A steamy tale of two men and a woman isolated by circumstance but alienated from each other by the past in an early mainstream novel from the award-winning Philip K. Dick.

Ubik STORGY Books

An exhilarating debut by a young writer from Pakistan: provocative, funny, disarmingly original stories that upend traditional notions of identity and family, and peer into the vulnerable workings of the human heart. From the high-stakes worlds of television and politics to the intimate corridors of home—including the bedroom—these wryly observed, deeply revealing stories look at life in Pakistan with humor, compassion, psychological acuity, and emotional immediacy.

Childhood best friends agree to marry in order to keep their sexuality a secret. A young woman with an anxiety disorder discovers the numbing pleasures of an illicit love affair. A radicalized student's

preparations for his sister's wedding involve beating up the groom. An actress is forced to grow up fast on the set of her first major tv show, where the real intrigue takes place off-screen. Every story bears witness to the all-too-universal desire to be loved, and what happens when this longing gets pushed to its limits. Are You Enjoying? is a free-spirited, confident, indelible introduction to a galvanizing new talent.

With the same unique vision that brought his now classic Mars trilogy to vivid life, bestselling author Kim Stanley Robinson boldly imagines an alternate history of the last seven hundred years. In his grandest work yet, the acclaimed storyteller constructs a world vastly different from the one we know. . . . “A thoughtful, magisterial alternate history from one of science fiction’s most important writers.”—The New York Times Book Review It is the fourteenth century and one of the most apocalyptic events in human history is set to occur—the coming of the Black Death. History teaches us that a third of Europe’s

population was destroyed. But what if the plague had killed 99 percent of the population instead? How would the world have changed? This is a look at the history that could have been—one that stretches across centuries, sees dynasties and nations rise and crumble, and spans horrible famine and magnificent innovation. Through the eyes of soldiers and kings, explorers and philosophers, slaves and scholars, Robinson navigates a world where Buddhism and Islam are the most influential and practiced religions, while Christianity is merely a historical footnote. Probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power—and even love—in this bold New World.

Philip K. Dick was a visionary writer of science fiction. His works speak to contemporary fears of being continually watched by technology, and the paranoia of modern life in which we watch ourselves and lose our sense of identity. Since his death in 1982, Dick's writing remain frighteningly relevant to 21st century audiences. Dick spent his life in near poverty and it was only after

his death that he gained popular and critical recognition. In this new collection of essays, interviews, and talks, Philip K Dick is rediscovered. Concentrating both on recent critical studies and on reassessing his legacy in light of his new status as a "major American author," these essays explore, just what happened culturally and critically to precipitate his extraordinary rise in reputation. The essays look for his traces in the places he lived, in the SF community he came from, and in his influence on contemporary American literature and culture, and beyond.

“It reads like Snow Crash had a dance-off with Gideon the Ninth, in a world where language isn't a virus from outer space, it's a goddamn alien invasion.” —Charles

Stross In modern day Los Angeles, a shadowy faction led by the Governor of California develops the arcane art of combat linguistics, planting the seeds of a future totalitarian empire in Scotto Moore's *Battle of the Linguist Mages*. Isobel is the Queen of the medieval rave-themed VR game *Sparkle Dungeon*. Her prowess in the game makes her an ideal candidate to learn the secrets of "power morphemes"—unnaturally dense units of meaning that warp perception when skilfully pronounced. But Isobel's reputation makes her the target of a strange resistance movement led by spellcasting anarchists, who may be the only thing stopping the cabal from toppling California over the edge of a terrible transformation, with forty million lives at stake. Time is short for Isobel to level up and choose a side—because the cabal has attracted much bigger and weirder enemies than the anarchist resistance, emerging from dark and vicious dimensions of reality and heading straight for planet Earth! Known in his lifetime primarily to readers of science fiction, Philip K. Dick is now seen as a uniquely visionary figure, a writer who, in editor Jonathan Lethem's words, "wielded a sardonic yet heartbroken acuity about the plight of being alive in the twentieth century, one that makes him a lonely hero to the readers who cherish him." This Library of America volume brings together four of Dick's most original novels. *The Man in the High Castle* (1962), which won the Hugo Award, describes an alternate world in which Japan and Germany have won World War II and America is divided into separate occupation zones. The dizzying *The Three Stigmata of Palmer Eldritch* (1965) posits a future in which competing hallucinogens proffer different brands of virtual reality, and an interplanetary drug tycoon can transform himself into a godlike figure transcending even physical death. *Do Androids Dream of Electric Sheep?* (1968), about a bounty hunter in search of escaped androids in a postapocalyptic society where status is measured by the possession of live animals and religious life is focused on a television personality, was the basis for the movie *Blade Runner*. *Ubik* (1969), with its future world of psychic espionage agents and cryonically frozen patients inhabiting an illusory "half-life," pursues Dick's theme of simulated realities and false perceptions to ever more disturbing conclusions, as time collapses on itself and characters stranded in past eras search desperately for the elusive, constantly shape-shifting panacea Ubik. As with most of Dick's novels, no plot

