 Some things you just can't say, even to your parents. "Dad, did you ever want to be a mermaid?" Nope. Don't say it. Not if you're a boy. You gotta keep it inside. Maybe thirteen-year-old Todd Winslow is the best diver at summer camp. If only diving could save him. Underwater is a much kinder

world, a secret mermaid world that no one else can know about - not Dad, and definitely not Brad, the camp's numero uno bad boy. Todd tries to fit in, playing nice with flirty model-wannabe Sylvie and shunning nature-nerd Olivia - but you can only fool people for so long. Brad is watching every move, ready to expose all that's different about Todd. Then there's the doll thing. And Dad finds

Understanding Sociological Theory for Educational Practices

Psychological Assessment Resources No psychological topic is of greater interest to the general public, and to the discipline of psychology as a whole, than intelligence. Laypeople argue at

length about who is intelligent, how to become smarter, and what difference IQ makes. Psychologists and other scholars debate the definition of intelligence, the best ways to measure it, and the relation between intelligence and other social virtues, like creativity, or social vices, like criminal behavior. Much controversy has surrounded the study of

intelligence, but few would dispute Richard Herrnstein's claim that the study of intelligence has been one of the greatest successes of 20th century psychology. **Essentials of Myers-Briggs Type Indicator Assessment** MacMillan Publishing Company Selections from Murray's writings portray the fundamentals of his theories of personality, mental life, and psychoanalysis
