Starting, Developing, and Managing a New Enterprise Springer

This book provides an overview of the theory, practice and context of entrepreneurship and innovation at both the industry and firm level. It provides a foundation of ideas and understandings designed to shape the reader's thinking and behaviour to better appreciate the role of innovation and entrepreneurship

in modern economies, and to recognise their own abilities in this regard. The book is aimed at students studying advanced levels of entrepreneurship, innovation and related fields as well as practitioners (for example, managers, business owners). As entrepreneurship and innovation are largely indivisible elements and cannot be adequately understood if studied separately, the book provides the reader with an overview of these elements and how they combine to create new value in the market. This edition is updated with recent international research, including research and examples from Europe, the US, and the Asia-Pacific region.

Entrepreneurship with PowerWeb

McGraw-Hill/Irwin

This open access book investigates the inter-relationship between the mind and a potential opportunity to explore the psychology of entrepreneurship. Building on recent research, this book offers a broad scope investigation of the different aspects of what goes on in the mind of the (potential) entrepreneur as he or she considers the pursuit of a potential opportunity, the creation of a new organization, and/or the selection of an entrepreneurial career. This book focuses on individuals as the level of analysis and explores the impact of the organization and the environment only inasmuch as they impact the individual's cognitions. Readers will learn why some individuals and managers are able to

able to identify and successfully act upon opportunities in uncertain environments while others are not. This book applies a cognitive lens to understand individuals' knowledge, motivation, attention, identity, and emotions in the entrepreneurial process. International Entrepreneurship Merrill Publishing Company

This book is useful for B.Com., M.Com., and MBA students of all Indian Universities. Presentation of various aspects of entrepreneurship is the most salient features of this book. Clarity of all topics has been given throughout. Description of the most difficult topics, in a simple and easy to follow style, has been the authors main attempt. At the end of the each chapter Assessment Questions are included in this book.

Glossary, Bibliography, Author Index, Subject Index and Abbreviations are incorporated at the end of the book.

Entrepreneurship Springer

Fully revised and expanded for the first time in a decade, this is Guy Kawasaki's classic, bestselling guide to launching and making your new product, service, or idea a success. Whether you're an aspiring entrepreneur, small-business owner, intrapreneur, or not-for-profit leader, there's no shortage of advice on topics such as innovating, recruiting, fund raising, and branding. In fact, there are so many books, articles, websites, blogs, webinars, and conferences that many startups get paralyzed, or they focus on the wrong priorities and go broke before they succeed. The Art of the Start 2.0 solves that problem by

distilling Guy Kawasaki's decades of experience as one of the most hardworking and irreverent strategists in the business world. Guy has totally overhauled this iconic, essential guide for anyone starting anything. It's 64 percent longer than version 1.0 and features his latest insights and practical advice about social media, crowdfunding, cloud computing, and many other topics. Guy understands the seismic changes in business over the last decade: Once-invulnerable market leaders are struggling. Many of the basics of getting established have become easier, cheaper, and more democratic. Business plans are no longer necessary. Social media has replaced PR and advertising as the key method of promotion. Crowdfunding is now a viable

alternative to investors. The cloud makes basic infrastructure affordable for almost any new venture. The Art of the Start 2.0 will show you how to effectively deploy all these new tools. And it will help you master the fundamental challenges that have not changed: building a strong team, creating an awesome product or service, and facing down your competition. As Guy likes to say, "Entrepreneur is a state of mind, not a job title." His book will help you make your crazy ideas stick, through an adventure that's more art than science – the art of the start.

Entrepreneurship for the 21st Century Taylor & Francis

One key for success for an entrepreneur is to obtain sales (revenue) and profits as quickly as possible upon launching

the venture. Entrepreneurial Marketing focuses on this and the essential elements of success in order to achieve these needed sales and revenues and then grow the company. The authors build a comprehensive, state-of-the-art picture of entrepreneurial marketing issues, providing major theoretical and empirical evidence that offers a clear, concise view of the field. Through an international approach that combines both theoretical and empirical knowledge on entrepreneurship and marketing, this book informs and enhances an entrepreneurs' creativity, their ability to bring innovations to the market and their willingness to face risk and change the world. Key components addressed include: identifying and selecting the market, determining the

consumer needs cost-effectively, executing the basic elements of the marketing mix (product, price, distribution, and promotion) and competing successfully in the domestic and global markets by implementing a sound marketing plan. Numerous illustrative examples bring the content to life. The mix of theoretical content, examples, empirical analyses and case studies, make this book an excellent resource for students, professors, researchers, practitioners, and policymakers all over the world. Entrepreneurship Entrepreneurship Entrepreneurship McGraw-Hill Education **New Venture Creation** FT Press Te series Perspectives in Entrepreneurship: A Research Companion provides an authoritative

overview of specialised themes in entrepreneurship. Each of the four books presents the conceptual framework and foundations underlying a specialist field of scholarship in entrepreneurship. The series is inspired by the dearth of higher-level texts available in South Africa, failing to encapsulate the rigorous research evident in the growing field of entrepreneurship internationally. The content is driven by a judicious selection and interpretation of key knowledge set in context by introducing and delineating major topics previously not discussed in-depth in traditional entrepreneurial texts. A blend of theoretical and empirical evidence is presented that collectively demonstrates the convergence of thinking on a particular

theme. Identifying and evaluating the most seminal and impactful scholarly research on different subject areas where entrepreneurship is at the core, serves to achieve this convergence. By applying a theoretical lens to central issues 'about entrepreneurship' rather than focusing on practical issues of 'how to', the series has a conceptual outlook with specialist areas in detailed narrative. The book is deliberately structured to add value to learners who are undertaking secondary programmes in entrepreneurship by building on basic entrepreneurship principles and theory. The series builds on fundamental entrepreneurial texts. Each book provides a valuable knowledge base for educators, third year and postgraduate students, researchers, policy makers, and service providers.