summary can suggest the mesmerizing and constantly surprising texture of these astonishing books. Posing the questions "What is human?" and "What is real?" in a multitude of fascinating ways, Dick produced works—fantastic and weird, yet developed with precise logic, marked by wild humor and soaring flights of religious speculation—that are startlingly prescient imaginative anticipations of twenty-first-century quandaries. Mixing passion and humor, a personal work of literary criticism that demonstrates how the greatest books illuminate our lives. Why do we read literature? For Arnold Weinstein, the answer is clear: literature allows us to become someone else. Literature changes us by giving us intimate access to an astonishing variety of other lives, experiences, and places across the ages. Reflecting on a lifetime of reading, teaching, and writing, *The Lives of Literature* explores, with passion, humor, and whirring intellect, a professor's life, the thrills and traps of teaching, and, most of all, the power of literature to lead us to a deeper understanding of ourselves and the worlds we inhabit. As an identical twin, Weinstein experienced early the dislocation of being mistaken

for another person—and of feeling that he might be someone other than he had thought. In vivid readings elucidating the classics of authors ranging from Sophocles to James Joyce and Toni Morrison, he explores what we learn by identifying with their protagonists, including those who, undone by wreckage and loss, discover that all their beliefs are illusions. Weinstein masterfully argues that literature's knowing differs entirely from what one ends up knowing when studying mathematics or physics or even history: by entering these characters' lives, readers acquire a unique form of knowledge—and come to understand its cost. In *The Lives of Literature*, a master writer and teacher shares his love of the books that he has taught and been taught by, showing us that literature matters because we never stop discovering who we are.

A master of science fiction, a voice of the changing counterculture, and a genuine visionary, Philip K. Dick wrote about reality, entropy, deception, and the plight of being alive in the modern world. Through his remarkable career Dick has established himself as a writer of the first order and his dreams of the future have proven to be eerily prophetic and even more prescient than when he wrote them. Vintage PKD features extracts from *The Man in the High Castle*, *The Three Stigmata of Palmer Eldritch*, *Ubik*, *A Scanner Darkly*, *VALIS*, and stories including "The Days of Perky Pat," "A Little Something for Us Tempunauts," and "I Hope I Shall Arrive Soon," along with essays and letters currently unavailable in book form. *Vintage Readers* are a perfect introduction to some of the great modern writers, presented in attractive, affordable

paperback editions.

And the world around them is warping and regressing in ways which suggest that their own time is running out. If it hasn't already.

Flow My Tears, The Policeman Said

Houghton Mifflin Harcourt

The bestselling author of the classic Mars trilogy and *The Years of Rice and Salt* presents a riveting new trilogy of cutting-edge science, international politics, and the real-life ramifications of global warming as they are played out in

our nation's capital—and in the daily lives of those at the center of the action. Hauntingly yet humorously realistic, here is a novel of the near future that is inspired by scientific facts already making headlines. When the Arctic ice pack was first measured in the 1950s, it averaged thirty feet thick in midwinter. By the end of the century it was down to fifteen. One August the ice broke. The next year the breakup started in July. The third year it began in May. That was last year. It's a muggy summer in Washington, D.C., as Senate environmental staffer Charlie Quibler and his scientist wife, Anna, work to call attention to the growing crisis of global warming. But as these everyday heroes fight to align the awesome forces of nature with the extraordinary march of technology, fate puts an unusual twist on their efforts—one that will place them at the heart of an unavoidable storm. Vintage PKD Houghton Mifflin Harcourt In a post-holocaust New York governed by oppressively rigid laws on morality and patrolled by mobile, miniature robots that monitor the behavior of every citizen, Allen Purcell is offered a high-profile job as guardian of public ethics, in which position he would have the power to transform society. Reprint. 12,500 first printing.
