This fully revised third edition of Swedish: An Essential Grammar incorporates changes proposed to Swedish grammar by Svenska Akademiens grammatik. Examples have been fully updated and the bibliography has been expanded. Swedish: An Essential Grammar provides a fresh and accessible description of the language. Explanations are free of jargon and emphasis has been placed on areas of Swedish that pose a particular challenge for English-speaking learners. The book offers:

- a clear, accessible format;
- authentic examples of language use, taken from a range of media;
- clear, jargon-free explanations of grammar.

Suitable for independent study or for class-based tuition, Swedish: An Essential Grammar continues to be an invaluable source to all learners looking to improve their knowledge of Swedish grammar.

English Adjectives of Comparison Oxford University Press

**Reading German for Theological Studies** Prentice Hall

This book investigates the syntax and semantics of proportional most and other majority quantifiers across languages. Carmen Dobrovie-Sorin and Ion Giurgea draw on data from around 40 languages to demonstrate the existence of two distinct semantic types of most: a distributive type, which compares cardinalities of sets of atoms, and a cumulative type, which involves measuring plural and mass entities with respect to a whole. On the syntactic side, the most significant difference is between partitive and non-partitive configurations: certain majority quantifiers are specific to partitive constructions, while others are also allowed in non-partitives. The volume also explores complex expressions of the type the largest part and nominal quantifiers of the type the majority. The authors argue in favour of a quantificational analysis of most, in contrast to many recent studies, but adopt a bipartition-cum-superlative analysis for the largest part. The volume is a large-scale crosslinguistic investigation, offering typological insights as well as case studies from a range of languages, including German, Romanian, Hungarian, Hindi, and Syrian Arabic. The findings have implications for the study of number marking, partitivity, kind reference, (in)definiteness marking, and other crucial issues in linguistic theory.

*GMAT All the Verbal* Cambridge University Press

#### *Remedial English Language* Logic of English, Inc

This book is about the real grammar of English that is generally found by students either in senior high school until the university level. It aims to help the students or those who are interested in learning English grammar for special purposes, like TOEIC or TOEFL preparation. The students in this case, always get confused in learning English because they always get the same thing about English grammar from time to time without any efforts to improve the performance of teaching and learning process of English class. Besides, the materials of English grammar which is placed before the the students seem to

be very complicated meanwhile the teachers always force them to comprehend that materials. This situation makes the English grammar becomes a 'frightening' material for the students. Realizing the above situation, this book is present to offer a precise solution how to study English easily and practically. Why is it so?. This book is present with different performance viewed from either the scope of materials, explanation, and or the language used. The scope of the materials available in this books comprises the real material for intermediate classes and also for the TOEIC and TOEFL preparation. The explanation of the materials in this book is designed to fulfill the level of intermediate classes' knowledge by using the most simple language. All is done in order that all materials of this book can be grasped well and easily by the students and also all readers. This book contains all materials of English grammar which are absorbed from the writer's experience of teaching English more than twenty years and developed from all books which have been and are being used by the writer's in teaching English until now on. The writer has moral obligation to share what he has got about the knowledge of English to those who are interested in learning much about English grammar. Hopefully, this book can help them in the frame work of creating the brilliant future and will become a slight ray of hope where the English plays an important role in winning the global competition.

#### **Quick Solutions to Common Errors in English** Rex Bookstore, Inc.

Describing the earliest reconstructable stages of the prehistory of English, this title outlines the grammar of Proto-Indo-European and considers the changes by

which one dialect of that prehistoric language developed into Proto-Germanic.

[Studies on Modern Turkish](#) Cambridge University Press

"English is so illogical!" It is generally believed that English is a language of exceptions. For many, learning to spell and read is frustrating. For some, it is impossible... especially for the 29% of Americans who are functionally illiterate. But what if the problem is not the language itself, but the rules we were taught? What if we could see the complexity of English as a powerful tool rather than a hindrance? --Denise Eide

*Uncovering the Logic of English* challenges the notion that English is illogical by systematically explaining English spelling and answering questions like "Why is there a silent final E in have, large, and house?" and "Why is discussion spelled with -sion rather than -tion?" With easy-to-read examples and anecdotes, this book describes: - the phonograms and spelling rules which explain 98% of English words - how English words are formed and how this knowledge can revolutionize vocabulary development - how understanding the reasons behind English spelling prevents students from needing to guess The author's inspiring commentary makes a compelling case that understanding the logic of English could transform literacy education and help solve America's literacy crisis. Thorough and filled with the latest linguistic and reading research, *Uncovering the Logic of English* demonstrates why this systematic approach should be as foundational to our education as  $1+1=2$ .

**Antho's Latin Grammar** John Wiley & Sons

Every PhD student in theological and biblical studies is expected to read German, but there are surprisingly few resources to help students learn to read and translate scholarly theological works. This streamlined grammar and reader by an experienced teacher and

German-language expert presents biblical passages and theological readings of gradually increasing difficulty. Suited for self-study or classroom use, this book helps students to gain the proficiency needed for scholarly theological research.

Italian Workbook For Dummies

Cambridge University Press
