Problems & Solutions In Management Accounting - SBPD Publicatios SBPD Publications

How women can become financially independent: an expert shows how with practical tips and case studies. Do women have different financial goals from men? Generally speaking the answer is no. However, women do have different life patterns and these greatly affect their ability to save or invest and, importantly, our ability to take risks. Sheryl Sutherland has been a financial advisor for New Zealand women for over twenty years. In *Girls* just want to have Fund\$, she helps the reader move towards creating a financial plan for life. Her style is relaxed and pitched at 'every woman'. Working through 'money myths', the author helps the reader identify her own goals and values. Sutherland uses case studies, exercises, quizzes and questions to encourage readers to think about their own personal financial situation and in turn moves them towards savings and investments. Financial terms are explained in plain English. And the text is littered throughout with pithy and humorous statements, and bold money facts. She discusses partnerships and money, tips for compromise, and commandments for every woman. There's a chapter on the Art of Investing which explains growth and income, risk and return, liquidity and more; another on tactics for lifting the debt burden; legal issues are covered as well as financial advisors, retirement, mortgages, monitoring portfolios and estate protection.

Financial Accounting by Dr. S. K. Singh, Sayed Zahid Perwaiz (SBPD Publications) Vikas Publishing House

Wales is being transformed from a country dependent upon heavy industries to one of the most exciting regions of Western Europe. It is attracting a diversity of activity in terms of both inward investment and a whole range of new indigenous business. Wales has had an increasing amount of inward investment. Countries like Japan, the United States and Western Germany recognise the high quality of the workforce, the good communications, the good financial package offered by a positive regional policy and the enthusiasm of local government and trade unions welcome them. Wales is at last being recognised as the ideal location for service industries. The urban redevelopment of Cardiff, the enormous developments in cities like Swansea and Newport create a location for service industries of the highest quality at low cost. Wales provides office accomodation at a fraction of the cost in the South East of England, but with the latest buildings and the latest in telecommunication technology. There is certainly a welcome in Wales and I hope all of those who read this directory, indicating as it does the growth that has already taken place, will themselves make the appropriate enquiries: • see where they can locate an office, • see what are the facilities for a good quality labour force, • study the good communications be they road, rail or telecommunications. Anybody that does this will certainly conclude that Wales is the place to be. Rt. Han. Peter Walker, MBE.

Practical Problems In Financial Accounting by Dr. S. K. Singh, Dr. Jayant Kumar Chakraborty, Dr. Neelima Herenz S. Chand Publishing
