Qualitative researchers have long made use of many different interview forms. Yet, for novice researchers, making the connections between "theory" and "method" is not always easy. This book provides a theoretically-informed guide for researchers learning how to interview in the social sciences. In order to undertake quality research using qualitative interviews, a researcher must be able to theorize the application of interviews to investigate research problems in social science research. As part of this process, researchers examine their subject positions in relation to participants, and examine their interview interactions systematically to inform research design. This book provides a practical approach to interviewing, helping researchers to learn about themselves as interviewers in ways that will inform the design, conduct, analysis and representation of interview data. The author takes the reader through the practicalities of designing and conducting an interview study, and relates various forms of interview to different underlying epistemological assumptions about how knowledge is produced. The book concludes with practical advice and perspectives from experienced researchers who use interviews as a method of data generation. This book is written for a multidisciplinary audience of students of qualitative research methods.

"And now abide faith, hope, love, these three; but the greatest of these is love."--1 Corinthians 13:13 Walking by faith and not by sight, Bobby and Sherry Burnette serve as full-time missionaries in Haiti, ministering to the poorest of the poor, spreading the Word of God, and showing Christ's love by example. They feed the hungry, clothe the naked, shelter the homeless, and heal the sick. It has always been a joy, but it hasn't always been easy. They wake up early each day--usually 4:00 a.m.--to spend time together in prayer and reading God's Word. Many of the thoughts in this book, Faith, Hope, and Love Devotional: A 90-Day Walk with God, came out of what God taught them during this precious time. Others came later in the day, when God brought back to their hearts and minds the insights He had revealed in the early morning hours. Faith, hope, and love are the three spiritual elements we need in our lives every day. While the lessons Bobby and Sherry present were learned on the mission field, they are true for everyone, everywhere. This is the nature of God's truth. It works in Haiti, and it will work for you, wherever you are in the world. In this devotional, the Burnettes share their struggles and their triumphs, all the while rejoicing that the Lord is always faithful to His promise to help them as they help others in this land of mountains and beauty, poverty and voodoo. Join them in ninety days of prayer and Scripture readings as they share touching and humorous stories from their lives and the gospel.

The Modern Voice of an Irish Immigrant is author Imelda Cummins-DeMelkon's fascinating account of her experience growing up in Ireland as one of twelve children, and the struggle for autonomy and independence that led to her choice of immigration to the United States. The author speaks honestly of the conflicts she experienced as a child and the overzealous paternal control that dominated her young life. The reader follows the author's journey as it weaves between her experiences in both countries. Ultimately, The Modern Voice of an Irish Immigrant shows us that through a deep commitment to personal growth, one can indeed emerge whole and able to enjoy a full and complete life. Among the highly interesting topics the book explores are the changing face of the Catholic Church in Ireland and the United States, the uniform wish of immigrants to recreate the best of the culture they left behind, what it is to be a conscientious parent, the reality of ill and aging parents, and finally, the joy of the discovery of a life that is worth the often challenging effort.

The Shaping of One Man's Game from Patient Mouse to Rabid Wolf Bentley Publishers

The so-called 'Antioch Incident' - the confrontation between the apostles Peter and Paul in Galatians 2.11-21 - continues to be a source of controversy in both scholarly and popular estimations of the emergence of the early Church and the development of Pauline theology. Paul and the Crucified Christ in Antioch offers an interesting interpretation of Paul's account of and response to this event, creatively combining historical reconstruction, detailed exegesis, and theological reflection. S. A. Cummins argues that the nature and significance of the central issue at stake in Antioch - whether the Torah or Jesus Christ determines who are the people of God - gains great clarity and force when viewed in relation to a Maccabean martyr model of Judaism as now christologically reconfigured and redeployed in the life and ministry of the apostle Paul.

In 2010, the composer Gustav Mahler celebrates his one hundred fiftieth birthday. In Mahler Re-Composed, linguist George Cummins shares a collection of six interrelated essays that provide a fresh perspective on difficult questions familiar to Mahler lovers. Cummins, a teacher of Russian and Czech at Tulane University, brings a uniquely Czech perspective to the study of Mahler's personality and work. In his careful examination of the composer's life and work, Cummins begins with an introduction that provides a glimpse into Mahler the Czech and continues with an account of Mahler's conversion from Judaism to Catholicism while making his way to the Vienna Hofoper directorship. Cummins also takes a skeptical look at the legend of Mahler as an impotent, humorless neurotic and recreates the friendship between Strauss and Mahler two of the greatest musicians of the early twentieth century.
