How to Produce Effective Operations and Maintenance Manuals Amer Society of Civil Engineers

Includes DOD Survey and Investigations Staff report, "Report to the Committee on Appropriations, U.S. House of Representatives on Procurement Policies and Practices," Jan. 1956 (p. 3-98).

Department of Defense Appropriations for 1957: Procurement Policies and Practices of the Department of Defense ASM International

A step-by-step guide to creating accurate, comprehensive, and easy to understand operations and maintenance manuals. From defining the audience to producing a hardcopy or online manual, the author draws on his years of experience to explain the process from start to finish. This guide is required reading for the facility operator, maintenance technician, training coordinator, and manager; those who must have the necessary tools and information to create O&M manuals that are clear, concise, and written at the level of the staff involved in the day-to-day operations and maintenance of the facility. This book, which includes valuable sample manual sections, covers such topics as overall organization, defining the level of detail, standard operating procedures, developing a style guide, developing HTML-based manuals, and placing and viewing CAD drawings online.

Bibliography of Scientific and Industrial Reports John Wiley & Sons

English abstracts from Kholodil'naia tekhnika.

Paper Mill News

This manual is aimed at all healthcare practitioners, from novice to expert, who care for the critically ill patient, recognising that different disciplines contribute to the provision of effective

care and that essential knowledge and skills are shared by all practitioners. It provides evidence-based guidelines on core critical care procedures and includes a comprehensive competency framework and specific competencies to enable practitioners to assess their abilities and expertise. Each chapter provides a comprehensive overview, beginning with basic principles and progressing to more complex ideas, to support practitioners to develop their knowledge, skills and competencies in critical care.

Compressor, Air, Trailer Mounted, 4 Wheels, Pneumatic Tires, Diesel Driven, 500 CFM, Worthington Model 500 (less Engine).
