star status, traded its costumes and leotards for T-shirts and sneakers, asked it to haul mattresses or recite texts rather than leap or spin. Without discounting these innovations, Carrie Lambert-Beatty argues in *Being Watched* that the crucial site of Rainer's interventions in the 1960s was less the body of the performer than the eye of the viewer—or rather, the body as offered to the eye. Rainer's art, Lambert-Beatty writes, is structured by a peculiar tension between the body and its display. Through close readings of Rainer's works of the 1960s—from the often-discussed dance *Trio A* to lesser-known Vietnam war-era protest dances—Lambert-Beatty explores how these performances embodied what Rainer called “the seeing difficulty.” (As Rainer said: “Dance is hard to see.”) Viewed from this perspective, Rainer's work becomes a bridge between key episodes in postwar art. Lambert-Beatty shows how Rainer's art (and related performance work in *Happenings*, *Fluxus*, and *Judson Dance Theater*) connects with the transformation of the subject-object relation in minimalism and with emerging feminist discourse on the political implications of the objectifying gaze. In a spectacle-soaked era, moreover—when images of war played nightly on the television news—Rainer's work engaged the habits of viewing formed in mass-media America, linking avant-garde art and the wider culture of the 1960s. Rainer is significant, argues Lambert-Beatty, not only as a choreographer, but as a sculptor of spectatorship.

Archives are considered to be collections of administrative, legal, commercial and other records or the actual place where they are located. They have become ubiquitous in the modern world, but emerged not much later than the invention of writing. Following Foucault, who first used the word archive in a metaphorical sense as "the general system of the formation and transformation of statements" in his "Archaeology of Knowledge" (1969), postmodern theorists have tried to exploit the potential of this concept and initiated the "archival turn". In recent years, however, archives have attracted the attention of anthropologists and historians of different denominations regarding them as historical objects and "grounding" them again in real institutions. The papers in this volume explore the complex topic of the archive in a historical, systematic and comparative context and view it in the broader context of manuscript cultures by addressing questions like how, by whom and for which purpose were archival records produced, and if they differ from literary

manuscripts regarding materials, formats, and producers (scribes).

The Rise of Capitalism on the Pampas Cengage Learning
Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.
