Power to Persevere is a collection of inspiring stories from ordinary people who dug their way out of personal struggles to achieve and exceed their dreams. These stories are intermingled with author Alexa Cucchiara's personal stories about her battle with cancer, as well as expert interviews and research studies. Cucchiara's goal is to show people that they aren't alone when it comes to facing hard times; there are resources available and things they can do to take their power back. Power to Persevere is Alexa's way of offering the world an inspirational guide that she wished she had had during her treatment - a light at the end of seemingly endless tunnels. If you're going through a challenging time or if you are someone trying to help someone through a difficult stretch, Power to Persevere is exactly what you need. There is a glimmer of hope and inspiration. No one needs to be defined by their struggles.

World War II was over, but in Japan, lines for a simple bowl of ramen noodles wound down the sidewalk. What Momofuku Ando did next would change food forever. Andrea Wang, author of *Watercress* (a Newberry honor book and winner of the Caldecott Medal), tells the true story behind the creation of one of the world's most popular foods. "An inspiring story of persistence and an ideal purchase for any collection." *School Library Journal*, STARRED review 2021 Nutmeg Book Awards Nominee Winner of

For years, he'd dreamed about making a new kind of ramen noodle soup that was quick, convenient, and tasty for the hungry people he'd seen in line for a bowl on the black market following World War II. Peace follows from a full stomach, he believed. Day after day, Ando experimented. Night after night, he failed. But Ando kept experimenting. With persistence, creativity, and a little inspiration, Ando succeeded. This is the true story behind one of the world's most popular foods.

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-geniuses everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker

cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among Grit’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).

The New York Times bestseller by the acclaimed, bestselling author of Start With Why and Together is Better. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video "Millenials in the workplace" (150+ million views). Imagine a world where almost everyone wakes up

inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. "Officers eat last," he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice their own comfort—even their own survival—for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a "Circle of Safety" that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of

When: The Scientific Secrets of Perfect Timing Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

What drove three young black men, each from America's most urban environments, to achieve their dreams of becoming doctors? The answer is in the *Pulse of Perseverance*. In 1998, Max Madhere, Pierre Johnson, and Joe Semien were three young, black, premedical students at Xavier University of Louisiana. Each was struggling with the demands of Xavier's rigorous curriculum, yet each was determined to succeed, even if the statistics, or the stereotypes about black men, said otherwise. By drawing on each other's determination and individual strengths, they forged a brotherhood and created a bond so strong that it would carry them through college, medical school, and well beyond. Now they've come together in *Pulse* to share their stories and encourage young people of color to pursue high-level careers. Max grew up in New York City and Washington D.C., Pierre in Chicago, and Joe in New Orleans. Underperforming schools, instability in the home, the trappings of street life, or simply being "expected" to fail could have derailed their aspirations, yet all three men refused to accept failure as an option. No obstacle was too great, no ambition too high. Today, Dr. Maxime Madhere, Dr. Pierre Johnson, and Dr. Joseph W. Semien Jr. are each board-certified physicians, as well as fathers and community mentors. Their message in *Pulse* is both simple and complex: no matter where you're from, no matter what "society" tells you, you can realize your dreams with hard work, determination, and God's guidance.

99 Sparks of Inspiration John Wiley & Sons

From the best-selling author of *The Wind-Up Bird Chronicle* and *After Dark*, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In

1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he'd completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and—even more important—on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo's Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, *What I Talk About When I Talk About Running* is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running.

A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.
