Two distinguished historians, Barbara Metcalf and Thomas Metcalf, come together to write a new and accessible account of modern India. The narrative, which charts the history of India from the Mughals, through the colonial encounter and independence, to the present day, challenges imperialist notions of an unchanging and monolithic India bounded by tradition and religious hierarchies. Instead the book reveals a complex society which is constantly transforming and reinventing itself in response to political and social challenges. The book is beautifully composed and richly illustrated. It will be essential reading for anyone who wants to understand India, her turbulent past and her present uncertainties.

### *A Military History of India since 1972*

Cambridge University Press

The object of this volume is to provide within a moderate compass a compendious account of the history, institutions, and culture of ancient India from the dim ages of antiquity to the establishment of Moslem rule. It has not been planned to meet the needs of any particular class of readers. Its primary purpose is to serve alike students, scholars, and all others, interested in the study of ancient Indian history, as a book of ready use and reference. The pages which follow every attempt has been made to avoid presenting a mass of the dry bones of historical fact or overburdening the account with intricate discussions on knotty problems of history, on the one hand, and giving a

mere general and readable survey of India's long and fascinating past, on the other. I have endeavoured to tap and utilise properly the available sources of information, literary, epigraphic, and numismatic, and also to embody and set forth in a consistent manner the results of up-to-date researches on different topics and epochs. All the materials have been patiently sifted and critically examined with the sole desire to arrive at historical truth and scientific accuracy; and the unfortunate tendency, manifest in some modern publications, to extol or decry without warrant any of the manifold aspects of India's panoramic story, has been scrupulously eschewed. This book gives an authoritative, up-to-date, and compendious account of the history,

institutions and culture of India from the earliest times to the advent of the Moslem period. It is based on all available materials - literary, epigraphic, and numismatic - and is written in a most elegant, sober, and lucid style. The author brings to bear upon his task not only profound scholarship and critical acumen but also scrupulous regard for historical truth, the accuracy of facts and impartiality of judgement. The merit of the book has been enhanced by an exhaustive Bibliography and a comprehensive Index. Students, scholars and the general reader alike will find the book highly interesting, useful and valuable for study and references. *A History of Modern India* S. Chand Publishing

### **An Intellectual History for India**

Prabhat Prakashan

This volume addresses the power of ideas in the making of Indian political modernity. As an intermediate history of connections between South Asia and the global arena the volume raises new issues in intellectual history. It reviews the period from the emergence of constitutional liberalism in the 1830s,

through the swadeshi era to the writings of Tilak, Azad and Gandhi in the twentieth century. While several contributions reflect on the ideologies of nationalism, the volume seeks to rescue intellectual history from being simply a narration of the nation-state. It does not seek to create a 'canon' of political thought so much as to show how Indian concepts of state and society were redrawn in the context of emergent globalized debates about freedom, the constitution of the self and the good society in the late colonial era. In so doing the contributions here resituate an Indian intellectual history that has long been eclipsed by social and political history. These essays were originally published in a Special issue of the journal *Modern Intellectual History* (CUP,

April 2007).

It was a court battle between the first Prime Minister of India Jawahar Lal Nehru and Organiser, an English weekly backed by the RSS that led to restrictions on freedom of expression which we are debating today. The RSS had defended the sacred Sikh Shrine 'Darbar Sahib' at Amritsar twice when Muslim League led mobs attacked it in 1947. Did you know that one single anti-India and pro-China book 'India's China War' written by Anglo-Australian journalist Neville Maxwell shaped the global narrative against India for more than five decades. It was a Swedish journalist Bertil Lintner who challenged it and turned the tables on Chinese propaganda with his book

'China's India War' but even Indians don't talk about it. Everyone remembers the 1962 war when India lost to China but there was another war in 1967 on Sikkim border where India took the revenge of 1967 and defeated China. Most of us don't even know about this great victory! Indians have been made to remember the 1962 defeat and forget the glorious victory of 1967. Many such stories which comprise the forgotten history of India are part of this book. This forgotten history of India has been buried deep down in the dusty archives waiting to be told.

A Military History of India since 1972 is a definitive work of military history that gives the Indian military its rightful place as a key contributor to Indian democracy. Arjun Subramaniam offers an engaging narrative that combines superb storytelling with the academic rigor of deep research and analysis. It is a comprehensive account of India's resolute, responsible, and restrained use of force as an instrument of statecraft and how the military has played an

essential role in securing the country's democratic tradition along with its rise as an economic and demographic power. This book is also about how the Indian nation-state and its armed forces have coped with the changing contours of modern conflict in the decades since 1972. These include the 2016 "surgical" or cross-border strikes by the Indian Army's Special Forces across the line of control with Pakistan, the face-off with the Chinese at Doklam in 2017 and in Ladakh in 2020, the preemptive punitive strikes by the Indian Air Force against terrorist camps in Pakistan in 2019, and the large-scale aerial engagement between the Indian Air Force and the Pakistan Air Force the following day. These conflicts also include the long-running insurgencies in the northeast,

terrorism and proxy war in Jammu and Kashmir, separatist violence in Punjab, and the Indian Peacekeeping Force's intervention in Sri Lanka. The author also includes a chapter on the development of India's nuclear capabilities. Arjun Subramaniam enlivens the narrative with a practitioner's insights amplified by interviews and conversations with almost a hundred serving and retired officers, including former chiefs from all three armed forces, for an in-depth exploration of land, air, and naval operations. The structure of the book offers readers a choice of either embarking on a comprehensive and chronological examination of war and conflict in contemporary India or a selective reading based on specific time lines or campaigns.

In a second edition of their successful Concise History of Modern India, Barbara Metcalf and Thomas Metcalf explore India's modern history afresh and update the events of the last decade. These include the takeover of Congress from the seemingly entrenched Hindu nationalist party in 2004, India's huge advances in technology and the country's new role as a major player in world affairs. From the days of the Mughals, through the British Empire, and into Independence, the country has been transformed by its institutional structures. It is these institutions which have helped bring about the social, cultural and economic changes that have taken place over the last half

century and paved the way for the modern success story. Despite these advances, poverty, social inequality and religious division still fester. In response to these dilemmas, the book grapples with questions of caste and religious identity, and the nature of the Indian nation.

This is a comprehensive, intelligible and interesting portrait of Ancient Indian History and Civilization from a national historical point of view. The work is divided into three broad divisions of the natural course of cultural development in Ancient India: (1) From the prehistoric age to 600 B.C., (2) From 600 B.C. to 300 A.D., (3) From 300 A.D. to 1200 A.D. The work describes the political, economic, religious and cultural conditions of the country, the expansionist activities, the colonisation

schemes of her rulers in the Far East.
